**II. Background**

On a biannual interval, an Environmental Modeling Public Meeting is held for presentation and discussion of current issues related to

modeling pesticide fate, transport, and exposure for risk assessment in a regulatory context. Meeting dates and abstract requests are announced through the "empmlist" forum on the LYRIS list server at [https://lists.epa.gov/read/all\\_forums/](https://lists.epa.gov/read/all_forums/).

**III. How can I request to participate in this meeting?**

You may submit a request to participate in this meeting to the person listed under **FOR FURTHER INFORMATION CONTACT**. Do not submit any information in your request that is considered Confidential Business Information (CBI). Requests to participate in the meeting, identified by docket ID number EPA-HQ-OPP-2009-0879, must be received on or before June 5, 2017.

**IV. Tentative Theme for the Meeting**

Subsurface Metabolism: Groundwater modeling conducted as part of the pesticide registration and re-evaluation processes typically assumes that biologically mediated metabolism does not occur at depths greater than 1 meter. The focus of this EMPM meeting concerns evidence of subsurface metabolism in groundwater, methods for measuring subsurface metabolism, and how to parameterize models to account for subsurface metabolism. As always, other timely topics beyond subsurface metabolism will be considered as time limits allow.

The BOSC is a balanced and diverse expert committee. The committee and each of its subcommittees possess necessary domains of expertise, depth and breadth of knowledge, and diverse and balanced scientific perspectives. Nominations will be evaluated on the basis of several criteria including: (a) Scientific and/or technical expertise, knowledge, and experience; (b) availability to serve and willingness to commit time to the committee (approximately one to three meetings per year including both face-to-face meetings and teleconferences); (c) absence of financial conflicts of interest; (d) absence of an appearance of a lack of impartiality; (e) skills working on committees and advisory panels; and (f) background and experiences that would contribute to the diversity of viewpoints on the Executive Committee or Subcommittee, e.g., workforce sector, geographical location, social, cultural,

and educational backgrounds, and professional affiliations.

The EPA’s evaluation of an absence of financial conflicts of interest will include a review of the “Confidential Financial Disclosure Form for Special Government Employees Serving on Federal Advisory Committees at the U.S. Environmental Protection Agency” (EPA Form 3110–48). This confidential form allows Government Officials to determine whether there is a statutory conflict between that person’s public responsibilities (which includes membership on an EPA Federal Advisory Committee) and private interests and activities, or the appearance of a lack of impartiality, as defined by Federal regulation. The form may be viewed and downloaded from the following URL address, <https://www.epa.gov/sap/confidential-financial-disclosure-form-environmental-protection-agency-special-government>.
