

10, 2017. The lower deck for the Steel Bridge will operate in accordance with 33 CFR 117.897(c)(3)(ii), and at all times outside the specified deviation period, the upper deck of the Steel Bridge will operate in accordance with 33 CFR 117.897(c)(3)(ii).

Waterway usage on this part of the Willamette River includes vessels ranging from commercial tug and barge to small pleasure craft. Vessels able to pass through the bridge with the lower deck in the open-to-navigation position or upper deck in the closed-to-navigation position may do so at any time. The bridge will be able to open for emergencies, and there is no immediate alternate route for vessels to pass. The Coast Guard has conducted a public outreach for this closure of the upper deck on the Steel Bridge to known mariners that transit on the river. The Coast Guard has not received any objections to this temporary deviation from the operating schedule. The Coast Guard will also inform the users of the waterways through our Local and Broadcast Notices to Mariners of the change in operating schedule for the bridge so that vessel operators can arrange their transits to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: May 9, 2017.

Steven M. Fischer,

Bridge Administrator, Thirteenth Coast Guard District.

Coast Guard

33 CFR Part 117

[Docket No. USCG-2017-0407]

Drawbridge Operation Regulation; Lake Washington Ship Canal, Seattle, WA

AGENCY: Coast Guard, DHS.

ACTION: Notice of deviation from drawbridge regulation.

SUMMARY: The Coast Guard has issued a temporary deviation from the operating schedule that governs the Montlake Bridge across Lake Washington Ship Canal, mile 5.2, at Seattle, WA. The deviation is necessary to accommodate

the Rock and Roll Marathon event. This deviation allows the bridge span to remain in the closed-to-navigation position.

DATES: This deviation is effective from 6:30 a.m. to 8:30 a.m. on June 18, 2017.

ADDRESSES: The docket for this deviation, [USCG-2017-0407] is available at <http://www.regulations.gov>. Type the docket number in the "SEARCH" box and click "SEARCH." Click on Open Docket Folder on the line associated with this deviation.

FOR FURTHER INFORMATION CONTACT: If you have questions on this temporary deviation, call or email Mr. Steven Fischer, Bridge Administrator, Thirteenth Coast Guard District; telephone 206-220-7282, email d13-pf-d13bridges@uscg.mil.

SUPPLEMENTARY INFORMATION: The Washington Department of Transportation (bridge owner) has requested a temporary deviation from the operating schedule for the Montlake Bridge across Lake Washington Ship Canal, at mile 5.2, at Seattle, WA. The deviation is necessary to accommodate Rock and Roll Marathon event participants to cross the bridge safely. The Montlake Bridge is a double leaf bascule bridge; and in the closed-to-navigation position provides 30 feet of vertical clearance throughout the navigation channel, and 46 feet of vertical clearance throughout the center 60 feet of the bridge; vertical clearance references to Mean Water Level of Lake Washington. To facilitate this event, the double bascule span will remain closed from 6:30 a.m. to 8:30 a.m. on June 18, 2017. The Coast Guard provided notice of and objections to this deviation to local mariners via the Local Notice Mariners. No objections were submitted to the Coast Guard.

The normal operating schedule for the Montlake Bridge operates in accordance with 33 CFR 117.1051(e). Waterway usage on the Lake Washington Ship Canal ranges from commercial tug and barge to small pleasure craft. Vessels able to pass through the bridge in the closed-to-navigation position may do so at anytime. The bridge will be able to open for emergencies and emergency vessels in route to a call. Lake Washington Ship Canal has no immediate alternate route for vessels to pass. The Coast Guard will also inform the users of the waterways through our Local and Broadcast Notices to Mariners of the change in operating schedule for the bridge so that vessels can arrange their transits to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular

operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: May 10, 2017.

Steven M. Fischer,

Bridge Administrator, Thirteenth Coast Guard District.

33 CFR Part 117

[Docket No. USCG-2017-0373]

Drawbridge Operation Regulation; Isle of Wight (Sinepuxent) Bay, Ocean City, MD

AGENCY: Coast Guard, DHS.

ACTION: Notice of deviation from drawbridge regulation.

SUMMARY: The Coast Guard has issued a temporary deviation from the operating schedule that governs the U.S. 50 (Harry Kelly) Bridge across the Isle of Wight (Sinepuxent) Bay, mile 0.5, at Ocean City, MD. The deviation is necessary to accommodate the free movement of pedestrians and vehicles during the 2017 Ocean City Air Show. This deviation allows the bridge to remain in the closed-to-navigation position.

DATES: This deviation is effective from 4 p.m. on June 17, 2017, until 5 p.m. on June 18, 2017.

ADDRESSES: The docket for this deviation, [USCG-2017-0373], is available at <http://www.regulations.gov>. Type the docket number in the "SEARCH" box and click "SEARCH". Click on Open Docket Folder on the line associated with this deviation.

FOR FURTHER INFORMATION CONTACT: If you have questions on this temporary deviation, call or email Mr. Mickey Sanders, Bridge Administration Branch Fifth District, Coast Guard; telephone (757) 398-6587, email Mickey.D.Sanders2@uscg.mil.

