

reimbursement by the program, and there are limits on other categories of expenses. CCC also will not reimburse unreasonable expenditures or expenditures made prior to approval. Full details are available in the MAP regulations in § 1485.17.

E. Application Review Information

1. *Criteria and Review Process:* A description of the FAS process for reviewing applications and the criteria for allocating available MAP funds is as follows:

(1) Phase 1—Sufficiency Review and FAS Divisional Review

Applications received by the closing date will be reviewed by FAS to determine the eligibility of the applicants and the completeness of the applications. These requirements appear in §§ 1485.12 and 1485.13 of the MAP regulations. Applications that meet the requirements will then be further evaluated by the appropriate Commodity Branch office of FAS' Cooperator Programs Division. The Commodity Branches will review each application against the criteria listed in § 1485.14(b) and (c) of the MAP regulations as well as in this Notice. The purpose of this review is to identify meritorious proposals and to recommend an appropriate funding level for each application based upon these criteria.

(2) Phase 2—Competitive Review

Meritorious applications then will be passed on to the Office of the Deputy Administrator, Office of Trade Programs, for the purpose of allocating available funds among the applicants. Applicants will compete for funds on the basis of the following allocation criteria as applicable (the number in parentheses represents the percentage weight factor):

(a) Applicant's Contribution Level (40): The applicant's 4-year average share (2015–2018) of all contributions under the MAP compared to the applicant's 4-year average share (2015–2018) of the funding level for all MAP Participants.

(b) Past U.S. Export Performance (30): The 3-year average share (2014–2016) of the value of U.S. exports promoted by the applicant compared to the applicant's 2-year average share (2016–2017) of the funding level for all MAP Participants plus, for those groups participating in the Cooperator program, the 2-year average share (2016–2017) of all Cooperator program budgets.

(c) Projected U.S. Export Goals (15): The total dollar value of projected U.S. exports of the commodities being

promoted by the applicant for the year 2018 compared to the applicant's requested funding level.

(d) Accuracy of Past U.S. Export Projections (15): The actual dollar value share of U.S. exports of the commodities being promoted by the applicant for the year 2016 as reported in the 2016 MAP application compared to the projection of U.S. exports for 2016 as specified in the 2016 MAP application.

The Commodity Branches' recommended funding levels for each applicant are adjusted by each weight factor as described above to determine the amount of funds allocated to each applicant.

In addition, FAS, prior to making a Federal award with a total amount of Federal share greater than the simplified acquisition threshold, is required to review and consider any information about the applicant that is in the designated integrity and performance system accessible through SAM (currently FAPIIS) (see 41 U.S.C. 2313). An applicant, at its option, may review information in the designated integrity and performance systems accessible through SAM and comment on any information about itself that a Federal awarding agency previously entered and is currently in the designated integrity and performance system accessible through SAM. FAS will consider any comments by the applicant, in addition to the other information in the designated integrity and performance system, in making a judgment about the applicant's integrity, business ethics, and record of performance under Federal awards when completing the review of risk posed by applicants as described in 2 CFR 200.205 "Federal awarding agency review of risk posed by applicants."

2. *Anticipated Announcement Date:* Announcements of funding decisions for the MAP are anticipated during October 2017.

F. Award Administration Information

1. *Award Notices:* FAS will notify each applicant in writing of the final disposition of its application. FAS will send an approval letter and program agreement to each approved applicant. The approval letter and program agreement will specify the terms and conditions applicable to the project, including the levels of MAP funding and cost-share contribution requirements.

2. *Administrative and National Policy Requirements:* Interested parties should review the MAP regulations, which are available at the following URL address: <http://www.fas.usda.gov/programs/market-access-program-map>.

3. *Reporting:* FAS requires various reports and evaluations from MAP Participants. Reporting requirements are detailed in §§ 1485.22 and 1485.23 of the MAP regulations.

SUPPLEMENTARY INFORMATION:

Title: Study of Third Party Processor Services, Fees, and Business Practices.
OMB Number: 0584—NEW.
Expiration Date: Not yet determined.
Type of Request: New collection.
Abstract: This study seeks to understand the business practices of

TPPs and ISOs that provide EBT processing services and equipment to SNAP retailers to (1) assess retailers' satisfaction with EBT products and services needed to participate in the SNAP program; and (2) develop a set of best practices to inform FNS's guidance for retailers on what to consider when selecting, contracting with, and working with EBT vendors (TPPs and ISOs). The study results will also provide FNS with the information needed to inform future FNS policies regarding requirements for vendors providing EBT equipment and services to authorized retailers and TPP services-related guidance for retailers.

The study relies on two data sources: (1) A survey of SNAP retailers regarding their business relations with EBT vendors as well as satisfaction with the equipment and services acquired, and (2) interviews with TPPs and ISOs about their business practices with SNAP retailers, products and services, including costs and recommendations for retailers seeking to acquire EBT products and services.

SNAP Retailer Satisfaction Survey: The survey will use a nationally representative sample of SNAP retailers, stratified by retail sales levels and urban/rural locations. The survey sample will include non-exempt retailers¹ that must pay 100% of the cost for EBT equipment and services. The retailer survey sample will exclude retailers that operate in Guam, Puerto Rico, and the U.S. Virgin Islands.

An invitation to participate in the national survey will be mailed to sampled retailers. The target audience for this survey will be store managers or operations managers. Participants will have the option to respond either online

¹ Retailers that are not exempt from the 2014 Farm Bill mandate and must pay 100% for EBT equipment and services includes Convenience Stores, Combination Grocery/Other, Super Store, Supermarket, Smaller Grocery Store, Medium Grocery Store, Large Grocery Store, Meat/Poultry Specialty, Bakery Specialty, Seafood Specialty, and Fruits/Vegetables Specialty. Retailers that are exempt from the 2014 Farm Bill mandate may continue to qualify for free EBT equipment and services until further notice.

or through an interactive voice response system. Participants who do not start the survey after 10 business days, will receive a mail reminder. The study will follow up with non-respondents via telephone 10 business days after the reminder mail drop. Telephone follow-ups will include five attempts to each number in the sample at different times of the day and days of the week.

TPP and ISO Telephone Interviews: Telephone interviews with TPPs and ISOs will follow a telephone interview protocol. Participants will receive an interview guide and an invitation letter describing the purpose of the study and how the data will be used. As the number and identity of TPPs and ISOs is not known, the study will use a snowball sampling approach to identify interviewees. Snowball sampling operates as a participant recruitment method in which research participants are asked to assist in identifying other potential respondents. Preliminary research estimates that there are 5 to 10 TPPs and 50 to 55 ISOs supporting the EBT market.

Affected Public: The study will include three respondent groups: Non-exempt SNAP retailers, TPPs and ISOs in the EBT products and services market.

Estimated number of respondents: 1,500 SNAP retailers and up to 55 TPPs and ISOs.

Estimated Frequency of Response per Respondent: This is a one-time data collection for each respondent.

Estimated Time per Response: The completed SNAP Retailer Survey response burden is estimated at 15 minutes per respondent. Each TPP or ISO interview is estimated to take a total of 1 hour and 30 minutes.

Estimated Total Annual Burden on Respondents: The total public reporting burden for this collection of information is estimated at 415 hours and approximately 1,565 responses. Table 1 below details the estimated burden for each type of respondent.
