

burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The proposal simply provides more opportunity for Agency Orders and priority interest in the book to be executed in full when an auction response matches the Exchange's disseminated quote on the opposite of the market from the auction response. The Exchange notes that another exchange with a similar auction allows the auction to continue for its full duration when an auction response matches the disseminated quote on the opposite of the market from the auction response. The Exchange also notes that the proposal helps protect the public interest by treating responses that cross the opposite side of the Exchange's disseminated quote as responses priced at the Exchange's disseminated quote because doing so allows Agency Orders to receive price improvement beyond the stopped price.

## SECURITIES AND EXCHANGE COMMISSION

### Proposed Collection; Comment Request

#### *Upon Written Request Copies Available*

Extension: Rule 433

SEC File No. 270-558, OMB Control No. 3235-0617

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") is soliciting comments on the collections of information summarized below. The Commission plans to submit this existing collection of information to the Office of Management and Budget for extension and approval.

Rule 433 (17 CFR 230.433) governs the use and filing of free writing prospectuses under the Securities Act of 1933 (15 U.S.C. 77a *et seq.*). The purpose of Rule 433 is to reduce the restrictions on communications that a company can make to investors during a registered offering of its securities, while maintaining a high level of investor protection. A free writing prospectus meeting the conditions of Rule 433(d)(1) must be filed with the Commission and is publicly available. We estimate that it takes approximately 1.3 burden hours per response to prepare a free writing prospectus and that the information is filed by 3,633 respondents approximately 1.25 times a year for a total of 3,633 responses. We estimate that 25% of the 1.3 burden hours per response (0.32 hours) is prepared by the company for total annual reporting burden of 1,163 hours (0.32 hours x 3,633 responses).

Written comments are invited on: (a) Whether this proposed collection of information is necessary for the

performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden imposed by the collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid control number.
