- c. Ways to enhance the quality, utility, and clarity of the information to be collected;

- e. Estimates of capital or startup costs and costs of operation, maintenance, and purchase of services to provide information.

At the end of the comment period, the comments and recommendations received will be analyzed to determine the extent to which the Federal Reserve should modify the proposed revisions prior to giving final approval.

Proposal to approve under OMB delegated authority the extension for three years, with revision, of the following report:

Report title: Ongoing Intermittent Survey of Households.

Agency form number: FR 3016.

OMB control number: 7100–0150.

Frequency: Monthly.

Respondents: Households and individuals.

Estimated number of respondents: 500.

Estimated average hours per response: 1.58 minutes.

Estimated annual burden hours: 158 hours.

General Description of Report: The Board uses this voluntary survey to obtain household-based information specifically tailored to the Board's policy, regulatory, and operational responsibilities. The Board primarily uses the survey to study consumer financial decisions, attitudes, and payment behavior. Currently, the University of Michigan's Survey Research Center (SRC) includes survey questions on behalf of the Board in an addendum to their regular bi-weekly Survey of Consumer Attitudes and Expectations. The SRC conducts the survey by telephone with a sample of 500 households and asks questions of special interest to the Board.

Proposed revisions: The Board proposes to eliminate the Division of Consumer and Community Affairs and other divisions' SRC surveys, as well as non-SRC surveys, as these surveys have not been conducted since 2010 and are not expected to be utilized in the next several years.

Legal authorization and confidentiality: The Board's Legal Division has determined that Section 2A of the Federal Reserve Act ("FRA") requires that the Federal Reserve Board and the Federal Open Market Committee maintain long run growth of the monetary and credit aggregates commensurate with the economy's long run potential to increase production, so as to promote effectively the goals of maximum employment, stable prices, and moderate long-term interest rates (12 U.S.C. 225a). Under section 12A of the FRA, the Federal Open Market Committee is required to implement regulations relating to the open market operations conducted by Federal Reserve Banks with a view to accommodating commerce and business and with regard to their bearing upon the general credit situation of the country (12 U.S.C. 263). Because the Board and the Federal Open Market Committee use the information obtained on the FR 3016 to fulfill these

obligations, these statutory provisions provide the legal authorization for the collection of information on the FR 3016. The FR 3016 is a voluntary survey. No issue of confidentiality normally arises under the FR 3016, as names and any other characteristics that would permit personal identification of respondents are not reported to the Board. However, should the Board obtain such information, it would likely be exempt under exemption 6 of the Freedom of Information Act (5 U.S.C. 552(b)(6)) to the extent that it includes “personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.”

Board of Governors of the Federal Reserve System, May 17, 2017.

Ann E. Misback,

Secretary of the Board.

In December 2000, the President delegated responsibility for funding, staffing, and operating the Advisory Board to HHS, which subsequently delegated this authority to CDC. NIOSH implements this responsibility for CDC. The charter was issued on August 3, 2001, renewed at appropriate intervals, rechartered on March 22, 2016 pursuant to Executive Order 13708, and will expire on September 30, 2017.

The Subcommittee for Dose Reconstruction Reviews was established to aid the Advisory Board in carrying out its duty to advise the Secretary, HHS, on dose reconstruction.

Matters for Discussion: The agenda for the Subcommittee meeting includes the following dose reconstruction program quality management and assurance activities: Dose reconstruction cases under review from Sets 14–23, including the Oak Ridge sites (Y–12, K–25, Oak Ridge National Laboratory), Hanford, Feed Materials Production Center (“Fernald”), Mound Plant, Rocky Flats Plant, Nevada Test Site, Idaho National Laboratory, Savannah River Site, and other Department of Energy and “Atomic Weapons Employer” facilities.

The agenda is subject to change as priorities dictate.
