Abstract: The Federal Transit Laws, 49 U.S.C. 5332(b), provide that “no person in the United States shall on the grounds of race, color, religion, national origin, sex, or age be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any project, program or activity funded in whole or in part through financial assistance under this Act.” This applies to employment and business opportunities and is in addition to the provisions of Title VI of the Civil Rights Act of 1964. Any FTA applicant, recipient, sub-recipient, and contractor who employ 100 or more transit-related employees and requests or receives capital or operating assistance in excess of \$1 million in the previous Federal fiscal year, or requests or receives planning assistance in excess of \$250,000 in the previous Federal fiscal year must implement all of the EEO Program elements. Agencies that have between 50-99 transit-related employees are required to prepare and maintain an EEO Program that includes the statement of policy, dissemination plan, designation of personnel, assessment of employment practices,

and a monitoring and reporting system. These smaller agencies are not required to conduct a utilization analysis with goals and timetables or to submit the EEO Program to FTA every four years. Instead, these agencies will be required to provide the EEO Program to FTA if requested by the Office of Civil Rights or for a State Management Review or Triennial Review.

Annual Estimated Total Burden Hours: 1,575 hours.

Comments are Invited On: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department’s estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.
