

parties.⁵ The Commission estimates that rather than the initial estimate of 250 reporting parties who are not swap dealers (“SDs”) or major swap participants (“MSPs”), and who satisfy their reporting obligations themselves, there are 207 such reporting parties.⁶ The burden hours for each entity category based upon these new estimates are noted in the applicable table below.

RECURRING ANNUAL BURDEN HOURS FOR SEFS

Respondents/Affected Entities: SEFs.
Estimated number of respondents: 25.
Estimated total annual burden on respondents: 52,000 hours.⁷

RECURRING ANNUAL BURDEN HOURS FOR SEFS

Respondents/Affected Entities: DCMs.
Estimated number of respondents: 15.
Estimated total annual burden on respondents: 31,200 hours.⁸

RECURRING ANNUAL BURDEN HOURS FOR SDRS

Respondents/Affected Entities: SDRs.
Estimated number of respondents: 4.
Estimated total annual burden on respondents: 27,600 hours.⁹

RECURRING ANNUAL BURDEN HOURS FOR NON SD/MSPS USING THIRD PARTY

Respondents/Affected Entities: Non SD/MSPs Using Third Party.
Estimated number of respondents: 496.
Estimated total annual burden on respondents: 10,912 hours.¹⁰

RECURRING ANNUAL BURDEN HOURS FOR NON SD/MSPS REPORTING THEMSELVES

Respondents/Affected Entities: Non SD/MSPs Reporting Themselves.
Estimated number of respondents: 207.
Estimated total annual burden on respondents: 139,932 hours.¹¹

In addition to the above burden hours for compliance with part 43 obligations generally, the Commission determined that certain market participants would incur burden hours associated with the masking of the geographic detail of the underlying assets to a swap in the other commodity asset class, and with the election to have a swap transaction treated as a block trade or large notional off-facility swap.¹² The Commission initially estimated that respondent SDRs would incur an aggregate of 833 annual burden hours in connection with the masking of geographic detail of the underlying assets to a swap in the other commodity asset class.¹³ Based on the Commission’s observation of registered SDRs’ operations and compliance with part 43’s requirements, the Commission is increasing this estimate and now estimates that SDRs will incur an aggregate of 3,307 annual burden hours in connection with the masking of geographic detail of the underlying assets to a swap in the other commodity asset class.¹⁴

The Commission initially estimated that market participants would incur an aggregate of 2,167 annual burden hours in connection with the election to have a swap transaction treated as a block trade.¹⁵ Based on the Commission’s observation of market participants’ compliance with part 43’s requirements, the Commission is increasing this estimate and now estimates that market participants will incur an aggregate of 3,648 annual burden hours in connection with the election to have a swap transaction treated as a block trade.¹⁶

The Commission initially estimated that market participants would incur an aggregate of 2,255 annual burden hours in connection with the election to have a swap transaction treated as a large notional off-facility swap.¹⁷ Based on

¹⁰ 22 average recurring burden hours per respondent × 496 respondents = 10,912 total burden hours for all respondents.

¹¹ 676 average recurring burden hours per respondent × 207 respondents = 139,932 total burden hours for all respondents.

SUPPLEMENTARY INFORMATION: The Corporation for National and Community Service (CNCS), in accordance to the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. Sec. 3506(c)(2)(A)), provides the general public and federal agencies with an opportunity to comment on proposed and/or continuing collections of information. This helps CNCS assess the impact of its information collection requirements and minimize the public's reporting burden (time and financial resources). It also helps the public understand CNCS' information collection requirements and provide the requested data in the desired format. CNCS is soliciting comments on the proposed renewal information

collection request (ICR) that is described below. CNCS is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of CNCS, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are expected to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submissions of responses).

Comments submitted in response to this notice will be summarized and/or

included in the request for Office of Management and Budget approval of the information collection request. Please note that written comments received in response to this notice will become a matter of public record.

Abstract

CNCS seeks renewal of the current information collection pursuant to the Domestic Volunteer Service Act of 1973 (42 U.S.C. 4950 *et seq.*) and the National and Community Service Act of 1990, (42 U.S.C. 12501 *et seq.*) The information collected will be used to help CNCS more effectively utilize its deployable resources to meet the needs of disaster affected communities. A better understanding of the participating programs will allow CNCS to match the capabilities of the programs to the needs of the communities and will allow better asset mapping and resource typing. Additionally, the information collected will allow CNCS to conduct better outreach to interested programs by providing them with more information about CNCS disaster procedures, reimbursement requirements, and support services offered.

The revisions are intended to streamline the application process and ensure interested programs meet the appropriate programmatic and fiscal requirements to successfully execute disaster response activities. Additionally, the supporting forms will help CNCS identify and deploy programs more effectively and efficiently, matching the capabilities of the programs to the needs of the communities requesting assistance. The additional tools and forms under the DRCA will allow for effective information collection during a disaster event as well as assess the capacity of all DRCA programs throughout the year. Information will be collected electronically through completion of the forms and emailed to CNCS. The information collection will otherwise be used in the same manner as the existing application.

CNCS also seeks to continue using the current application until the revised

application is approved by OMB. The current application is due to expire on December 31, 2017.

Dated: July 10, 2017.

Kelly DeGraff,

Senior Advisor, Disaster Services Unit, Corporation for National and Community Service.
