Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (240) 276–1243.

Project: Project—Division of State Programs—Management Reporting Tool (DSP–MRT) (OMB No. 0930–0354)—Revision

The Substance Abuse and Mental Health Services Administration (SAMHSA)'s Center for Substance

Abuse Prevention (CSAP) aims to address two of SAMHSA's top substance abuse prevention priorities: Underage drinking (UAD; age 12 to 20) and prescription drug misuse and abuse (PDM; age 12 to 25) through the Division of State Program—Monitoring and Reporting Tool. This data collection will allow all DSP programs to report into a standard tool that aligns with the Strategic Prevention Framework model. This request for data collection includes a revision from a previously approved OMB instrument formally known as Partnerships for Success-Management and Reporting Tool.

Monitoring data on SPF model will allow SAMHSA project officers to systematically collect data to monitor their grant program performance and outcomes along with grantee technical assistance needs. In addition to assessing activities related to the SPF steps, the performance monitoring instruments covered in this statement collect data to assess the following grantee required specific performance measures:

- Number of training and technical assistance activities per funded community provided by the grantee to support communities;
 - Reach of training and technical assistance activities (numbers served) provided by the grantee;
 - Percentage of subrecipient communities that submit data to the grantee data system;
 - Number of sub-recipient communities that improved on one or more targeted NOMs indicators (Outcome);
 - Number of grantees who integrate Prescription Drug Monitoring Data into their program needs assessment.
- Changes to this package include the following:
- Standard language for all DSP–MRT questions;
 - New disparities module to align with SAMHSA's monitoring requirements;
 - Updated technical assistance section;
 - Deletion of cost questions specific to funding amounts and in-kind resources;
 - Deletion of advisory council and other workgroup sub-committee questions;
 - Addition of Section A specific to SPF–Rx questions;
 - Addition of Section B specific to PDO questions;
