DEPARTMENT OF DEFENSE

Department of the Navy

[Docket ID: USN-2017-HQ-0004]

Proposed Collection; Comment Request

AGENCY: Commander Navy Installation Command, Department of the Navy, DoD.

ACTION: Notice.

SUMMARY: In compliance with the *Paperwork Reduction Act of 1995*, the Department of the Navy announces a proposed public information collection and seeks public comment on the provisions thereof. Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; the accuracy of the agency's estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received by September 11, 2017.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

- *Mail:* Department of Defense, Office of the Deputy Chief Management Officer, Directorate for Oversight and Compliance, Regulatory and Advisory Committee Division, 4800 Mark Center Drive, Mailbox #24, Suite 08D09B, Alexandria, VA 22350-1700.

Instructions: All submissions received must include the agency name, docket number and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the Internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to the Commander Naval Installations Command, N3AT Technology Officer, ATTN: Floyd Madrid, Bldg 196, Rm. 123, 1325 10th Street SE., Washington Navy Yard, DC 20388 or call 202-433-4784; or Headquarters Marine Corps, Plans Policies and Operations, Security Division (PS), Security Branch, Security Technologies Section, ATTN: Charles Pierce, 3000 Marine Corps Pentagon Rm 4A324, Washington, DC 20350-3000, or call 703-695-7202.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Navy Access Control Management System (NACMS) and the U.S. Marine Corps Biometric and Automated Access Control System (BAACS); The associated Form is SECNAV 5512/1 Department of the Navy Local Population ID Card/Base Access Pass Registration Form; OMB Control Number 0703-0061.

Needs and Uses: The information collection requirement is necessary to control physical access to Department of Defense (DoD), Department of the Navy (DON) or U.S. Marine Corps Installations/Units controlled information, installations, facilities, or areas over which DoD, DON or U.S. Marine Corps has security responsibilities by identifying or verifying an individual through the use of biometric databases and associated data processing/information services for designated populations for purposes of protecting U.S./Coalition/allied government/national security areas of responsibility and information; to issue

badges, replace lost badges and retrieve passes upon separation; to maintain visitor statistics; collect information to adjudicate access to facility; and track the entry/exit of personnel.

Affected Public: Individuals or Households; Business or other for-profit; Not-for-profit institutions.

Annual Burden Hours: 816,667.

Number of Respondents: 4.9 Million.

Responses per Respondent: 1.

Annual Responses: 4.9 Million.

Average Burden per Response: 10 minutes.

Frequency: Daily.

Respondents are non-DoD members of the general public, businesses or other for profit and not-for-profit institutions who are seeking to access DoD, DON or U.S. Marine Corps Installations/Bases, installations, facilities, or areas over which DoD, DON or U.S. Marine Corps has security responsibilities. The respondents appear in person, record their personal identifiable information on the SECNAV 5512/1 Department of the Navy Local Population ID Card/Base Access Pass Registration Form, and submit it to the DON/USMC registrar who verifies the information against required I-9 Identity proofing documents. The registrar then enters the respondent's registration data into the Navy's Access Control Management System (NACMS) or the USMC's Biometric and Automated Access Control System (BAACS), which respectively serve as the registering Installation's/Base's Physical Access Control System where the data is stored for local physical access control requirements. Upon entry, this information is also securely transmitted and stored within the Department of Defense's authoritative data source (Local Population Database). The data is used to perform background checks to determine the fitness of non-DoD persons who are requesting access to DoD, DON or U.S. Marine Corps military installations. Upon successful registration and background check, either a Local Population ID Card or Base Access Pass is issued to the respondent. Respondents who provide their personal identifiable information are consenting to collection of information by their action of voluntarily offering their I-9 documents, or fingerprints, irises, and facial profiles for biometric collection. Failure to provide requested information may result in denial of access to DoD installations, facilities, and buildings.

Dated: July 7, 2017.

BILLING CODE 5001-06-P

DEPARTMENT OF ENERGY

[(OE Docket No. PP-82-5)]

Application To Amend Presidential Permit; Vermont Electric Power Company, Inc., as Agent for the Joint Owners of the Highgate Interconnection Facilities

AGENCY: Office of Electricity Delivery and Energy Reliability, DOE.

