

W12-140, 1200 New Jersey Avenue SE., Washington, DC 20590-0001.

Hand Delivery or Courier: U.S.

Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m. and 5 p.m. ET, Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: John Moulden, 202-493-3470, Turner-Fairbank Highway Research Center, Office of Corporate Research, Technology, and Innovation Management, Federal Highway Administration, Department of Transportation, 6300 Georgetown Pike, McLean, VA 22101. Office hours are from 8 a.m. to 5 p.m., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Title: Federal Highway Administration Research, Development and Technology Agenda Web site.

Background: Title 23, United States Code, Section 502(a)(5) requires that Federal surface transportation research and development activities address the needs of stakeholders, including "States, metropolitan planning organizations, local governments, the private sector, researchers, research sponsors, and other affected parties, including public interest groups." As part of its effort to ensure that Federal research, development and technology (RD&T) activities are addressing the most critical national challenges, the Federal Highway Administration (FHWA) is developing the RD&T Agenda Web site. This Web site will communicate FHWA's RD&T goals, objectives and strategies to its stakeholders and highlight notable initiatives or projects that illustrate FHWA's RD&T approach. The Web site will include an electronic mechanism for stakeholders to provide feedback on the overall RD&T Agenda, FHWA's approach to addressing national transportation challenges, and potential opportunities for FHWA to collaborate with stakeholders to address them.

Respondents: Approximately 1,000 annual respondents.

Frequency: Annually.

Estimated Average Burden per

Response: Approximately 10 minutes per respondent per year.

Estimated Total Annual Burden

Hours: Approximately 167 hours per year.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FHWA's performance; (2) the accuracy of the estimated

burden; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of computer technology, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued On: June 13, 2017.

Michael Howell,

Information Collection Coordinator.

[Docket No. FHWA-2017-0022]

Agency Information Collection Activities: Notice of Request for Approval of a New Information Collection

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of Request for Approval of a New Information Collection.

SUMMARY: The FHWA invites public comments about our intention to request the Office of Management and Budget's (OMB) approval of a new information collection that is summarized below. We are required to publish this notice in the **Federal Register** by the Paperwork Reduction Act of 1995.

DATES: Please submit comments by August 18, 2017.

ADDRESSES: You may submit comments identified by DOT Docket ID Number 2017-0022 by any of the following methods:

Web site: For access to the docket to read background documents or comments received, go to the Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the online instructions for submitting comments.

Fax: 1-202-493-2251.

Mail: Docket Management Facility, U.S. Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE., Washington, DC 20590.

Hand Delivery or Courier: U.S. Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m.

and 5 p.m. ET, Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT:

Keith Williams, 202-366-9212, Highway Safety Specialist, Office of Safety Programs, Federal Highway Administration, Department of Transportation, 1200 New Jersey Avenue SE., Room E71-119, Washington, DC 20590, Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Title: Inventory of State Compliance on Serious Injury Reporting Using the Model Minimum Uniform Crash Criteria 4th Edition

Type of request: New information collection requirement.

Background: The Federal Highway Administration (FHWA) Office of Safety's mission is to exercise leadership throughout the highway community to make the Nation's roadways safer by developing, evaluating, and deploying life-saving countermeasures; advancing the use of scientific methods and data-driven decisions, fostering a safety culture, and promoting an integrated, multidisciplinary 4 E's (Engineering, Education, Enforcement, Education) approach to safety. The mission is carried out through the Highway Safety Improvement Program (HSIP), a data driven strategic approach to improving highway safety on all public roads that focuses on performance. The goal of the program is to achieve a significant reduction in traffic fatalities and serious injuries on all public roads, including non-State-owned public roads and roads on tribal lands.

In keeping with that mission, the United States Congress on June 29, 2012 passed the Moving Ahead for Progress in the 21st Century Act (MAP-21), which was signed into law (Pub. L. 112-141) on July 6, 2012 by President Barack Obama and continued in the Fixing America's Surface Transportation Act (FAST Act). MAP-21 is a milestone for the U.S. economy and the Nation's surface transportation program as it transformed the policy and programmatic framework for investments to guide the system's growth and development and created a streamlined performance-based surface transportation program. The FHWA defines Transportation Performance Management (TPM) as a strategic approach that uses system information to make investment and policy decisions to achieve national performance goals.

