DEPARTMENT OF JUSTICE

Parole Commission

Sunshine Act Meeting

TIME AND DATE: 12:00 p.m., Wednesday, May 24, 2017.

PLACE: U.S. Parole Commission, 90 K Street NE., 3rd Floor, Washington, DC

STATUS: Closed.

MATTERS TO BE CONSIDERED:
Determination on SIX original jurisdiction cases.

CONTACT PERSON FOR MORE INFORMATION: Jacqueline Graham, Staff Assistant to the Chairman, U.S. Parole Commission, 90 K Street NE., 3rd Floor, Washington, DC 20530, (202) 346-7010.

Dated: May 17, 2017.

J. Patricia W. Smoot,
Chairman, U.S. Parole Commission.

BILLING CODE 4410-31-P

NATIONAL SCIENCE FOUNDATION

Notice of Permit Applications Received Under the Antarctic Conservation Act of 1978

AGENCY: National Science Foundation.

ACTION: Notice of permit applications received.

SUMMARY: The National Science Foundation (NSF) is required to publish a notice of permit applications received to conduct activities regulated under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act in the Code of Federal Regulations. This is the required notice of permit applications received.

DATES: Interested parties are invited to submit written data, comments, or views with respect to this permit application by June 26, 2017. This application may be inspected by interested parties at the Permit Office, address below.

ADDRESSES: Comments should be addressed to Permit Office, Room 755,

Office of Polar Programs, National Science Foundation, 4201 Wilson Boulevard, Arlington, Virginia 22230.

FOR FURTHER INFORMATION CONTACT: Nature McGinn, ACA Permit Officer, at the above address, or at ACApermits@nsf.gov, or at (703) 292-8224.

SUPPLEMENTARY INFORMATION: The National Science Foundation, as directed by the Antarctic Conservation Act of 1978 (Pub. L. 95-541, 45 CFR part 670), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and designation of certain animals and certain geographic areas requiring special protection. The regulations establish such a permit system to designate Antarctic Specially Protected Areas.

Application Details

Permit Application: 2018-002

1. *Applicant:* Dr. William R. Fraser, Polar Oceans Research Group, P.O. Box 368, Sheridan, MT 59749

Activity for Which Permit Is Requested

Enter Antarctic Specially Protected Areas (ASPAs), Take, and Import into the USA. The applicant conducts research as part of the Palmer Station Long-Term Ecological Research Program (Palmer LTER: Land-Shelf-Ocean Connectivity, Ecosystem Resilience and Transformation in a Sea-Ice Influenced Pelagic Ecosystem). The applicant will conduct research into relating variability in seabird ecology to changes in the physical and biological environment, especially sea ice, snow conditions and the availability of prey. The applicants research will comprise two complementary components at summer breeding colonies of seabirds and in their pelagic marine foraging environment. The applicant will continue long term-research efforts to assess how annual environmental variability affects seabird diets, breeding success, growth rates, survival and recruitment, behavior, population trends, foraging success and seasonal dispersal. The applicant will use the following methods: (1) census populations and mark breeding territories; (2) capture, mark, band and/or weigh adults, chicks and eggs; (3) obtain diet samples by stomach lavage, by screening contents of terrestrial sediment traps and/or by collecting regurgitated or defecated prey items; (4) place transmitters on individuals; (5) place instrumented artificial eggs under incubating individuals; (6) obtain tissue samples from adults and chicks (e.g.,

preen gland oil, blood, feathers, egg yolk, toenails); (7) collect addles/infertile eggs no longer being incubated; (8) use GPS/GIS technologies to update existing breeding habitat maps; and (9) salvage dead specimens in good condition for educational purposes. The applicant will use all/some of the above methods on the following species; Adelle Penguin, Chinstrap Penguin, Gentoo Penguin, Brown Skua, South Polar Skua, Southern Giant Petrel, Blue-Eyed Shag, Kelp Gull, Snowy Sheathbill. All seabirds involved in this research will be released unharmed. To conduct the research, the applicant plans to enter the following Antarctic Specially Protected Areas; ASPA 107—Dion Islands, ASPA 113—Litchfield Island, ASPA 115—Lagotellerie Island, ASPA 117—Avian Island, ASPA 139—Biscoe Point, and ASPA 170—Charcot Island.

Location

Palmer Station area, Marguerite Bay, Charcot/Alexander Island regions. ASPA 107—Dion Islands, ASPA 113—Litchfield Island, ASPA 115—Lagotellerie Island, ASPA 117—Avian Island, ASPA 139—Biscoe Point, and ASPA 170—Charcot Island.

Dates

October 1, 2017 to September 30, 2022.

Nadene G. Kennedy,

Polar Coordination Specialist, Office of Polar Programs.

BILLING CODE 7555-01-P

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Comment Request

AGENCY: National Science Foundation.

ACTION: Submission for OMB Review; Comment Request.

