to the International Branch, send it to the attention of the person identified in paragraph (i)(2) of this AD. Information may be emailed to: 9-ANM-116-AMOC-REQUESTS@faa.gov. Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the local Flight Standards district office/certificate holding district office.

(2) Contacting the Manufacturer: For any requirement in this AD to obtain corrective actions from a manufacturer, the action must be accepted and approved using a method approved by the Manager, International Branch, ANM–116, Transport Airplane Directorate, FAA; or the Civil Aviation Authority of Israel (CAAI); or the CAAI’s authorized Designee. If approved by the CAAI Designee, the approval must include the Designee’s authorized signature.

(i) Related Information

(1) Refer to Mandatory Continuing Airworthiness Information (MCAI) CAAI

Federal Aviation Administration

14 CFR Part 39

RIN 2120–AA64

Airworthiness Directives; Embraer S.A. Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: We propose to adopt a new airworthiness directive (AD) for certain Embraer S.A. Model ERJ 170 airplanes and Model ERJ 190–100 STD, –100 LR, –100 IGW, –200 STD, –200 LR, and –200 IGW airplanes. This AD requires repetitive detailed inspections of the web aft face of the forward pressure bulkhead for any cracking and discrepancy; and modification of the forward pressure bulkhead, which would terminate the repetitive inspections. This AD was prompted by an evaluation by the design approval holder (DAH) indicating that the forward bulkhead is subject to widespread fatigue damage (WFD). We are proposing this AD to address the unsafe condition on these products.

DATES: We must receive comments on this proposed AD by August 31, 2017.

ADDRESSES: You may send comments, using the procedures found in 14 CFR 11.43 and 11.45, by any of the following methods:

• Federal eRulemaking Portal: Go to http://www.regulations.gov. Follow the instructions for submitting comments.
• Fax: 202–493–2251.
• Hand Delivery: Deliver to Mail address above between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

For service information identified in this NPRM, contact Embraer S.A., Technical Publications Section (PC 060), Av. Brigadeiro Faria Lima, 2170—Putin—12227–901 São José dos Campos—SP—Brazil; telephone +55 12 9392–5852 or +55 12 3309–0732; fax +55 12 3927–7546; email distrib@embraer.com.br; Internet http://www.flyembraer.com. You may view this referenced service information at the FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, WA. For information on the availability of this material at the FAA, call 425–227–1221.

Examing the AD Docket

You may examine the AD docket on the Internet at http://www.regulations.gov by searching for and locating Docket No. FAA–2017–0697; or in person at the Docket Management Facility between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The AD docket contains this proposed AD, the regulatory evaluation, any comments received, and other information. The street address for the Docket Operations office (telephone 800–647–5527) is in the ADDRESSES section. Comments will be available in the AD docket shortly after receipt.

SUPPLEMENTARY INFORMATION:

Comments Invited

We invite you to send any written relevant data, views, or arguments about this proposal. Send your comments to an address listed under the ADDRESSES section. Include ‘‘Docket No. FAA–2017–0697; Directorate Identifier 2017–NM–041–AD’’ at the beginning of your comments. We specifically invite comments on the overall regulatory, economic, environmental, and energy aspects of this proposed AD. We will consider all comments received by the closing date and may amend this proposed AD based on those comments.

We will post all comments we receive, without change, to http://www.regulations.gov, including any personal information you provide. We will also post a report summarizing each substantive verbal contact we receive about this proposed AD.

Discussion

Fatigue damage can occur locally, in small areas or structural design details, or globally, in widespread areas. Multiple-site damage is widespread damage that occurs in a large structural element such as a single rivet line of a lap splice joining two large skin panels. Widespread damage can also occur in multiple elements such as adjacent frames or stringers. Multiple-site damage and multiple-element damage cracks are typically too small initially to be reliably detected with normal inspection methods. Without intervention, these cracks will grow, and eventually compromise the structural integrity of the airplane. This condition is known as widespread fatigue damage. It is associated with general degradation of large areas of structure with similar structural details and stress levels. As an airplane ages, WFD will likely occur, and will certainly occur if the airplane is operated long enough without any intervention.

The FAA’s WFD final rule (75 FR 69746, November 15, 2010) became effective on January 14, 2011. The WFD
Airworthiness Information, or "the FAA Administrator. "Subtitle VII: Airworthiness Programs," describes in more detail the scope of the Agency’s authority.

We are issuing this rulemaking under the authority described in “Subtitle VII, Part A, Subpart III, Section 44701: General requirements.” Under that section, Congress charges the FAA with promoting safe flight of civil aircraft in air commerce by prescribing regulations for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. This regulation is within the scope of that authority because it addresses an unsafe condition that is likely to exist or develop on products identified in this rulemaking action.

