

packets of the state finalists and make recommendations to NSF. NSF reviews these recommendations and recommends one awardee in both mathematics and science for all eligible jurisdictions, when possible, to OSTP. Alternatively, NSF may recommend two awardees from a discipline in a jurisdiction, when warranted.

Award Ceremony

The awardees are hosted for 3–4 days in Washington, DC, for a variety of professional development sessions and celebratory activities. Each awardee receives a citation signed by the President and \$10,000 from NSF. If scheduling permits, the President meets the teachers for a photo opportunity at the White House. The Director of OSTP and the Director of NSF present the citations to the teachers at an awards ceremony. Awardees also have the opportunity to meet their congressional representatives and education representatives from other federal agencies.

Estimate of Burden: These are annual award programs with application deadlines varying according to the program. Public burden also may vary according to program; however, across all the programs, it is estimated that each submission will average 19 hours per respondent. If the nominator is thoroughly familiar with the disciplinary background of the nominee, time spent to complete the nomination may be considerably reduced.

Respondents: Individuals, businesses or other for-profit organizations, universities, non-profit institutions, and Federal and State governments.

Estimated Number of Responses per Award: 1782 responses, broken down as follows: For the President's National Medal of Science, 80; for the Alan T. Waterman Award, 70; for the Vannevar Bush Award, 20; for the Public Service Award, 30; for the PAESMEM, 200; and 1400 for the PAEMST.

Estimated Total Annual Burden on Respondents: 41,350 hours, broken down by 1,600 hours for the President's National Medal of Science (20 hours per 80 respondents); 1,400 hours for the Alan T. Waterman Award (20 hours per 70 respondents); 300 hours for the Vannevar Bush Award (15 hours per 20 respondents); 450 hours for the Public Service Award (15 hours per 30 respondents); 4,000 hours for the PAESMEM (20 hours per 200 respondents); and 33,600 hours for the PAEMST (24 hours per 1400 respondents).

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–81114; File No. SR–FINRA–2017–015]

Self-Regulatory Organizations; Financial Industry Regulatory Authority, Inc.; Order Granting Approval of Proposed Rule Change To Make Available a New End-of-Day TRACE Transaction File

July 11, 2017.

I. Introduction

On May 18, 2017, the Financial Industry Regulatory Authority, Inc. (“FINRA”) filed with the Securities and Exchange Commission (“Commission”), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”) ¹ and Rule 19b–4 thereunder, ² a proposed rule change to amend FINRA Rule 7730 (Trade Reporting and Compliance Engine (“TRACE”)) to make available a new End-of-Day (“EOD”) TRACE Transaction File. The proposed rule change was published for comment in the **Federal Register** on May 30, 2017. ³ The Commission did not receive any comments on the proposal. As discussed below, the Commission is approving the proposed rule change.

II. Description of the Proposal

FINRA Rule 7730, among other things, sets forth the TRACE data products offered by FINRA. FINRA has proposed to amend Rule 7730 to make available a new EOD TRACE Transaction File to provide interested parties with an alternative means of receiving the transaction information disseminated each trading day as part of Real-Time TRACE transaction data

product. ⁴ FINRA stated in the Notice that some market participants had indicated that a simpler alternative that allows them to receive transaction information once a day in an EOD file would be useful.

The proposed EOD TRACE Transaction File would include the same data elements that are currently disseminated in the Real-Time TRACE transaction data product. The proposed EOD TRACE Transaction File would also be separately available for each data set for which Real-Time TRACE transaction data is available (*i.e.*, the Corporate Bond Data Set, Agency Data Set, Securitized Product Data Set, and Rule 144A Data Set). Subscribers to the EOD TRACE Transaction File would access the product daily after the TRACE system closes.

FINRA stated that it will announce the effective date of the proposed rule change in a *Regulatory Notice*. The effective date will be no later than 365 days following the Commission’s approval. FINRA stated in the Notice that it intends to establish a fee for the EOD product before the effective date of this proposed rule change. The fee will be established pursuant to a separate rule filing.

III. Discussion

After careful consideration, the Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities association. ⁵ In particular, the Commission finds that the proposed rule change is consistent with Section 15A(b)(6) of the Act, ⁶ which requires, among other things, that FINRA rules be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. The Commission notes that the new EOD product does not require member firms to provide FINRA with any additional data, and subscription to the product is optional. The new product will include the same data elements that FINRA already

disseminates in its Real-Time TRACE transaction data product and is a reasonable accommodation to market participants who may wish to obtain the same data in an EOD file.

IV. Conclusion

It is therefore ordered pursuant to Section 19(b)(2) of the Act ⁷ that the proposed rule change (SR–FINRA–2017–015) be, and hereby is, approved.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority. ⁸

Jill M. Peterson,

Assistant Secretary.
