If the submission is in another file format, please indicate the name of the software application in the “Type Comment” field. File names should reflect the name of the person or entity submitting the comments. Please do not attach separate cover letters to electronic submissions; rather, include any information that might appear in a cover letter in the comments themselves. Similarly, to the extent possible, please include any exhibits, annexes, or other attachments in the same file as the comment itself, rather than submitting them as separate files. Submissions should not exceed 30 single-spaced, standard letter-size pages in 12-point type, including attachments.

For any comments submitted electronically containing business confidential information, the file name of the business confidential version should begin with the characters “BC”. Any page containing business confidential information must be clearly marked “BUSINESS CONFIDENTIAL” on the top of that page and the submission should clearly indicate, via brackets, highlighting, or other means, the specific information that is business confidential. A submitter requesting business confidential treatment must certify that the information is business confidential and would not customarily be released to the public by the submitter. Additionally, the submitter should type “Business Confidential CBI Report to Congress” in the “Type Comment” field. If you file comments containing business confidential information, you also must separately submit a public version of the comments that we will place in the docket for public inspection. The file name of the public version should begin with the character “P”. The “BC” and “P” should be followed by the name of the person or entity submitting the comments. Filers submitting comments containing no business confidential information should name their file using the name of the person or entity submitting the comments.
