

evaluation to determine whether a text messaging intervention can improve student attendance in a cost effective manner is warranted.

To our knowledge, this project is the first multidistrict random assignment study of the impact of a text messaging intervention for parents on student attendance and achievement. In addition, consistent with the Consolidated and Further Continuing Appropriations Act, 2015 (Pub. L. 113–235), which provides the legislative authority to conduct this study, this study will focus on low-performing schools with high levels of poverty and student absenteeism.
