

the proposed relicensing action will require preparation of a Draft and Final EA. Thus the application will be processed according to the following revised procedural schedule. Revisions to the schedule may be made as appropriate.

| Milestone | Target date |
|------------------------------------|----------------|
| Issue Draft EA | October 2017. |
| Comments on Draft EA due. | November 2017. |
| Modified terms and conditions due. | January 2018. |
| Commission issues Final EA. | April 2018. |

Any questions regarding this notice may be directed to Dianne Rodman at (202) 502-6077, or by email at dianne.rodman@ferc.gov.

Dated: June 23, 2017.

Nathaniel J. Davis, Sr.,

Deputy Secretary.

BILLING CODE 6717-01-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OAR-2013-0246; FRL-9964-43-OAR]

Proposed Information Collection Request; Comment Request; Engine Emission Defect Information Reports and Voluntary Emission Recall Reports

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency is planning to submit an information collection request (ICR), "Engine Emission Defect Information Reports and Voluntary Emission Recall Reports" (EPA ICR Number 0282.16, OMB Control Number 2060-0048) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a proposed extension of the ICR, which is currently approved through November 30, 2016. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Comments must be submitted on or before August 28, 2017.

ADDRESSES: Submit your comments, referencing the Docket ID No. EPA-HQ-

OAR-2013-0246, online using www.regulations.gov (our preferred method), by email to a-and-r-Docket@epa.gov or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT:

Nydia Yanira Reyes-Morales, Environmental Protection Agency, 1200 Pennsylvania Avenue NW., Mail Code 6405A, Washington, DC 20460; telephone number: 202-343-9264; fax number: 202-343-2804; email address: reyes-morales.nydia@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, EPA West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Pursuant to section 3506(c)(2)(A) of the Paperwork Reduction Act, EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register**

notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: For this ICR, EPA is seeking a revision to an existing package with a three-year extension. Under the provisions of the Clean Air Act (CAA), the Administrator is required to promulgate regulations to control air pollutant emissions from motor vehicles and nonroad engines, as defined in the CAA. Per Sections 207(c)(1) and 213 of the CAA, when a substantial number of properly maintained and used engines produced by a manufacturer do not conform to emission standards, the manufacturer is required to recall the engines. Engine manufacturers are required to submit Defect Information Reports (DIRs) if emission-related defects that may cause the engines' emissions to exceed the standards are found on a number of engines of the same model year. EPA uses these reports to target potentially nonconforming classes of engines for future testing, to monitor compliance with applicable regulations and to order a recall, if necessary. Manufacturers can also initiate a recall voluntarily by submitting a Voluntary Emission Recall Report (VERR). VERRs and VERR updates allow EPA to determine whether the manufacturer conducting the recall is acting in accordance with the CAA and to examine and monitor the effectiveness of the recall campaign.

Forms: 5900-300 (Voluntary Emissions Recall Report); 5900-301 (Emissions Defect Information Report); and 5900-302 (Voluntary Emission Recall Quarterly Progress Report). These forms are available at <https://www.epa.gov/vehicle-and-engine-certification/report-forms-and-guidance-defects-and-recalls-under-40-cfr-part-85>.

Respondents/affected entities: Manufacturers of heavy-duty highway and nonroad engines.

Respondent's obligation to respond: Mandatory under 40 CFR parts 85, 89, 90, 91, 92, 94, 1035, 1039, 1042, 1045, 1048, 1051, 1054, and 1068.

Estimated number of respondents: 40 (total).

Frequency of response: Quarterly.

Total estimated burden: 15,084 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$1,042,252 (per year), includes \$9,800 annualized capital or operation & maintenance costs.

Changes in estimates: To date, there are no changes in the total estimated respondent burden compared with the ICR currently approved by OMB. However, EPA is evaluating information

that may lead to a change in the estimates. After EPA has evaluated this information, burden estimates may slightly decrease due to the fact that EPA has received fewer applications for certification of Category 3 engine families than previously estimated. Cost estimates may increase due to inflation and labor rate changes.

Dated: June 22, 2017.

Byron J. Bunker,

Director, Compliance Division, Office of Transportation and Air Quality, Office of Air and Radiation.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OW-2003-0033; FRL-9962-35-OW]

Proposed Information Collection Request; Comment Request; Modification of Secondary Treatment Requirements for Discharges Into Marine Waters (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) is planning to submit an information collection request (ICR), "Modification of Secondary Treatment Requirements for Discharges into Marine Waters (Renewal)" (EPA ICR No. 0138.11, OMB Control No. 2040-0088) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (PRA). Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a "proposed extension of the Information Collection Request (ICR), which is currently approved through 06/30/2017". An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Comments must be submitted on or before August 28, 2017.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA-HQ-2003-0033, online using <https://www.regulations.gov> (our preferred method), by email to OW-Docket@epa.gov or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Virginia Fox-Norse, Oceans and Coastal Protection Division, Office of Water, (4504T), Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460; telephone number: 202 566-1266; fax number: 202-566-1337; email address: fox-norse.virginia@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Pursuant to section 3506(c)(2)(A) of the PRA, EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: Regulations implementing section 301(h) of the Clean Water Act (CWA) are found at 40 CFR part 125, subpart G. The section 301(h) program

involves collecting information from two sources: (1) The municipal wastewater treatment facility, commonly called a publicly owned treatment works (POTW), and (2) the state in which the POTW is located. Municipalities had the opportunity to apply for a waiver from secondary treatment requirements, but that opportunity closed in December, 1982. A POTW holding a current waiver or reapplying for a waiver provides application, monitoring, and toxic control program information. The state provides information on its determination whether the discharge under the proposed conditions of the waiver ensures the protection of water quality, biological habitats, and beneficial uses of receiving waters and whether the discharge will result in additional treatment, pollution control, or any other requirement for any other point or nonpoint sources. The state also provides information to certify that the discharge will meet all applicable state laws and that the state accepts all permit conditions.

There are 4 situations where information will be required under the section 301(h) program: (1) A POTW reapplying for a section 301(h) waiver. As the permits with section 301(h) waivers reach their expiration dates, EPA must have updated information on the discharge to determine whether the section 301(h) criteria are still being met and whether the section 301(h) waiver should be reissued. Under 40 CFR 125.59(f), each section 301(h) permittee is required to submit an application for a new section 301(h) modified permit within 180 days of the existing permit's expiration date. 40 CFR 125.59(c) lists the information required for a modified permit. The information that EPA needs to determine whether the POTW's reapplication meets the section 301(h) criteria is outlined in the questionnaire attached to 40 CFR part 125, subpart G.

(2) Monitoring and toxic control program information: Once a waiver has been granted, EPA must continue to assess whether the discharge is meeting section 301(h) criteria, and that the receiving water quality, biological habitats, and beneficial uses of the receiving waters are protected. To do this, EPA needs monitoring information furnished by the permittee. According to 40 CFR 125.68(d), any permit issued with a section 301(h) waiver must contain the monitoring requirements of 40 CFR 125.63(b), (c), and (d) for biomonitoring, water quality criteria and standards monitoring, and effluent monitoring, respectively. Section 125.68(d) also requires reporting at the frequency specified in the monitoring
