information and program focus, are regularly available online as tribal Web sites are not updated frequently. Therefore, the survey will enable the collection of the most accurate information possible.

The respondents include 424 LTSS programs run by AI/AN tribes. Once the survey has been conducted, CMS will feature the survey data, specifically a list of AI/AN managed LTSS programs, online on CMS.gov. The dissemination of survey data on CMS.gov will allow tribal communities and the general public to access this important data. Documentation of these programs will support sharing of LTSS best practices and innovative models employed in Indian Country. CMS will use the survey data to generate further content on LTSS in Indian Country, including literature reviews and reports on best practices.
