

subsidiary's liabilities under applicable accounting standards. The Federal Reserve used information collected on the Capital and Asset Report for Foreign Banking Organizations (FR Y-7Q), the FR Y-9C and the FR XX-1 to calculate liabilities of these institutions.

The Board granted a request from one financial company to use an accounting standard or method of estimation other than GAAP to calculate liabilities. The requesting company is an insurance company that reports financial information under Statutory Accounting Principles ("SAP"). The Board approved a method of estimation for this company that is based on line items from SAP reports, with adjustments to reflect certain differences in accounting treatment between GAAP and SAP.

By order of the Board of Governors of the Federal Reserve System, acting through the Director of Supervision and Regulation under delegated authority, June 28, 2017.

Ann E. Misback,

Secretary of the Board.
