Title of Collection: National Assessment of Educational Progress (NAEP) 2017–2019.*OMB Control Number:* 1850–0928.*Type of Review:* A revision of an existing information collection.*Respondents/Affected Public:* Individuals or Households.*Total Estimated Number of Annual Responses:* 759,283.*Total Estimated Number of Annual Burden Hours:* 371,166.

Abstract: The National Assessment of Educational Progress (NAEP), conducted by the National Center for Education Statistics (NCES), is a federally authorized survey of student achievement at grades 4, 8, and 12 in various subject areas, such as mathematics, reading, writing, science, U.S. history, civics, geography, economics, technology and engineering literacy (TEL), and the arts. The National Assessment of Educational Progress Authorization Act (Pub. L. 107–279 Title III, section 303) requires the assessment to collect data on specified student groups and characteristics, including information organized by race/ethnicity, gender, socio-economic status, disability, and limited English proficiency. It requires fair and accurate presentation of achievement data and permits the collection of background, noncognitive, or descriptive information that is related to academic achievement and aids in fair reporting of results. The intent of the law is to provide representative sample data on student achievement for the nation, the states, and subpopulations of students and to monitor progress over time. The nature of NAEP is that burden alternates from a relatively low burden in national-level administration years to a substantial burden increase in state-level administration years when the sample has to allow for estimates for individual states and some of the large urban districts. This submission requests

OMB's approval for main NAEP assessments in 2018 and 2019, including operational, pilot, and special studies. The NAEP results will be reported to the public through the Nation's Report Card as well as other online NAEP tools.

Title of Collection: Integrated Partner Management (IPM) System.

OMB Control Number: 1845-NEW.

Type of Review: A new information collection.

Respondents/Affected Public: State, Local, and Tribal Governments; Private Sector.

Total Estimated Number of Annual Responses: 9,220.

Total Estimated Number of Annual Burden Hours: 7,890.

Abstract: Federal Student Aid has developed the Integrated Partner Management (IPM) system. IPM is the new solution for application processing and financial reporting, that will replace 3 legacy applications. Consolidation of these applications will improve timeliness, data integrity and Department's analysts' ability to get a comprehensive view from one application as opposed to the current disjointed views across multiple applications. The new IPM system will include the application for approval for institutions and financial partners (including lenders) to participate in Federal Student Financial Aid programs. The IPM system will also allow institutions and financial partners participating in the Title IV HEA programs to submit the required audited financial statements and compliance audits. IPM includes significant advances to both partners and FSA analysts in the process used for providing oversight to FSA partners in the Title IV and improvements in the tools and technologies currently in

place. IPM will transition a process that is currently heavily paper based to an easy to navigate, automated work-flow process. Under the IPM system the institutions log into a secure Department Web site, enter information pertaining to their eligibility, audit and finances and attach electronic documents to support eligibility, audit and financial statement submissions.