Regulatory Findings

We determined that this proposed AD would not have federalism implications.
under Executive Order 13132. This proposed AD would not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify this proposed regulation:
1. Is not a "significant regulatory action" under Executive Order 12866;
2. Is not a "significant rule" under the DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979);
3. Will not affect intrastate aviation in Alaska; and
4. Will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 39
Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

The Proposed Amendment

Accordingly, under the authority delegated to me by the Administrator, the FAA proposes to amend 14 CFR part 39 as follows:

PART 39—AIRWORTHINESS DIRECTIVES

■ 1. The authority citation for part 39 continues to read as follows:
Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]
■ 2. The FAA amends § 39.13 by adding the following new airworthiness directive (AD):

Directorate Identifier 2017–NM–041–AD.

(a) Comments Due Date
We must receive comments by August 31, 2017.

(b) Affected ADs
None.

(c) Applicability
This AD applies to the airplanes specified in paragraphs (c)(1) and (c)(2) of this AD, certified in any category.

(d) Subject
Air Transport Association (ATA) of America Code 53, Fuselage.

(e) Reason
This AD was prompted by an evaluation by the design approval holder indicating that the forward bulkhead is subject to widespread fatigue damage. We are issuing this AD to prevent fatigue cracking of the forward pressure bulkhead, which could result in reduced structural integrity of the airplane.

(f) Compliance
Comply with this AD within the compliance times specified, unless already done.

(g) Repetitive Inspections and Repairs

Before the accumulation of 25,954 total flight cycles, or within 3,600 flight cycles after the effective date of this AD, whichever occurs later: Do a detailed inspection of the web aft face of the forward pressure bulkhead for any cracking or discrepancy (i.e., corrosion, dents, gauge marks, fastener anomalies), in accordance with Task 53–10–001–0005 of Embraer 170/175 Maintenance Review Board Report, MRB–1621, Temporary Revision 12–3, dated September 19, 2016; or Task 53–10–001–0005 of Embraer 190/195 Maintenance Review Board Report, MRB–1928, Temporary Revision 10–4, dated September 19, 2016; as applicable. Repeat the inspection thereafter at intervals not to exceed 6,489 flight cycles. If any cracking or discrepancy is found during any inspection required by this paragraph, before further flight, repair the forward pressure bulkhead using a method approved by the Manager, International Branch, ANM–116, Transport Airplane Directorate, FAA; or the Agência Nacional de Aviação Civil (ANAC); or ANAC's authorized Designee.

(h) Modification of the Forward Pressure Bulkhead
Before the accumulation of 38,931 total flight cycles: Modify the forward pressure bulkhead, in accordance with the Accomplishment Instructions of Embraer Service Bulletin 170–53–0051, Revision 03, dated August 21, 2013; or Embraer Service Bulletin 190–53–0019, Revision 03, dated August 21, 2013; as applicable. Accomplishing the modification required by this paragraph terminates the requirements of paragraph (g) of this AD.

(i) Credit for Previous Actions

(1) This paragraph provides credit for the actions applicable to Model ERJ 170 airplanes required by paragraph (h) of this AD, if those actions were performed before the effective date of this AD, using the service information specified in paragraphs (i)(1)(i), (i)(1)(ii), or (i)(1)(iii) of this AD.

(j) Other FAA AD Provisions

The following provisions also apply to this AD:
(1) Alternative Methods of Compliance (AMOCs): The Manager, International Branch, ANM–116, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or local Flight Standards District Office, as appropriate. If sending information directly to the manager of the International Branch, send it to the attention of the person identified in paragraph (k)(2) of this AD. Information may be emailed to: 9-ANM-116-AMOC-REQUESTS@faa.gov. Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the local flight standards district office/certificate holding district office.

(2) Contacting the Manufacturer: For any requirement in this AD to obtain corrective actions from a manufacturer, the action must be accomplished using a method approved by the Manager, International Branch, ANM–116, Transport Airplane Directorate, FAA; or the Agência Nacional de Aviação Civil (ANAC); or ANAC's authorized Designee. If approved by the ANAC Designee, the approval must include the Designee's authorized signature.

(k) Related Information

(1) Refer to Mandatory Continuing Airworthiness Information (MCAI) Brazilian AD 2017–03–01, dated March 24, 2017, for related information. This MCAI may be found in the AD docket on the Internet at http://www.regulations.gov by searching for and locating Docket No. FAA–2017–0697.

You can also find more information about this AD at http://www.flyembraer.com. You can view this service information at the FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, WA. For information on the availability of this material at the FAA, call 425–227–1221.

Procedures To Adjust Customs COBRA User Fees To Reflect Inflation

AGENCY: U.S. Customs and Border Protection, Department of Homeland Security; Department of the Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document proposes to amend the U.S. Customs and Border Protection (CBP) regulations to reflect that customs user fees and limitations established by the Consolidated Omnibus Budget Reconciliation Act (COBRA) will be adjusted for inflation in accordance with the Fixing America’s Surface Transportation Act (FAST Act).

