

eligibility to receive access to business proprietary information under APO can be found at 19 CFR 351.304–306.

Information Required From Interested Parties

Domestic interested parties, as defined in section 771(9)(C), (D), (E), (F), and (G) of the Act and 19 CFR 351.102(b), wishing to participate in a Sunset Review must respond not later than 15 days after the date of publication in the **Federal Register** of this notice of initiation by filing a notice of intent to participate. The required contents of the notice of intent to participate are set forth at 19 CFR 351.218(d)(1)(ii). In accordance with the Department's regulations, if we do not receive a notice of intent to participate from at least one domestic interested party by the 15-day deadline, the Department will automatically revoke the order without further review.⁶

If we receive an order-specific notice of intent to participate from a domestic interested party, the Department's regulations provide that *all parties* wishing to participate in a Sunset Review must file complete substantive responses not later than 30 days after the date of publication in the **Federal Register** of this notice of initiation. The required contents of a substantive response, on an order-specific basis, are set forth at 19 CFR 351.218(d)(3). Note that certain information requirements differ for respondent and domestic parties. Also, note that the Department's information requirements are distinct from the Commission's information requirements. Consult the Department's regulations for information regarding the Department's conduct of Sunset Reviews. Consult the Department's regulations at 19 CFR part 351 for definitions of terms and for other general information concerning antidumping and countervailing duty proceedings at the Department.

This notice of initiation is being published in accordance with section 751(c) of the Act and 19 CFR 351.218(c).

Dated: June 21, 2017.

Gary Taverman,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

BILLING CODE 3510-DS-P

DEPARTMENT OF ENERGY

Office of Energy Efficiency and Renewable Energy

[EERE–2017–BT–STD–0048]

Energy Conservation Program: Energy Conservation Standards for Dedicated-Purpose Pool Pump Motors; Notice of Public Meeting

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Notice of public meeting and webinar.

SUMMARY: On January 18, 2017, the U.S. Department of Energy (“DOE”) published in the **Federal Register** a direct final rule to establish new energy conservation standards for dedicated purpose pool pumps. These standards did not directly address the efficiency of the motors used in dedicated-purpose pool pumps, particularly in replacement applications. Interested stakeholders have encouraged DOE to initiate a working group to specifically address dedicated-purpose pool pump motors that can be used in replacement applications. Therefore, DOE is announcing a public meeting to gather data and information that could lead to the consideration of energy conservation standards for dedicated-purpose pool pump (DPPPs) motors. The meeting will be held on August 10, 2017.

DATES: DOE will hold a public meeting on August 10, 2017 from 10 a.m. to 3 p.m., in Washington, DC. The meeting will also be broadcast as a webinar. See the “Public Participation” section of this notice for webinar registration information, participant instructions, and information about the capabilities available to webinar participants.

ADDRESSES: The public meeting will be held at the U.S. Department of Energy, Forrestal Building, Room 8E–089, 1000 Independence Avenue SW., Washington, DC 20585–0121. Please see the, “Public Participation” section of this notice for additional information on attending the public meeting.

FOR FURTHER INFORMATION CONTACT: Mr. Jeremy Domm, U.S. Department of Energy, Building Technologies Program, EE–5B, 1000 Independence Avenue SW., Washington, DC 20585–0121, (202) 586–9870. Email: ApplianceStandardsQuestions@ee.doe.gov.

SUPPLEMENTARY INFORMATION: On May 26, 2017, DOE published in the **Federal Register** a notice confirming the effective date and compliance date of new energy conservation standards for

dedicated purpose pool pumps (82 FR 24218). These standards were established through a direct final rule published in the **Federal Register** on January 18, 2017 (82 FR 5650) and directly reflect the unanimous consensus of a negotiated rulemaking working group for DPPPs (“the DPPP Working Group”). In comments submitted in response to this direct final rule, four parties commented that they hesitated to support or stated they did not support the direct final rule, despite their participation in the DPPP Working Group and unanimous consensus, because the direct final rule did not address replacement motors that could be used in dedicated-purpose pool pumps. Two parties further encouraged DOE to initiate a working group to specifically address energy conservation standards for dedicated-purpose pool pump motors. (All comments are available for public viewing at <https://www.regulations.gov/docket?D=EERE-2014-BT-STD-0048>.) DOE plans to hold this public meeting to gather data and information that could lead to the consideration of energy conservation standards for dedicated-purpose pool pump motors and to consider the formation of a working group on dedicated-purpose pool pump motors.

Public Participation

Attendance at Public Meeting

The time, date and location of the public meeting are listed in the **DATES** and **ADDRESSES** sections at the beginning of this document. If you plan to attend the public meeting, please notify the Appliance and Equipment Standards staff at (202) 586–6636 or Appliance_Standards_Public_Meetings@ee.doe.gov.

Please note that foreign nationals visiting DOE Headquarters are subject to advance security screening procedures which require advance notice prior to attendance at the public meeting. If a foreign national wishes to participate in the public meeting, please inform DOE of this fact as soon as possible by contacting Ms. Regina Washington at (202) 586–1214 or by email: Regina.Washington@ee.doe.gov so that the necessary procedures can be completed.

