[Project No. 14821-000]

#### Merchant Hydro Developers, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On January 18, 2017, Merchant Hydro Developers, LLC, filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Armenia Pumped Storage Hydro Project to be located near Sullivan Township in Tioga County, Pennsylvania. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) A new upper reservoir with a surface area of 55 acres and a storage capacity of 825 acre-feet at a surface elevation of approximately 2,300 feet above mean sea level (msl) created through construction of a new roller-compacted concrete or rock-fill dam; (2)

a new lower reservoir with a surface area of 25 acres and a storage capacity of 990 acre-feet at a surface elevation of 1,700 feet msl; (3) a new 3,568-foot-long, 48-inch-diameter penstock connecting the upper and lower reservoirs; (4) a new 150-foot-long, 50-foot-wide, 25-foot-high powerhouse containing two turbine-generator units with a total rated capacity of 41 megawatts; (5) a new transmission line connecting the powerhouse to the Armenia Mountain Wind Farm owned by EDP Renewables North America, LLC; and (6) appurtenant facilities. The proposed project would have an annual generation of 148,121 megawatt-hours.

#### SUPPLEMENTARY INFORMATION:

Supporting documents for this ICR (The Consolidated Air Rule (CAR) for the Synthetic Organic Chemical Manufacturing Industry (SOCMI) (Renewal); EPA ICR No. 1854.10; OMB Control No. 2060-0443), which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at [www.regulations.gov](http://www.regulations.gov) or in person at the EPA Docket Center, EPA West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. **Abstract:** The synthetic organic chemical manufacturing industry (SOCMI) is regulated by both New Source Performance Standards (NSPS) and National Emission Standards for Hazardous Air Pollutants (NESHAP) standards. The affected entities are subject to the General Provisions of the NSPS at 40 CFR part 60, Subpart A, and any changes or additions to the Provisions specified at 40 CFR part 60, Subparts Ka, Kb, VV, VVa, DDD, III, NNN and RRR. The affected entities are also subject to the General Provisions of the NESHAP at 40 CFR part 63, Subpart A, and any changes, or additions to the Provisions specified at 40 CFR part 63, Subparts BB, Y, V, F, G, H and I. As an alternative, SOCMI sources may choose to comply with the above standards under the consolidated air rule (CAR) at 40 CFR part 65 as promulgated December 14, 2000. Synthetic organic

chemical manufacturing facilities subject to NSPS requirements must notify EPA of construction, modification, startups, shutdowns, date and results of initial performance test and excess emissions. Semiannual reports are also required. Synthetic organic chemical manufacturing facilities subject to NESHAP requirements must submit one-time-only reports of any physical or operational changes and the results of initial performance tests. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Periodic reports are also required semiannually at a minimum.

*Form Numbers:* None.

*Respondents/affected entities:* Synthetic organic chemical manufacturing facilities.

*Respondent's obligation to respond:* Mandatory (40 CFR part 65).

*Estimated number of respondents:* 5,198 (total).

*Frequency of response:* Initially, occasionally, semiannually and annually.

*Total estimated burden:* 2,210,000 hours (per year). Burden is defined at 5 CFR 1320.3(b).

*Total estimated cost:* \$337,000,000 (per year), which includes \$105,000,000 annualized capital or operation & maintenance costs.

*Changes in the Estimates:* There is an increase in the total estimated respondent labor burden and associated labor, capital/startup and O&M costs. This increase is not due to any program changes. Overall, the change in burden from the most recently-approved ICR is due to two reasons. First, the number of sources has increased industry growth. There is an estimated growth in the number of sources for the following referencing Subparts: Subpart Kb, Subpart VVa, Subpart DDD, Subpart III, Subpart NNN, Subpart RRR, Subpart V, and Subparts F, G, H and I (*i.e.*, the HON). Second, this ICR assumes that all existing sources will have to familiarize with the regulatory requirements each year resulting in a small increase in labor burden and associated labor costs for all of the Subparts.