ACTION: Notice of Application.

SUMMARY: Vermont Electric Power Company, Inc. (“VELCO”), as operating-and-management agent for the Joint Owners of the Highgate Transmission Interconnection Facilities (the “Highgate Joint Owners”) filed an application to amend PP-82, issued on May 14, 1985 and amended on March 1, 1994, September 3, 2003, February 7, 2005 and again on May 3, 2016. VELCO requested that DOE reflect changes in ownership of the Highgate Transmission Facility.

DATES: Comments or motions to intervene must be submitted on or before August 11, 2017.

ADDRESSES: Comments or motions to intervene should be addressed as follows: Office of Electricity Delivery and Energy Reliability (OE-20), U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585.

FOR FURTHER INFORMATION CONTACT: Christopher Lawrence (Program Office) at 202-586-5260, or by email to Christopher.Lawrence@hq.doe.gov, or Rishi Garg (Program Attorney) at 202-586-0258.

SUPPLEMENTARY INFORMATION: The construction, operation, maintenance, and connection of facilities at the international border of the United States for the transmission of electric energy between the United States and a foreign country is prohibited in the absence of a Presidential permit issued pursuant to Executive Order (E.O.) 10485, as amended by E.O. 12038.

On April 11, 2017, VELCO filed an application with DOE, as required by 10 CFR 205.322, requesting DOE amend PP-82-4 to reflect a change in the names and ownership interests and authorize, under Article 10 of PP-82 the transfer of the Highgate Transmission Facility so that Vermont Transco, LLC

(Transco) will acquire 94.73% of the ownership interest in the facility from the current Joint Highgate Owners. The remaining 5.27% of the ownership would be acquired by the Stowe Electric Department (Stowe). Transco and Stowe would then be the Joint Highgate Owners. On June 14, 2017, VELCO informed DOE that Burlington Electric Department will remain a joint owner with 7.7% interest. Based on this modification, Transco would then have 87.03% of the ownership interest.

The international transmission facilities authorized by Presidential Permit No. PP-82, as amended, include a back-to-back converter station in Highgate, VT and a 345 kilovolt (kV) transmission line extending approximately 7.5 miles from the converter station to the U.S.-Canada border in Franklin, VT. VELCO does not propose to make any physical changes to the Highgate Facilities but rather asks the Department to amend the permit to reflect the change in ownership of the project.

Procedural Matters: Any person may comment on this application by filing such comment at the address provided above. Any person seeking to become a party to this proceeding must file a motion to intervene at the address provided above in accordance with Rule 214 of FEREC’s Rules of Practice and Procedure (18 CFR 385.214). Two copies of each comment or motion to intervene should be filed with DOE on or before the date listed above.

Additional copies of such motions to intervene also should be filed directly with: Mr. Colin Owyang, Vice President, General Counsel & Corporate Secretary, Vermont Electric Power Company, Inc., 366 Pinnacle Ridge Road, Rutland, VT 05701, cowyang@velco.com AND John H. Marshall, Esq., Downs Rachlin Martin PLLC, 90 Prospect Street, P.O. Box 99, St. Johnsbury, VT 05819-0099, jmarshall@drm.com.

Before a Presidential permit may be granted or amended, DOE must determine that the proposed action will not adversely impact the reliability of the U.S. electric power supply system. In addition, DOE must consider the environmental impacts of the proposed action (*i.e.*, granting the Presidential permit or amendment, with any conditions and limitations, or denying the permit) pursuant to the National Environmental Policy Act of 1969. DOE also must obtain the concurrence of the Secretary of State and the Secretary of Defense before taking final action on a Presidential permit application.

Copies of this application will be made available, upon request, for public inspection and copying at the address

provided above. In addition, the application may be reviewed or downloaded electronically at <http://energy.gov/oe/services/electricity-policy-coordination-and-implementation/international-electricity-regulation-2>. Upon reaching the home page, select “Pending Applications.”

Issued in Washington, D.C., on June 28, 2017.

Christopher A. Lawrence,

Electricity Policy Analyst, Office of Electricity Delivery and Energy Reliability.
