Adjudication Materials on Agency Web sites. This proposed

recommendation provides guidance regarding the online dissemination of administrative adjudication materials. Negotiated Rulemaking. This proposed recommendation offers best practices for agencies for choosing the most appropriate of several methods—among them negotiated rulemaking—to engage the public in agency rulemakings. It also offers best practices to agencies that choose negotiated rulemaking on how to structure their processes to enhance the probability of success.

Animal Plant and Health Inspection Service

Title: Swine Health Protection.

OMB Control Number: 0579-0065.

Summary of Collection: The Animal Health Protection Act (AHPA) of 2002 is the primary Federal law governing the protection of animal health. The law gives the Secretary of Agriculture broad authority to detect, control, or eradicate pests or diseases of livestock or poultry. The AHPA is contained in Title X, Subtitle E, Sections 10401-18 of P.O. 107-171, May 13, 2002, the Farm Security and Rural Investment Act of 2002. Veterinary Services, a program with the Animal and Plant Health Inspection Service (APHIS), is responsible for administering regulations intended to prevent the dissemination of animal diseases within the United States. Garbage is one of the primary media through which numerous infections or communicable diseases of swine are transmitted. Because of the serious threat to the U.S. swine industry, Congress passed Public Law 96-468 "Swine Health Protection Act" on October 17, 1980. This law requires USDA to ensure that all garbage is treated prior to its being fed to swine that are intended for interstate or foreign commerce or that substantially affect such commerce. The Act and the regulations will allow only operators of garbage treatment facilities, which meet certain specification to utilize garbage for swine feeding. APHIS will use various forms to collect information.

Need and Use of the Information: APHIS collects information from persons desiring to obtain a permit (license) to operate a facility to treat garbage. Prior to issuance of a license, an inspection will be made of the facility by an authorized representative to determine if it meets all requirements of the regulations. Periodic inspections will be made to determine if licenses are meeting the standards for operation of their approved facilities. Upon receipt of the information from the Animal Health Officials, the information is used by Federal or State animal health personnel to determine whether the waste collector is feeding garbage to swine, whether it is being treated, and whether the feeder is licensed or needs to be licensed.

Description of Respondents: Business or other for profit; State, Local or Tribal Government.

Number of Respondents: 2,110.
