

burden hours of the transportation planning programs on respondents to reflect the Final Rule on Statewide and Nonmetropolitan Transportation Planning and Metropolitan Transportation Planning. On July 6, 2012, the President signed into law Public Law 112–141, the Moving Ahead for Progress in the 21st Century Act (MAP–21) and on December 4, 2015, signed into law Public Law 114–94, the Fixing America’s Surface Transportation Act (FAST). The MAP–21 makes significant changes to the statewide and nonmetropolitan planning process and the metropolitan transportation planning process, and the FAST makes minor changes to existing provisions. As a result, FHWA and FTA have issued a final rule that makes the regulations consistent with current statutory requirements. The rule is central to the implementation of the overall performance management framework created by MAP–21. The changes to the FHWA/FTA statewide and nonmetropolitan and metropolitan transportation planning regulations (23 CFR part 450 and 49 CFR part 613) make the regulations consistent with current statutory requirements. Major regulatory revisions include a new mandate for States and MPOs to take a performance-based approach to planning and programming; a new emphasis on the nonmetropolitan transportation planning process, by requiring States to have a higher level of involvement with nonmetropolitan local officials and providing a process for the creation of regional transportation planning organizations (RTPOs); a structural change to the membership of the larger MPOs; a new framework for voluntary scenario planning; and a process for programmatic mitigation plans. The revised burden hour estimates reflect the annual compliance burden of the requirements in the Final Rule on Statewide and Nonmetropolitan Transportation Planning and Metropolitan Transportation Planning published on May 27, 2016.

Annual Estimated Total Burden Hours: 4,199,279 hours.
