c. The number of contractor direct labor hours expended on the services performed during the previous Government fiscal year; and
d. Data reported by subcontractors.

The prime contractor shall require each first-tier subcontractor performing under the contract to provide annually—

a. The subcontract number (including subcontractor name and if available, Unique Entity Identifier number; and
b. The number of first-tier subcontractor direct-labor hours expended on the services performed during the previous Government fiscal year.

In order to invoice the government for time-and-material/labor-hour (T&M/LH) and cost-reimbursement contracts, contractors already track labor hours expended, so the rule will cover T&M/LH and cost-reimbursement contracts over the simplified acquisition threshold.

Fixed price contracts are covered if the estimated total value is at $500,000 or more in FY 2016 and thereafter.

For indefinite-delivery contracts, including but not limited to, indefinite-delivery indefinite-quantity (IDIQ) contracts, Federal Supply Schedule (FSS) contracts, Governmentwide Acquisition contracts (GWACs), and multi-agency contracts, reporting requirements will be determined based on the expected dollar amount and type of the orders issued under the contracts.

The burden has increased from the one in Federal Register Notice 78 FR 16268 dated March 14, 2013 due to more respondents being included in the overall total based on FY 2016 FPDS data. The threshold for Fixed-price contract reports are now covered if the estimated total value is at $500,000 or more.

Under the PRA (44 U.S.C. 3501–3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of
information they conduct or sponsor. The term “collection of information” is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA requires federal agencies to publish a 60-day notice in the Federal Register concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice.

Information Collection

1. Type of Information Collection Request: Revision of a currently approved collection; Title of Information Collection: Disclosure of State Rating Requirements; Use: The final rule “Patient Protection and Affordable Care Act: Health Insurance Market Rules; Rate Review” implements sections 2701, 2702, and 2703 of the Public Health Service Act (PHS Act), as added and amended by the Affordable Care Act, and sections 1302(e) and 1312(c) of the Affordable Care Act. The rule directs that states submit to CMS certain information about state rating and risk pooling requirements for their individual, small group, and large group markets, as applicable. Specifically, states will inform CMS of age rating ratios that are narrower than 3:1 for adults; tobacco use rating ratios that are narrower than 1.5:1; a state-established uniform age curve; geographic rating areas; whether premiums in the small and large group market are required to be based on average enrollee amounts (also known as composite premiums); and, in states that do not permit any rating variation based on age or tobacco use, uniform family tier structures and corresponding multipliers. In addition, states that elect to merge their individual and small group market risk pools into a combined pool will notify CMS of such election. This information will allow CMS to determine whether state-specific rules apply or Federal default rules apply. It will also support the accuracy of the federal risk adjustment methodology.