DOE requires visitors to have laptops and other devices, such as tablets, checked upon entry into the building. Any person wishing to bring these devices into the Forrestal Building will be required to obtain a property pass. Visitors should avoid bringing these devices, or allow an extra 45 minutes to check in. Please report to the visitor's desk to have devices checked before proceeding through security.

⁶ See 19 CFR 351.218(d)(1)(iii).

Due to the REAL ID Act implemented by the Department of Homeland Security (DHS), there have been recent changes regarding ID requirements for individuals wishing to enter Federal buildings from specific States and U.S. territories. DHS maintains an updated Web site identifying the State and territory driver's licenses that currently are acceptable for entry into DOE facilities at <https://www.dhs.gov/real-id-enforcement-brief>. A driver's license from a State or territory identified as not compliant by DHS will not be accepted for building entry and one of the alternate forms of ID listed below will be required. Acceptable alternate forms of Photo-ID include U.S. Passport or Passport Card; an Enhanced Driver's License or Enhanced ID-Card issued by States and territories as identified on the DHS Web site (Enhanced licenses issued by these States and territories are clearly marked Enhanced or Enhanced Driver's License); a military ID or other Federal government-issued Photo-ID card.

In addition, you can attend the public meeting via webinar. Webinar registration information, participant instructions, and information about the capabilities available to webinar participants will be published on DOE's Web site: https://www1.eere.energy.gov/buildings/appliance_standards/standards.aspx?productid=6. Participants are responsible for ensuring their systems are compatible with the webinar software.

Procedure for Submitting Prepared General Statements for Distribution

Any person who has plans to present a prepared general statement may request that copies of his or her statement be made available at the public meeting. Such persons may submit requests, along with an advance electronic copy of their statement in PDF (preferred), Microsoft Word or Excel, WordPerfect, or text (ASCII) file format, to the appropriate address shown in the **ADDRESSES** section at the beginning of this notice. The request and advance copy of statements must be received at least one week before the public meeting and may be emailed, hand-delivered, or sent by mail. DOE prefers to receive requests and advance copies via email. Please include a telephone number to enable DOE staff to make a follow-up contact, if needed.

Conduct of Public Meeting

DOE will designate a DOE official to preside at the public meeting and may also use a professional facilitator to aid discussion. The meeting will not be a judicial or evidentiary-type public hearing, but DOE will conduct it in accordance with section 336 of EPCA (42 U.S.C. 6306). A court reporter will be present to record the proceedings and prepare a transcript. DOE reserves the right to schedule the order of presentations and to establish the procedures governing the conduct of the public meeting.

The public meeting will be conducted in an informal, conference style. DOE will present summaries of comments received before the public meeting, allow time for prepared general statements by participants, and encourage all interested parties to share their views. Each participant will be allowed to make a general statement (within time limits determined by DOE), before the discussion of specific topics. DOE will permit, as time permits, other participants to comment briefly on any general statements.

At the end of all prepared statements on a topic, DOE will permit participants to clarify their statements briefly and comment on statements made by others. Participants should be prepared to answer questions by DOE and by other participants concerning these issues. DOE representatives may also ask questions of participants concerning other relevant matters. The official conducting the public meeting will accept additional comments or questions from those attending, as time permits. The presiding official will announce any further procedural rules or modification of the above procedures that may be needed for the proper conduct of the public meeting.

A transcript of the public meeting will be included on DOE's Web site: https://www1.eere.energy.gov/buildings/appliance_standards/standards.aspx?productid=6. In addition, any person may buy a copy of the transcript from the transcribing reporter.

Issued in Washington, DC, on June 23, 2017.

Kathleen B. Hogan,

Deputy Assistant Secretary for Energy Efficiency, Energy Efficiency and Renewable Energy.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CD17-14-000]

Three Sisters Irrigation District; Notice of Preliminary Determination of a Qualifying Conduit Hydropower Facility and Soliciting Comments and Motions To Intervene

On June 22, 2017, Three Sisters Irrigation District filed a notice of intent to construct a qualifying conduit hydropower facility, pursuant to section 30 of the Federal Power Act (FPA), as amended by section 4 of the Hydropower Regulatory Efficiency Act of 2013 (HREA). The proposed McKenzie Reservoir Hydroelectric Facility Project would have an installed capacity of 300 kilowatts (kW), and would be located on the proposed 5.5-mile-long irrigation pipeline. The project would be located in the town of Sisters, Deschutes County, Oregon.

Applicant Contact: Marc Thalacker, P.O. Box 2230, Sisters, OR 97759, Phone No. (541) 549-8815.

FERC Contact: Robert Bell, Phone No. (202) 502-6062, email: robert.bell@ferc.gov.

Qualifying Conduit Hydropower Facility Description: The proposed project would consist of: (1) A new powerhouse, at the end of the proposed 42-inch-diameter irrigation pipe; (2) one new turbine/generating unit with a total installed capacity of 300 kW; (3) a short tailrace emptying into McKenzie Reservoir, from which irrigation channels provide water to nearby farms; and (4) appurtenant facilities.

The proposed project would have an annual generation capacity of 1,300,000 kWh.

A qualifying conduit hydropower facility is one that is determined or deemed to meet all of the criteria shown in the table below.
