Title of Collection: Medical Clearance Process for Deployment to the Polar Regions (specified regions in the Arctic and all locations in the Antarctic under the auspices of the U.S. Antarctic Program).

OMB Control No.: 3145-0177.

Type of Request: Intent to seek approval to renew an information collection for three years.

Abstract

Proposed Project: Presidential Memorandum No. 6646 (February 5, 1982) (available from the National Science Foundation, Office of Polar Programs, Suite 755, 4201 Wilson Boulevard, Arlington, VA 22230) sets forth the National Science Foundation's overall management responsibilities for the entire United States national program in Antarctica. Section 107(a) of Public Law 98-373 [July 31, 1984; amended as Public Law 101-609—November 16, 1990] [available from the National Science Foundation, Office of Polar Programs, Suite 755, 4201 Wilson Boulevard, Arlington, VA 22230] designates the National Science Foundation as the lead agency responsible for implementing Arctic research policy, and the Director of the National Science Foundation shall ensure that the requirements of section 108 are fulfilled.

NSF Form 1700, Medical Clearance Process for Deployment to the Polar Regions furnishes information to the NSF regarding the physical, dental, and mental health status for all individuals (except DoD-uniformed service personnel) who anticipate deploying to Antarctica under the auspices of the United States Antarctic Program or to

certain regions of the Arctic sponsored by the NSF/GEO/Office of Polar Programs. The information is used to determine whether an individual is physically and mentally suited to endure the extreme hardships imposed by the Arctic and Antarctic continents, while also performing specific duties as specified by their employers.

Respondents: All non-DoD uniformed personnel planning to deploy to U.S. stations in the Antarctic or to specified regions of the Arctic that are sponsored by the National Science Foundation's Office of Polar Programs.

The number of annual respondents: 3,500 to the Antarctic and 150 to the Arctic.

Estimated Total Annual Burden on Respondents: 36,500 hours.

Frequency of Responses: This form is submitted upon an individual's first deployment to Antarctica (below 60° South) or to specified regions of the Arctic and annually thereafter for the duration of the individual's deployments.

Dated: June 6, 2017.

Suzanne H. Plimpton,
Reports Clearance Officer.

[Docket No. 72-20; NRC-2017-0136]

U.S. Department of Energy Idaho Operations Office; Three Mile Island Unit 2 Independent Spent Fuel Storage Installation; Renewal of Special Nuclear Materials License

AGENCY: Nuclear Regulatory Commission.

ACTION: License renewal application; receipt; opportunity to request a hearing and to petition for leave to intervene.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has received and is considering an application for the renewal of special nuclear materials (SNM) License No. SNM-2508, which currently authorizes the U.S. Department of Energy Idaho Operations Office (DOE-ID) to receive, possess, transfer, and store radioactive material from the Three Mile Island Unit 2 (TMI-2) reactor core in the TMI-2 independent spent fuel storage installation (ISFSI). The renewed license would authorize DOE-ID to continue to store the radioactive material in the TMI-2 ISFSI for an additional 20 years from March 19, 2019, the expiration date of the original license.

DATES: A request for a hearing or petition for leave to intervene must be filed by August 8, 2017.

SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC has received, by letter dated March 6, 2017, an application from DOE-ID for renewal of SNM License No. SNM-2508 for the TMI-2 ISFSI for an additional 20 years (ADAMS Accession Nos. ML17075A198 and ML17089A501). The license authorizes DOE-ID to receive, possess, transfer, and store radioactive material from the TMI-2 reactor core at the TMI-2 ISFSI, located at the Idaho National Laboratory within the perimeter of the Idaho Nuclear Technology and Engineering Center site in Scoville, Idaho. This license renewal, if approved, would authorize DOE-ID to continue to store radioactive material from the TMI-2 reactor core at the TMI-2 ISFSI, under the provisions of part 72 of title 10 of the *Code of Federal Regulations* (10 CFR), "Licensing Requirements for the Independent Storage of Spent Nuclear Fuel, High-Level Radioactive Waste, and Reactor-Related Greater Than Class C Waste." No additional radioactive material will be added to the ISFSI under the license renewal, if approved.

Following an NRC administrative completeness review, documented in a letter to DOE-ID dated May 5, 2017 (ADAMS Accession No. ML17125A284), the NRC has determined that the renewal application contains sufficient information for the NRC to begin its technical review and the application is

acceptable for docketing. The application has been docketed in Docket No. 72-20, the existing docket for SNM License No. SNM-2508. If the NRC approves the renewal application, the approval will be documented in the renewal of SNM License No. SNM-2508. The NRC will approve the license renewal application if it determines that the application meets the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the NRC's regulations. These findings will be documented in a safety evaluation report. The NRC will complete an environmental evaluation, in accordance with 10 CFR part 51, to determine if the preparation of an environmental impact statement is warranted or if an environmental assessment and finding of no significant impact are appropriate. This action will be the subject of a subsequent notice in the **Federal Register**.

II. Opportunity To Request a Hearing and Petition for Leave To Intervene

Within 60 days after the date of publication of this notice, any persons (petitioner) whose interest may be affected by this action may file a request for a hearing and petition for leave to intervene (petition) with respect to the action. Petitions shall be filed in accordance with the Commission's "Agency Rules of Practice and Procedure" in 10 CFR part 2. Interested persons should consult a current copy of 10 CFR 2.309. The NRC's regulations are accessible electronically from the NRC Library on the NRC's Web site at <http://www.nrc.gov/reading-rm/doc-collections/cfr/>. Alternatively, a copy of the regulations is available at the NRC's Public Document Room, located at One White Flint North, Room O1-F21, 11555 Rockville Pike (first floor), Rockville, Maryland 20852. If a petition is filed, the Commission or a presiding officer will rule on the petition and, if appropriate, a notice of a hearing will be issued.

As required by 10 CFR 2.309(d) the petition should specifically explain the reasons why intervention should be permitted with particular reference to the following general requirements for standing: (1) The name, address, and telephone number of the petitioner; (2) the nature of the petitioner's right under the Act to be made a party to the proceeding; (3) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (4) the possible effect of any decision or order which may be entered in the proceeding on the petitioner's interest.

In accordance with 10 CFR 2.309(f), the petition must also set forth the