SUMMARY: The National Science Foundation (NSF) has submitted the following information collection requirement to OMB for review and clearance under the Paperwork Reduction Act of 1995. NSF is forwarding the proposed submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice. The full submission (including comments) may be found at: <http://www.reginfo.gov/public/do/PRAMain>.

DATES: Written comments on this notice must be received by June 26, 2017, to be assured consideration. Comments received after that date will be

considered to the extent practicable. Send comments to address below.

FOR FURTHER INFORMATION CONTACT:

Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 1265, Arlington, Virginia 22230; telephone (703) 292-7556; or send email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including federal holidays).

NSF may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

SUPPLEMENTARY INFORMATION: This is the second notice for public comment; the first was published in the **Federal Register** at 81 FR 93967, and no comments were received.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Foundation, including whether the information will have practical utility; (b) the accuracy of the Foundation's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of automated collection techniques or other forms of information technology.

Title of Collection: Evaluation of the National Science Foundation's Innovation Corps Team Program.

OMB Clearance Number: 3145—NEW.

Type of Request: Intent to seek approval to establish an information collection.

Abstract: The Innovation Corps (I-Corps) program was established in 2011 as part of NSF's efforts to encourage a culture of innovation among recipients of research grants. The program provides support and guidance to selected grantees on how to pursue commercial applications of their research. The I-Corps Teams program uses a lean startup approach to encourage scientists to think like entrepreneurs through intensive workshop training and ongoing support.

The program focuses on teams comprised of a principal investigator, entrepreneurial lead, and mentor that work together to explore commercialization for their research-derived products.

NSF is supporting the evaluation of the program that includes a rigorous longitudinal outcome/impact evaluation of the I-Corps Team Program using a quasi-experimental design to understand I-Corps impact on teams that go through the program and its impact on team members and academic culture.

The Office of Management and Budget has previously provided clearance for 3 data collection efforts associated with the I-Corps workshops targeting I-Corps grantees. These refer to: (1) A pre-course survey (2) a post-course survey and (3) a longitudinal survey of principal investigators in the program. This request builds on this previously approved information collection for NSF's Engineering IIP Program Monitoring Clearance (OMB Control No. 3145-0238).

This information collection request relates to (1) a proposed survey of principal investigators (PIs) in comparable non-I-Corps NSF projects and (2) In-depth interviews with 10 I-Corps and 10 comparable non-I-Corps teams.

The survey will begin with an initial screening module to identify PIs who have received support for projects with commercial potential and who have desire to act on that potential but have not received an I-Corps grant. PIs with non-Corps NSF-funded projects awarded between 2009 and 2013 will be surveyed. PIs who reported active interest in commercial potential for their research projects will be asked to complete an additional module adapted from the I-Corps Longitudinal Data Collection already approved by OMB for I-Corps team members. The longitudinal survey collects information on project outputs and outcomes related to commercialization of research-based products. PIs not interested in the commercial potential of their research will stop the survey after completing the screening module.

In addition to the comparison between the I-Corps teams and a comparable group based on survey results, the study also includes in-depth interviews to gain an understanding of the influence of participation in the I-Corps program on PIs and other team members as well as to compare the impact of the I-Corps program on industry collaborations and other networking activities. Half of all in-depth interviews will be conducted over

the phone while the other half will take place during site visits to the home institutions of the teams selected for the study.

Affected Public: Non-I-Corps Grant recipients of NSF Programs common in the background of I-Corps Teams Program PIs for the survey and 10 I-Corps and 10 non-I-Corps research teams and networks.

Total Respondents: 8,709.

Estimated Total Burden Hours: 1,245 hours.

Dated: May 22, 2017.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.

BILLING CODE 7555-01-P

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards (ACRS) Meeting of the ACRS Subcommittee on Planning and Procedures; Notice of Meeting

The ACRS Subcommittee on Planning and Procedures will hold a meeting on June 6, 2017, 11545 Rockville Pike, Room T-2B3, Rockville, Maryland 20852.

The meeting will be open to public attendance.

The agenda for the subject meeting shall be as follows:

Tuesday, June 6, 2017—12:00 p.m. until 1:00 p.m.

The Subcommittee will discuss proposed ACRS activities and related matters. The Subcommittee will gather information, analyze relevant issues and facts, and formulate proposed positions and actions, as appropriate, for deliberation by the Full Committee.

Members of the public desiring to provide oral statements and/or written comments should notify the Designated Federal Official (DFO), Quynh Nguyen (Telephone 301-415-5844 or Email: Quynh.Nguyen@nrc.gov) five days prior to the meeting, if possible, so that arrangements can be made. Thirty-five hard copies of each presentation or handout should be provided to the DFO thirty minutes before the meeting. In addition, one electronic copy of each presentation should be emailed to the DFO one day before the meeting. If an electronic copy cannot be provided within this timeframe, presenters should provide the DFO with a CD containing each presentation at least thirty minutes before the meeting. Electronic recordings will be permitted only during those portions of the
