

minimize disturbance. The program must address Safety and Environmental Management System elements including, but not limited to: Stop Work Authority; Ultimate Work Authority; Employee Participation Program (Safety); and Reporting Unsafe Working Conditions. The program must be designed to increase the sensitivity and understanding of personnel to community values, customs, and way-of-life in areas where such personnel will be operating. The orientation program also must include information concerning avoidance of conflicts with subsistence, sport, and commercial fishing activities.

Transportation of Hydrocarbons Stipulation: Pipelines may be required for transporting produced hydrocarbons to shore if BOEM determines that: (a) Pipeline rights-of-way can be determined and obtained; (b) laying such pipelines is technologically feasible and environmentally preferable; and (c) pipelines can be laid without net social loss, taking into account any incremental costs of pipelines over alternative methods of transportation and any incremental benefits in the form of increased environmental protection or reduced multiple-use conflicts.

After careful consideration, DOI has selected the Preferred Alternative in the FEIS to hold Lease Sale 244, including the mitigations described above. DOI's selection of the preferred alternative meets the purpose and need for the Proposed Action, as identified in the Cook Inlet Lease Sale 244 FEIS, and reflects an informed decision balancing orderly resource development with protection of the human, marine, and coastal environments while also ensuring that the public receives fair market value for these resources and that free-market competition is maintained.

Authority: This Notice of Availability is published pursuant to regulations (40 CFR part 1506) implementing the provisions of the National Environmental Policy Act (NEPA) of 1969, as amended (42 U.S.C. 4321 *et seq.*).

Dated: May 18, 2017.
