

Separation allows for support group services to be categorized as a non-registered service for which consumer demographic details are no longer reported. Additional information regarding the types of respite services provided under the OAA is sought. The proposal separates assistance services into two types: (1) Case management, and (2) information and assistance. Case management assistance services are categorized as registered, meaning caregiver demographic data are reported while information and assistance services do not include reporting of demographic data. Supplemental

services are reported in the same manner as “other service” under Title III–B, Home and Community-based Services (HCBS) program. Across the OAA services, greater detail regarding expenditure data is proposed. Under Title III–B, HCBS program, the proposed data collection expands data regarding legal assistance services. The ACL also seeks data on the OAA identified priority legal issues for closed cases. Taken as a whole, the proposed reductions far exceed the proposed increases in data burden. The proposed reporting requirements may be found on the ACL Web site

under State Program Performance Report (SPR) Proposed Revisions for Comment, available at: <https://agid.acl.gov/Default.aspx>.

The estimated hour burden per respondent for the SPR in FY 2019 (year of first report) will change from the 50 hours estimate in FY 2016 to 33.5 hours, a decrease due to a 70% reduction in the number of data elements reported. The number of hours is multiplied by 56 state units on aging, resulting in a total estimated hour aggregate burden of 1,876 hours (see table below).

TABLE—ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondent	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden hours
States	State Performance Report	56	1	33.5	1,876

Dated: May 25, 2017.