SUPPLEMENTARY INFORMATION: The event director, Ocean City, Maryland, Department of Emergency Services, with approval from the Maryland State Highway Administration, who owns and operates the U.S. 50 (Harry Kelly) Bridge, has requested a temporary deviation from the current operating regulations to accommodate the free movement of pedestrians and vehicles during the 2017 Ocean City Air Show. The bridge is a double bascule bridge

and has a vertical clearance in the closed position of 13 feet above mean high water.

The current operating schedule is set out in 33 CFR 117.559. Under this temporary deviation, the bridge will be maintained in the closed-to-navigation position from 4 p.m. to 5 p.m. on June 17 and 18, 2017. The Isle of Wight (Sinepuxent) Bay is used by a variety of vessels including small commercial vessels and recreational vessels. The Coast Guard has carefully considered the nature and volume of vessel traffic on the waterway in publishing this temporary deviation.

Vessels able to pass through the bridge in the closed position may do so at anytime. The bridge will be able to open for emergencies and there is no immediate alternate route for vessels unable to pass through the bridge in the closed position. The Coast Guard will also inform the users of the waterways through our Local and Broadcast Notice to Mariners of the change in operating schedule for the bridge so that vessel operators can arrange their transits to minimize any impacts caused by this temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: May 12, 2017.

Hal R. Pitts,

Bridge Program Manager, Fifth Coast Guard District.

33 CFR Part 165

[Docket Number USCG-2017-0336]

RIN 1625-AA00

Safety Zone; Tennessee River 323.0-325.0, Huntsville, AL

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a safety zone for all navigable waters of the Tennessee River beginning at mile marker 323.0 and ending at mile marker 325.0 beginning at noon on May 15, 2017 through noon on May 22, 2017. This safety zone is necessary to protect persons, property,

and infrastructure from potential damage and safety hazards associated with a cargo transfer operation taking place at the Redstone Arsenal. This rule prohibits persons and vessels from entering the safety zone area unless authorized by the Captain of the Port Ohio Valley or a designated representative.

DATES: This rule is effective without actual notice from May 17, 2017 through noon on May 22, 2017. For purposes of enforcement, actual notice will be used from noon on May 15, 2017, through May 17, 2017.

ADDRESSES: To view documents mentioned in this preamble as being available in the docket, go to <http://www.regulations.gov>, type USCG-2017-0336 in the "SEARCH" box and click "SEARCH." Click on Open Docket Folder on the line associated with this rule.

FOR FURTHER INFORMATION CONTACT: If you have questions on this rule, call or email Petty Officer Ashley Schad, MSD Nashville, Nashville, TN, at 615-736-5421 or at Ashley.M.Schad@uscg.mil.

SUPPLEMENTARY INFORMATION:

I. Table of Abbreviations

CFR Code of Federal Regulations
COTP Captain of the Port Ohio Valley
DHS Department of Homeland Security
FR Federal Register
NPRM Notice of proposed rulemaking
§ Section
U.S.C. United States Code

II. Background Information and Regulatory History

On April 18, 2017, Redstone Arsenal notified the Coast Guard of cargo transfer operations that would take place from May 15, 2017 to May 22, 2017 during the movement of hazardous cargo. The cargo transfer operations will take place at various times determined by environmental factors. The Captain of the Port Ohio Valley (COTP) has determined that this safety zone is necessary to protect persons, property, and infrastructure before, during, and after the cargo transfer operations.

The Coast Guard is issuing this temporary rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are "impracticable, unnecessary, or contrary to the public interest." Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a

notice of proposed rulemaking (NPRM) with respect to this rule because the Coast Guard was informed of this project in early April, but full details of the operation on or over the navigable waterway were not provided until April 18, 2017. The notification of operations was made only a few weeks before the project was scheduled to begin. Immediate action is needed to respond to potential safety hazards related to this cargo transfer operation on or over this navigable waterway. We must establish this safety zone by May 15, 2017. As such, it is impracticable to publish an NPRM because we lack sufficient time to provide a reasonable comment period and then consider those comments before issuing the rule.

We are issuing this rule, and under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making it effective less than 30 days after publication in the **Federal Register**. Delaying the effective date of this rule would be contrary to public interest because immediate action is needed to establish a safety zone to protect persons, property, and infrastructure whenever cargo transfer operations take place at Redstone Arsenal from May 15, 2017 until May 22, 2017.

III. Legal Authority and Need for Rule

The Coast Guard is issuing this rule under authority in 33 U.S.C. 1231. The COTP has determined the need to protect persons, property, and infrastructure during the cargo transfer operations taking place at the Redstone Arsenal on the Tennessee River at mile marker 323.0 to mile marker 325.0. This rule is needed to protect personnel, vessels, and these navigable waters before, during, and after cargo transfer operations take place.

IV. Discussion of the Rule

The Captain of the Port Ohio Valley is establishing this safety zone from May 15, 2017 through May 22, 2017 for all navigable waters of the Tennessee River beginning at mile marker 323.0 and ending at mile marker 325.0. The Coast Guard was informed that the operations would take place during daylight hours. All vessels intending to transit the Tennessee River between mile markers 323.0 and 325.0 from May 15, 2017 to May 22, 2017 must contact COTP or a designated representative to request permission to transit at a time when critical operations are not taking place. If transit permission is granted, the Tennessee River between mile markers 323.0 and 325.0 will be a no wake zone. Safety zone enforcement times will be announced via Broadcast Notice to Mariners (BNM), Local Notices to
