We are estimating that a mid-level clerical person, with an average salary of \$34.24 per hour, will be completing the “Application for Investigation of Representation Dispute” form. The total burden is estimated at 17 hours, therefore, the total time burden cost is estimated at \$582.08 per year.

The total annual mailing cost to respondents is \$33.32

Number of applications mailed by

Respondents per year 68

Total estimated cost \$33.32

The collection of this information is not mandatory; it is a voluntary request from airline and railroad carrier employees seeking to invoke an investigation of a representation dispute. After consulting with a sample of people involved with the collection of this information, the time to complete this information collection is estimated to average 15 minutes per response, including gathering the data needed and completion and review of the information. However, the estimated hour burden costs of the respondents may vary due to the complexity of the specific question in dispute. The revision of the form requiring a new application for every craft or class will have little effect on the number of application submitted. In 2012 and 2013, no applications were filed that included a request for representation services for more than one craft or class.

The application form is available from the NMB’s Office of Legal Affairs and is also available on the Internet at <http://www.nmb.gov/representation/rapply.html>

12. The total annualized Federal cost is \$889.49. This includes the costs of printing and mailing the forms upon request of the parties. The completed applications are maintained by the Office of Legal Affairs.

a. Printing cost \$80.00

b. Mailing costs \$10.02

Basis (mail cost): Forms are requested approximately 3 times per year and it takes 5 minutes to prepare the form for mail

Postage cost = \$1.47

3 (times per year) × .49 (cost of postage)

Staff cost = \$8.55

\$.57 per minute (GS 9/10 \$71,467 = \$34.24 per hr. ÷ 60)

\$.57 × 5 minutes per mailing = \$2.85

\$2.85 × 3 times per year = \$8.55

Total Mailing Costs = \$10.02

c. Processing Cost = \$798.00

Basis (processing cost):

Representation is requested approximately 70 times per year and it takes 20 minutes to process each application

Staff Cost = \$798.00

\$.57 per minute (GS 9/10 \$71,467 = \$34.24 per hr. ÷ 60)

\$.57 × 20 minutes per mailing = \$11.40

\$11.40 × 70 times per year = \$798.00

13. Item 13—no change in annual reporting and recordkeeping hour burden.

14. The information collected by the application will not be published.

15. The NMB will display the OMB expiration date on the form.

16(a)—the form does not reduce the burden on small entities; however, the burden is minimized and voluntary.

16(b)—the form does not indicate the retention period for record keeping requirements.

16(c)—the form is not part of a statistical survey.

Requests for copies of the proposed information collection request may be accessed from www.nmb.gov or should be addressed to Denise Murdock, NMB, 1301 K Street NW., Suite 250 E, Washington, DC 20005 or addressed to the email address murdock@nmb.gov or faxed to 202–692–5081. II. Background

The RIS is intended for all holders of and applicants for power reactor operating licenses or construction permits under part 50 of title 10 of the *Code of Federal Regulations* (10 CFR), "Domestic Licensing of Production and Utilization Facilities," except those who have permanently ceased operations and have certified that fuel has been permanently removed from the reactor vessel and all holders of, and applicants for, a power reactor combined license, standard design approval, or manufacturing license, and all applicants for a standard design certification, under 10 CFR part 52, "Licenses, Certifications, and Approvals for Nuclear Power Plants."

This RIS is intended to clarify the endorsed NEI 01-01 guidance regarding licensee upgrades to digital instrumentation and control systems. Specifically, this RIS clarifies the guidance in NEI 01-01 pertaining to the performance and documentation of adequate technical evaluations and adequately documented qualitative assessments to meet the requirements of 10 CFR 50.59 "Changes, tests and experiments." The attachment to this RIS provides a framework for preparing and documenting qualitative assessments considered acceptable to serve as a technical basis supporting the responses to key 10 CFR 50.59(c)(2) evaluations.

The NRC issues RISs to communicate with stakeholders on a broad range of matters. This may include communicating and clarifying NRC technical or policy positions on regulatory matters that have not been communicated to or are not broadly understood by the nuclear industry.

Proposed Action

The NRC is requesting public comments on the draft RIS. The NRC plans to hold a public meeting to discuss this RIS and the issues associated with clarification of the applicability of the endorsed NEI 01-01 guidance. All comments that are to receive consideration in the final RIS must still be submitted electronically or in writing as indicated in the **ADDRESSES** section of this document. Additional details regarding the meeting will be posted at least 10 days prior to the public meeting on the NRC's Public Meeting Schedule Web site at <http://www.nrc.gov/public-involve/public-meetings/index.cfm>. The NRC staff will make a final determination regarding issuance of the RIS after it considers any public comments received in response to this request.

Dated at Rockville, Maryland, this 28th day of June 2017.

For the Nuclear Regulatory Commission.

Alexander D. Garmoe,

Chief, Generic Communications Branch, Division of Policy and Rulemaking, Office of Nuclear Reactor Regulation.
