summarizes required under its regulations.9 In its OMB Supporting Statement, the OFCCP estimated that a contractor with 1 to 100 employees would take approximately 73 burden hours to create an initial written program summary. While the OFCCP regulations require contractors to perform time-consuming quantitative analyses when developing their written program summaries, such analyses would not be required in connection with the creation of a workforce inclusion plan. For this reason, FHFA believes this contractor would develop a workforce inclusion plan in about one-third of the time that it would take to develop the written program summary required under the OFCCP regulations.

FHFA estimates that a contractor or subcontractor with fewer than 50 employees would spend approximately 25 hours creating a workforce inclusion plan for the first time. The Agency estimates that each contractor would then spend approximately 10 hours annually in updating and maintaining its plan. This results in an estimated average annual recordkeeping burden over the next three years on each contractor or subcontractor with fewer than 50 employees of 15 hours [(25 + 10 +10)/3 years]. Thus, FHFA estimates that the average annual recordkeeping burden on all contractors and subcontractors with fewer than 50 employees over the next three years will be 300 hours (20 respondents × 15 hours per respondent).

As with larger entities, FHFA estimates that it will take each contractor and subcontractor with fewer than 50 employees approximately one hour to retrieve, review, and submit the documentation specified in the MWI Clause. Thus, FHFA estimates that the average annual reporting burden on all contractors and subcontractors with fewer than 50 employees over the next three years will be 20 hours (20 respondents × 1 hour per respondent).

C. Comment Request

In accordance with the requirements of 5 CFR 1320.8(d), FHFA published an initial notice requesting comments regarding this information collection in the Federal Register on November 18, 2016.10 The 60-day comment period closed on January 17, 2017. No comments were received.

In accordance with the requirements of 5 CFR 1320.10(a), FHFA is publishing this second notice to request comments regarding the following: (1) Whether the collection of information is necessary for the proper performance of FHFA functions, including whether the information has practical utility; (2) the accuracy of FHFA’s estimates of the burdens of the collection of information; (3) ways to enhance the quality, utility, and clarity of the information collected; and (4) ways to minimize the burden of the collection of information on members and project sponsors, including through the use of automated collection techniques or other forms of information technology. Comments should be submitted in writing to both OMB and FHFA as instructed above in the Comments section.

Dated: May 19, 2017.

SUPPLEMENTARY INFORMATION:

A. Purpose

Section 743(a) of Division C of the Consolidated Appropriations Act, 2010 (Pub. L. 111–117) requires executive agencies covered by the Federal Activities Inventory Reform (FAIR) Act (Pub. L. 105–270), except DoD, to submit to the Office of Management and Budget (OMB) annually an inventory of activities performed by service contractors. DoD is exempt from this reporting requirement because 10 U.S.C. 2462 and 10 U.S.C. 2330a(c) already require DoD to develop an annual service contract inventory.

House Report 111–366 notes, in connection with section 743, that, “in the absence of complete and reliable information on the extent of their reliance on service contractors, Federal agencies are not well-equipped to determine whether they have the right balance of contractor and in-house resources needed to accomplish their missions. Therefore, this rule intends to supplement agency annual service contract reporting requirements with the contractor provided service contract reporting information.

The information is to be submitted pursuant to clauses 52.204–14 and 52.204–15. Certain prime service contractors will provide annually—

a. The contract number, and, as applicable, order number;
b. The total dollar amount invoiced for services performed during the previous Government fiscal year under the contract;

10 See 81 FR 81766 (Nov. 18, 2016).
c. The number of contractor direct labor hours expended on the services performed during the previous Government fiscal year; and
d. Data reported by subcontractors.

The prime contractor shall require each first-tier subcontractor performing under the contract to provide annually—

a. The subcontract number (including subcontractor name and if available, Unique Entity Identifier number); and
b. The number of first-tier subcontractor direct-labor hours expended on the services performed during the previous Government fiscal year.

In order to invoice the government for time-and-material/labor-hour (T&M/LH) and cost-reimbursement contracts, contractors already track labor hours expended, so the rule will cover T&M/LH and cost-reimbursement contracts over the simplified acquisition threshold.

Fixed price contracts are covered if the estimated total value is at $500,000 or more in FY 2016 and thereafter.

For indefinite-delivery contracts, including but not limited to, indefinite-delivery indefinite-quantity (IDIQ) contracts, Federal Supply Schedule (FSS) contracts, Governmentwide Acquisition contracts (GWACs), and multi-agency contracts, reporting requirements will be determined based on the expected dollar amount and type of the orders issued under the contracts.

The burden has increased from the one in Federal Register Notice 78 FR 16268 dated March 14, 2013 due to more respondents being included in the overall total based on FY 2016 FPDS data. The threshold for Fixed-price contract reports are now covered if the estimated total value is at $500,000 or more.

B. Annual Reporting Burden

Respondents: 111,172.
Responses/respondent: 1.
Total annual responses: 111,172.
Preparation hours per response: 2.
Total response burden hours: 222,344.

C. Public Comments

Public comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the FAR, and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

Obtaining copies of proposals:
Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat Division (MVCB), 1800 F Street NW., Washington, DC 20405, telephone 202–501–4755. Please cite OMB Control No. 9000–0179, Service Contracts Reporting Requirements, in all correspondence.

Director, Federal Acquisition Policy Division, Office of Governmentwide Acquisition Policy, Office of Governmentwide Policy.
