The sale will consist of due and payable Secretary-held reverse mortgage loans. The mortgage loans consist of first liens secured by single family, vacant residential properties, where all borrowers are deceased and no borrower is survived by a non-borrowing spouse. The Department has verified the death of borrowers by obtaining a death

HUD will offer qualified bidders an opportunity to bid competitively on the mortgage loans. The loans are expected to be offered in five regional pools.

The Bidding Process

The BIP describes in detail the procedure for bidding in HVLS 2017-2. The BIP also includes a standardized non-negotiable Conveyance, Assignment

and Assumption Agreement for HVLS 2017–2 (CAA). Qualified bidders will be required to submit a deposit with their bid. Deposits are calculated based upon each qualified bidder's aggregate bid price.

HUD will evaluate the bids submitted and determine the successful bid, in terms of the best value to HUD, in its sole and absolute discretion. Due Diligence Review

The BIP describes how qualified bidders may access the due diligence materials remotely via a high-speed Internet connection.

Mortgage Loan Sale Policy

HUD reserves the right to remove mortgage loans from HVLS 2017–2 at any time prior to the Award Date. HUD also reserves the right to reject any and all bids, in whole or in part, and include any reverse mortgage loans in a later sale. Deliveries of mortgage loans will occur in conjunction with settlement and servicing transfer, approximately 30 to 45 days after the Award Date.

The HVLS 2017–2 reverse mortgage loans were insured by and were assigned to HUD pursuant to section 255 of the National Housing Act, as amended. The sale of the reverse mortgage loans is pursuant to section 204(g) of the National Housing Act.

Mortgage Loan Sale Procedure

HUD selected an open competitive whole-loan sale as the method to sell the mortgage loans for this specific sale transaction. For HVLS 2017–2, HUD has determined that this method of sale optimizes HUD's return on the sale of these loans; affords the greatest opportunity for all qualified bidders to bid on the mortgage loans; provides the quickest and most efficient vehicle for HUD to dispose of the mortgage loans, which are currently accruing significant holding costs; and serves as the most appropriate vehicle for reducing both the costs borne by the Department and the number of Secretary-held loans.

Bidder Ineligibility

In order to bid in HVLS 2017–2 as a qualified bidder, a prospective bidder must complete, execute and submit both a Confidentiality Agreement and a Qualification Statement acceptable to HUD. In the Qualification Statement, the prospective bidder must provide certain representations and warranties regarding the prospective bidder, including but not limited to (i) the prospective bidder's board of directors, (ii) the prospective bidder's direct parent, (iii) the prospective bidder's subsidiaries, (iv) any related entity with which the prospective bidder shares a common officer, director, subcontractor or sub-contractor who has access to Confidential Information as defined in the Confidentiality Agreement or is involved in the formation of a bid transaction (collectively the "Related Entities"), and (v) the prospective bidder's repurchase lenders. Section 8 Housing Assistance Payments Program-Fiscal Year (FY) 2017 Inflation Factors for Public Housing Agency (PHA) Renewal Funding

AGENCY: Office of the Assistant Secretary for Policy Development and Research, HUD.

ACTION: Notice.

SUMMARY: This notice establishes Renewal Funding Inflation Factors (RFIF) to adjust Fiscal Year (FY) 2017 renewal funding for the Tenant-based Rental Assistance (TBRA), or Housing Choice Voucher (HCV), Program of each public housing agency (PHA), as required by the Consolidated Appropriations Act, 2017. The notice apportions the expected percent change in national Per Unit Cost (PUC) for the HCV program, 3.97%, to each PHA based on the change in Fair Market

Rents (FMR) for their operating area to produce the FY 2017 RFIFs. HUD's FY 2017 methodology differs in part from that used in FY 2016; HUD improved the national PUC forecast by removing the reliance on historical PUC data and independently projecting growth in gross rents and tenant incomes.

DATES: *Effective Date:* June 19, 2017.

SUPPLEMENTARY INFORMATION:

I. Background

Division K, Title II of the Consolidated Appropriations Act, 2017 requires that the HUD Secretary, for the calendar year 2017 funding cycle, provide renewal funding for each public housing agency (PHA) based on validated voucher management system (VMS) leasing and cost data for the prior calendar year and by applying an inflation factor as established by the Secretary, by notice published in the **Federal Register**. This notice provides the FY 2017 inflation factors and describes the methodology for calculating them. Tables in PDF and Microsoft Excel formats showing Renewal Funding Inflation Factors (RFIF) will be available electronically from the HUD data information page at: <https://www.huduser.gov/portal/datasets/rfif/rfif.html>.

II. Methodology

RFIFs are used to adjust the allocation of Housing Choice Voucher (HCV) program funds to PHAs for local changes in rents, utility costs, and tenant incomes. To calculate the RFIFs, HUD first forecasts a national inflation factor, which is the annual change in the national average Per Unit Cost (PUC). HUD then calculates individual area inflation factors, which are based on the annual changes in the two-

bedroom Fair Market Rent (FMR) for each area. Finally, HUD adjusts the individual area inflation factors to be consistent with the national inflation factor.

HUD has refined its methods for predicting inflation factors over time. In FY 2012, HUD changed from using a Consumer Price Index (CPI) historical gross rent index-based factor known as Annual Adjustment Factors to using a forecasting model that was based on historical levels of PUC and incorporated forecasted economic indices as explanatory variables to predict future levels of PUC. HUD continued to use the forecasting model adopted in FY 2012 through FY 2016 to calculate a national PUC inflation factor. Consistent with HUD's statement in the FY 2016 Renewal Funding Inflation Factor Notice that it planned to change its inflation factor methodology in FY 2017, HUD has now implemented a revised methodology to calculate a national PUC inflation factor that does not rely on historical values of PUC. See 81 FR 22296.

The objective of the revised methodology is to determine the amount by which baseline funding for HCVs currently under lease needs to increase to maintain the same number and quality of leased vouchers. The prior methodology had the disadvantage of incorporating the lower per-unit costs calculated during economic downturns into future projections, which resulted in a failure to account for higher per-unit costs during economic recoveries. The revised methodology instead calculates a “notional” PUC by taking the difference between national gross rent and 30 percent of national average HCV tenant income, as described below. The inflation factor is then calculated as the annual change in notional PUC.

The notional PUC is calculated following the same basic formula that is used to calculate the voucher subsidy. The monthly subsidy is the difference between total monthly gross rent (which is the total of the unit's contract rent plus utilities expenses required to make the unit habitable—principally electricity and/or heating fuel) and the monthly tenant rent contribution (which is calculated as 30% of monthly tenant income). However, the change in the notional PUC is calculated using forecasts incorporating economic indicators, in part using the same methodology used to calculate the national FMR trend factor, so that it reflects forward-looking cost projections rather than backward-looking data. The base level of the notional PUC is the two-bedroom national average FMR less 30 percent of the national average tenant
