A. Overview of Information Collection

Title of Information Collection: Exigent Health and Safety Deficiency Correction Certification.

OMB Approval Number: 2577-0241.

Type of Request: Revision of currently approved collection.

Form Number: None.

Description of the need for the information and proposed use: HUD's Uniform Physical Condition Standards (UPCS) regulation (24 CFR part 5, subpart G) provides that HUD housing must be decent, safe, sanitary, and in good repair. The UPCS regulation also provides that all area and components of the housing must be free of health and safety hazards. HUD conducts physical inspections of the HUD-funded housing to determine if the UPCS standards are being met. Pursuant to the UPCS inspection protocol, at the end of the inspection (or at the end of each day of a multi-day inspection) the inspector provides the property representative with a copy of the "Notification of Exigent and Fire Safety Hazards Observed" form. Each exigent health and safety (EHS) deficiency that the inspector observed that day is listed on the form. The property representative signs the form acknowledging receipt. PHAs are to correct/remedy/act to abate

all EHS deficiencies within 24 hours. Using the electronic format, PHAs are to notify HUD within three business days of the date of inspection, which is the date the PHA was provided notice of these deficiencies, that the deficiencies were corrected/remedied/acted on to abate within the prescribed time frames (24 CFR part 902).

The **Federal Register** notice that solicited public comment on the information collection for a period of 60 days was published on February 7, 2017 at 82 FR 9591.

A. Overview of Information Collection

Title of Information Collection: Understanding Rapid Re-Housing Study.

OMB Approval Number: 2528—New.

Type of Request: New.

Form Number: No Forms.

Description of the need for the information and proposed use: Rapid Re-Housing (RRH) is an increasingly popular approach for using the homeless assistance system to reduce and end homelessness in communities across the United States. Several studies have examined RRH program outcomes. HUD's Rapid Re-Housing for Homeless Families Demonstration Program report and the U.S. Department of Veterans Affairs' research brief Impact and Performance of the Supportive Services for Veteran Families (SSVF) Program: Results from the FY 2013 Program Year measured RRH outcomes, and RRH was one of the active interventions tested in the Family Options Study (FOS). Several local studies have also assessed RRH. Collectively, the research conducted to date has produced varied evidence of the outcomes for participants receiving this type of assistance.

The Understanding Rapid Re-Housing Study provides an opportunity to (1) synthesize existing research on RRH programs, (2) extend the analysis of data from the Family Options Study (2016), (3) provide a detailed examination of all rapid re-housing programs nationwide, and (4) conduct qualitative research with a small sample of families and individuals who receive RRH. The first two objectives will utilize existing literature and data that have already been collected. To examine the nation's RRH programs, we will rely on currently existing Annual Program Reports (APRs) from local Continuums of Care (CoCs) and administer a web-based survey to RRH programs. To accomplish the fourth objective, we will conduct in-depth interviews and ethnographic research with households. This notice announces HUD's intent to collect information through the following
