[Docket No. APHIS-2017-0044]

Notice of Request for Revision to and Extension of Approval of an Information Collection; Importation of Cape Gooseberry From Colombia Into the United States

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Revision to and extension of approval of an information collection; comment request.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Animal and Plant Health Inspection Service's intention to request a revision to and extension of approval of an information collection associated with the regulations for the importation of cape gooseberry from Colombia into the United States.

DATES: We will consider all comments that we receive on or before August 15, 2017.

ADDRESSES: You may submit comments by either of the following methods:

- Federal eRulemaking Portal: Go to <http://www.regulations.gov/#!docketDetail;D=APHIS-2017-0044>.

- Postal Mail/Commercial Delivery: Send your comment to Docket No. APHIS-2017-0044, Regulatory Analysis and Development, PPD, APHIS, Station 3A-03.8, 4700 River Road Unit 118, Riverdale, MD 20737-1238.

Supporting documents and any comments we receive on this docket may be viewed at <http://www.regulations.gov/#!docketDetail;D=APHIS-2017-0044> or in our reading room, which is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799-7039 before coming.

FOR FURTHER INFORMATION CONTACT: For information on the regulations for the importation of cape gooseberry from Colombia into the United States, contact Dr. Robert Baca, Assistant Director,

Permitting and Compliance Coordination, Compliance and Environmental Coordination Branch, PPQ, APHIS, 4700 River Road Unit 150, Riverdale, MD 20737; (301) 851-2292. For copies of more detailed information on the information collection, contact Ms. Kimberly Hardy, APHIS' Information Collection Coordinator, at (301) 851-2483.

SUPPLEMENTARY INFORMATION:

Title: Importation of Cape Gooseberry From Colombia Into the United States.

OMB Control Number: 0579-0411.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: The Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. As authorized by the PPA, the Animal and Plant Health Inspection Service regulates the importation of fruits and vegetables into the United States from certain parts of the world as provided in "Subpart—Fruits and Vegetables" (7 CFR 319.56-1 through 319.56-76).

In accordance with § 319.56-67, cape gooseberry from Colombia may be imported into the United States under certain conditions to prevent the introduction of plant pests into the United States. The conditions include the establishment of pest-free places of production, labeling of boxes prior to shipping, and importation in commercial consignments. The importation also involves certain information collection activities, such as a bilateral workplan, production site registration, trapping, recordkeeping, phytosanitary inspections, and a phytosanitary certificate issued by the national plant protection organization (NPPO) of Colombia certifying that the fruit has been produced in accordance with the regulations.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

- (3) Enhance the quality, utility, and clarity of the information to be collected; and

- (4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of Burden: The public reporting burden for this collection of information is estimated to average 0.003 hours per response.

Respondents: Producers and shippers of cape gooseberry from Colombia and the NPPO of Colombia.

Estimated Annual Number of Respondents: 424.

Estimated Annual Number of Responses Per Respondent: 2,006.

Estimated Annual Number of Responses: 850,409.

Estimated Total Annual Burden on Respondents: 2,880 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 12th day of June 2017.

Michael C. Gregoire,

Acting Administrator, Animal and Plant Health Inspection Service.

Food Safety and Inspection Service

[Docket No. FSIS-2017-0003]

Changes to the Inspection Coverage in Official Establishments That Slaughter Fish of the Order Siluriformes

AGENCY: Food Safety and Inspection Service, USDA.

ACTION: Notice and request for comments; extension of comment period.

SUMMARY: The Food Safety and Inspection Service (FSIS) is extending until July 17, 2017, the comment period for its plan to adjust inspection coverage at official establishments that slaughter fish of the order Siluriformes, which include catfish, from all hours of operation to once per production shift.
