Abstract of proposed collection: The Assistance Coordination (AC) Office, established in June 2014, coordinates United States government foreign assistance in the Middle East and North Africa region for the Department of State, and manages the implementation of all the assistance functions within the Department of State's Bureau of Near Eastern Affairs. As a normal course of business and in compliance with OMB Guidelines contained in 2 CFR 200, recipient organizations are required to provide, and the U.S. Department of State is required to collect, periodic program and financial performance reports. The responsibility of the Department to track and monitor the programmatic and financial performance necessitates a database that can help facilitate this in a consistent and standardized manner. The NEA/AC Performance Reporting System (ACPRS) enables enhanced monitoring and evaluation of grants

through standardized collection and storage of relevant award elements, such as quarterly progress reports, workplans, results monitoring plans, grant agreements, and other business information related to AC implementers. The ACPRS streamlines communication with implementers and allows for rapid identification of information gaps for specific projects.

Methodology: Information will be electronically entered into ACPRS by respondents.

Grants Manager, NEA/AC, U.S. Department of State.
