Analysis of Comments Received

All issues raised in the case and rebuttal briefs by parties to this administrative review are addressed in the Issues and Decision Memorandum. A list of the issues raised by parties is attached in the Appendix to this notice.

Adverse Facts Available

In the *Preliminary Results*, the Department applied total adverse facts available (AFA) to Severstal and assigned it a rate of 184.56 percent. The Department determined that Severstal significantly impeded the proceeding, failed to provide necessary information, and failed to cooperate by not acting to the best of its ability to comply with requests for information. As discussed in the Issues and Decision Memorandum, we continue to assign Severstal an AFA rate for these final results of review.

Final Results of the Review

The final weighted-average dumping margin is as follows:

Exporter/producer	Weighted-average dumping margin (percent)
Severstal PAO and Severstal Export (collectively, Severstal)	184.56

Assessment Rate

Pursuant to section 751(a)(2)(A) of the Act, and 19 CFR 351.212(b), the Department has determined, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries of subject merchandise in accordance with the final results of this review.³ The Department shall instruct CBP to apply

³ For assessment purposes, the Department applied the assessment rate calculation method adopted in *Antidumping Proceedings: Calculation of the Weighted-Average Dumping Margin and Assessment Rate in Certain Antidumping Proceedings: Final Modification*, 77 FR 8101 (February 14, 2012).

an *ad valorem* assessment rate of 184.56 percent to all entries of subject merchandise during the POR which were produced and/or exported by Severstal. The Department intends to issue assessment instructions to CBP 15 days after the date of publication of these final results of review.

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of this notice for all shipments of subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication of these final results, as provided by section 751(a)(2) of the Act: (1) The cash deposit rate for the respondent noted above will be the rate established in the final results of this administrative review; (2) for merchandise exported by manufacturers or exporters not covered in this administrative review but covered in a prior segment of the proceeding, the cash deposit rate will continue to be the company specific rate published for the most recently completed segment of this proceeding; (3) if the exporter is not a firm covered in this review, a prior review, or the original investigation, but the producer is, the cash deposit rate will be the rate established for the most recently completed segment of this proceeding for the producer of the subject merchandise; and (4) the cash deposit rate for all other producers or exporters will continue to be 184.56 percent, the all-others rate established in the antidumping duty investigation.⁴ These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers Regarding the Reimbursement of Duties

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping and/or countervailing duties prior to liquidation of the relevant entries during the period of review. Failure to comply with this requirement could result in the Department's presumption that reimbursement of antidumping and/or countervailing duties did occur and the subsequent assessment of doubled antidumping duties.

Administrative Protective Order

This notice also serves as a reminder to parties subject to administrative

Timely written notification of the return/destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.