MAP-21 required the Secretary of Transportation to establish performance measures for States to use to assess

serious injuries and fatalities per vehicle mile traveled; and the number of serious injuries and fatalities, for the purposes of carrying out the HSIP under 23 U.S.C. 148. The HSIP is applicable to all public roads and therefore requires crash reporting by law enforcement agencies that have jurisdiction over them. In defining performance measures for serious injuries, FHWA requires national reporting by States using a uniform definition for national reporting in this performance area, as required by MAP-21. An established standard for defining serious injuries as a result of motor vehicle related crashes has been developed in the 4th edition of the Model Minimum Uniform Crash Criteria (MMUCC). MMUCC represents a voluntary and collaborative effort to generate uniform crash data that are accurate, reliable and credible for data-driven highway safety decisions within a State, between States, and at the national level. The MMUCC defines a serious injury resulting from traffic crashes as “Suspected Serious Injury (A)” whose attributes are: Any injury, other than fatal, which results in one or more of the following: Severe laceration resulting in exposure of underlying tissues, muscle, organs, or resulting in significant loss of blood; broken or distorted extremity (arm or leg); crush injuries; suspected skull, chest, or abdominal injury other than bruises or minor lacerations; significant burns (second and third degree burns over 10 percent or more of the body); unconsciousness when taken from the crash scene; or paralysis.

As part of the national requirement to report serious injuries using the MMUCC 4th Edition definition, the FHWA seeks to determine if States have adopted the MMUCC 4th edition definition, attribute and coding convention by the required April 15, 2019 date. Specifically, States will be considered compliant with the serious injury definition requirement if it: Maintains a statewide crash database capable of accurately aggregating the MMUCC 4th Edition injury status attribute for “Suspected Serious Injury (A)”; Ensures the State crash database, data dictionary and crash report user manual employs the verbatim terminology and definitions for the MMUCC 4th Edition injury status attribute Suspected Serious Injury (A); Ensures the police crash form employs the verbatim MMUCC 4th Edition injury status attribute for Suspected Serious Injury (A); Ensures that the seven serious injury types specified in the Suspected Serious Injury (A) attribute are not included in any of the other

attributes listed in the States’ injury status data elements are MMUCC compliant.

The purpose of the information collection is to assess each States’ ability to report serious injuries using the new Federal definition. This assessment will require consultation with the State database owner, State law enforcement agency and possibly county and municipal law enforcement agencies that don’t use the State form.

Respondents: State, the District of Columbia, Puerto Rico, tribal and local traffic records management agencies and law enforcement. (75 total).

Frequency: One time collection
Estimated Average Burden per Response: It will take approximately 30 minutes per participant.

Estimated Total Annual Burden Hours: Approximately 37 hours for a one-time collection.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection of information is necessary for the U.S. DOT’s performance, including whether the information will have practical utility; (2) the accuracy of the U.S. DOT’s estimate of the burden of the proposed information collection; (3) ways to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB’s clearance of this information collection.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued On: June 8, 2017.

Michael Howell,

Information Collection Officer.

SUPPLEMENTARY INFORMATION:

Title: FHWA Excellence in Right-of-Way Awards and Utility Relocation and Accommodation Awards.

Background: In 1995, the Federal Highway Administration established the biennial Excellence in Right-of-Way Awards Program to recognize partners, projects, and processes that use FHWA funding sources to go beyond regulatory compliance and achieve right-of-way excellence. Excellence in Right-of-Way awardees have contributed to outstanding innovations that enhance the right-of-way professional’s ability to meet the challenges associated with acquiring real property for Federal-aid projects. Similarly, FHWA established the Excellence in Utility Relocation and Accommodation Awards Program to honor the use of innovative practices and outstanding achievements in reducing the cost or shortening the time required to accommodate or relocate utilities associated with highway improvement projects. The goal of the program is to showcase exemplary and innovative projects, programs,
