SUPPLEMENTARY INFORMATION: Notice and request for public comment on this collection was published in the **Federal Register** on May 3, 2017 at 82 FR 84. The Agency did not receive any comments in response to the 60-day notice published in the **Federal Register**.

Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

Abstract: Under the PRA (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they collect or sponsor. Section 3506(c)(2)(A) of the PRA (944 U.S.C. 3506(c)(2)(A) requires federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection of information to OMB for approval. To comply with this requirement, CSOSA is publishing notice of the proposed collection of information set forth in this document. The proposed information collection activity provides a means to garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration’s commitment to improving service

delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

The Agency has traditionally used paper form surveys as its primary public information collection method. However, to further comply with the goals of the PRA, the Agency is planning to implement the use of online electronic survey tools to obtain customer and client feedback regarding Agency programs and supervision support services. The Agency will request authorization from OMB to add to the Agency’s current paper form option provided to our public stakeholders, an electronic option to complete the Agency’s standard surveys online. The contents in online version and in paper versions of the Agency’s surveys will be identical.

Similar to the process used for gaining public feedback via the Agency’s traditional paper form surveys, the online surveys would be forwarded to the meeting participants at the conclusion of an event or program via the participants previously registered email address. The results of the electronic surveys would be tallied by the online software and then forward to a centralized user account for further evaluation and review or to be merged with any results from completed hard copy paper surveys. Prior to implementation and use of the online survey, the Agency will conduct internal testing with fewer than nine members of the public to ensure proper functioning and ease of use.

The solicitation of feedback will target areas such as: Timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. Responses will be assessed to plan and inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from customers and
