SUPPLEMENTARY INFORMATION:

Title: FERC–588, Emergency Natural Gas Transportation, Sale and Exchange Transactions.

OMB Control No.: 1902–0144.

Type of Request: Three-year extension of the FERC–588 information collection requirements with no changes to the reporting requirements.

Abstract: The FERC–588 is used by the Commission to implement the statutory provisions of sections 7(c) of the Natural Gas Act (NGA) (Pub. L. 75–688) (15 U.S.C. 717–717w) and provisions of the Natural Gas Policy Act of 1978 (NGPA), 15 U.S.C. 3301–3432. Under the NGA, a natural gas company must obtain Commission approval to engage in the transportation, sale or exchange of natural gas in interstate commerce. However, section 7(c) exempts from certificate requirements “temporary acts or operations for which

the issuance of a certificate will not be required in the public interest.” The NGPA also provides for non-certificated interstate transactions involving intrastate pipelines and local distribution companies.

A temporary operation, or emergency, is defined as any situation in which an actual or expected shortage of gas supply would require an interstate pipeline company, intrastate pipeline, or local distribution company, or Hinshaw pipeline to curtail deliveries of gas or provide less than the projected level of service to the customer. The natural gas companies which provide the temporary assistance to the companies which are having the “emergency” must file the necessary information described in 18 CFR part 284, subpart I with the Commission, so that it may determine if their assisting transaction/operation qualifies for exemption. The assisting company may or may not be under the Commission’s jurisdiction and if their assisting actions qualify for the exemption, they will not become subject to the Commission’s jurisdiction for such actions.

A report within forty-eight hours of the commencement of the transportation, sale or exchange, a request to extend the sixty-day term of the emergency transportation, if needed, and a termination report are required. The data required to be filed for the forty-eight hour report is specified by 18 CFR 284.270.

Type of Respondents: Natural Gas Pipelines.

Estimate of Annual Burden:¹ The Commission estimates the Public Reporting Burden for this information collection as:

¹ Burden is defined as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For further explanation of what is included in the information collection burden, refer to 5 Code of Federal Regulations 1320.3.

² The estimates for cost per response are derived using the 2017 FERC average salary plus benefits of \$158,754/year (or \$76.50/hour). Commission staff finds that the work done for this information collection is typically done by wage categories similar to those at FERC.
