Scoping Process

This Corrected Notice of Intent initiates a scoping period, which guides additional development of the environmental impact statement. The Forest Service will be seeking information, comments, and assistance from Tribal Governments; Federal, State, and local agencies; and individuals and organizations interested in or affected by the proposed activities. There will also be ample public involvement on Prince of Wales Island, including: public meetings held in various communities, subsistence hearings, information posted in public places and in local publications such as the *Island Post*, and from the Prince of Wales Landscape Assessment Team, a collaborative group independently formed to provide widely based proposals to be considered by the U.S. Forest Service in the POW LLA Project development and analysis process. Project information and updates, meeting notices, and documents will be provided throughout the process on the project Web page at <http://www.fs.usda.gov/goto/tongass/powlla>.

Individuals may also provide comments and sign up for an electronic mailing list at that site.

It is important that reviewers provide their comments at such times and in such manner that they are useful to the agency's preparation of the environmental impact statement. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns and contentions.

Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public record for this proposed action. Comments submitted anonymously will be accepted and considered; however, anonymous comments will not provide the Agency with the ability to provide the respondent with subsequent environmental documents.