DATES: Comments must be received on or before August 16, 2017.

ADDRESSES: You may submit comments, identified by docket number, by one of the following methods:

Instructions: All submissions received must include the agency name and docket number for this rulemaking. All comments received will be posted without change to http://www.regulations.gov, including any personal information provided. For detailed instructions on submitting comments and additional information on the rulemaking process, see the “Public Participation” heading of the SUPPLEMENTARY INFORMATION section of this document.

Docket: For access to the docket to read background documents or comments received, go to http://www.regulations.gov. Submitted comments may also be inspected during regular business days between the hours of 9 a.m. and 4:30 p.m. at the Trade and Commercial Regulations Branch, Regulations and Rulings, Office of Trade, U.S. Customs and Border Protection, 90 K Street NE., 10th Floor, Washington, DC Arrangements to inspect submitted comments should be made in advance by calling Mr. Joseph Clark at (202) 325–0118.

FOR FURTHER INFORMATION CONTACT: Jeffrey Caine, Executive Director—Budget, 202–325–4054, jeffrey.caine@cbp.dhs.gov; or Bruce Ingalls, Director—Revenue Division, 317–298–1107, bruce.ingalls@cbp.dhs.gov.

SUPPLEMENTARY INFORMATION:

Background

On December 4, 2015, the Fixing America’s Surface Transportation Act (FAST Act, Pub. L. 114–94) was signed into law. Section 32201 of the FAST Act amends section 13031 of the Consolidated Omnibus Budget Reconciliation Act (COBRA) of 1985 (19 U.S.C. 58c) by requiring certain customs COBRA user fees and corresponding limitations to be adjusted by the Secretary of the Treasury (“Secretary”) to reflect certain increases in inflation. The specific fees and corresponding limitations to be adjusted for inflation are set forth in Tables 1 and 2 below and include the commercial vessel arrival fees, commercial truck arrival fees, railroad car arrival fees, private vessel arrival fees, private aircraft arrival fees, commercial aircraft passenger arrival fees, dutiable mail fees, customs broker permit user fees, barges and other bulk carriers arrival fees, and merchandise processing fees as well as the corresponding limitations. (19 U.S.C. 58c(a) and (b)). Further, the FAST Act includes a particular measure of inflation for these purposes and special rules when considering adjustments. According to the FAST Act, the customs COBRA user fees and limitations were to be adjusted on April 1, 2016, and by the end of each fiscal year to reflect the percent increase (if any) in the Consumer Price Index (CPI) for the preceding 12-month period compared to the CPI for fiscal year 2014. The statute permits the Secretary to ignore any CPI increase of less than one (1) percent, the Secretary has discretion to determine whether the fees should be adjusted.

On June 15, 2016, CBP published a notice in the Customs Bulletin announcing the April 2016 determination that no adjustment to the customs COBRA user fees and limitations was necessary based on the FAST Act provision as the increase of the CPI was less than one (1) percent. (Customs Bulletin, Vol. 50, No. 24, p. 13). CBP published a second notice in the Customs Bulletin on December 7, 2016, announcing that based on a less than one (1) percent increase in inflation no adjustment was necessary for fiscal year 2017. (Customs Bulletin Vol. 50, No. 49, p. 4).

The FAST Act specifies that the customs COBRA user fees and corresponding limitations should be adjusted to reflect the percentage of the increase (if any) in the average of the CPI for the preceding 12-month period compared to the CPI for fiscal year 2014. CBP has determined that the 12-month period for comparison will be June through May. This timeframe will allow for sufficient notice to the public of any adjustments prior to any changes becoming effective for each fiscal year.

The statute further requires the Secretary to round the amount of any increase in the CPI to the nearest dollar. The rounding requirement applies to the difference in the CPI from the comparison year to the current year when determining whether an adjustment is necessary. The rounding requirement does not apply to the fee amount resulting from any adjustment. As noted above, if the difference in the CPI since the last adjustment is less than one (1) percent, the Secretary may elect not to adjust the fees and limitations. CBP proposes to use the Consumer Price Index—All Urban Consumers, U.S. All items, 1982–84 (CPI–U) which can be found on the U.S. Department of Labor, Bureau of Labor Statistics Web site: www.bls.gov/cpi/. The CPI-U which can be found on the U.S. Department of Labor, Bureau of Labor Statistics Web site: www.bls.gov/cpi/. CBP’s Office of Finance will determine annually whether an adjustment to the fees and limitations is necessary and a notice specifying the amount of the fees and limitations will be published in the Federal Register for each fiscal year at least 30 days prior to the effective date of the new fees and limitations.

Explanation of Amendments

Part 24

Section 24.22 describes the customs COBRA user fees and corresponding limitations for certain services (set forth in Table 1 below), which include the commercial vessel arrival fees, commercial truck arrival
