

tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. Section 804, however, exempts from section 801 the following types of rules: Rules of particular applicability; rules relating to agency management or personnel; and rules of agency organization, procedure, or practice that do not substantially affect the rights or obligations of non-agency parties. 5 U.S.C. 804(3). Because this is a rule of particular applicability, EPA is not required to submit a rule report regarding this action under section 801.

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United

States Court of Appeals for the appropriate circuit by September 18, 2017. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. Parties with objections to this direct final rule are encouraged to file a comment in response to the parallel notice of proposed rulemaking for this action published in the proposed rules section of this **Federal Register**, rather than file an immediate petition for judicial review of this direct final rule, so that EPA can withdraw this direct final rule and address the comment in the proposed rulemaking. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

SUPPLEMENTARY INFORMATION:

I. Why is EPA using a direct final rule?

EPA is publishing this rule without a prior proposed rule because we view this as a noncontroversial action and anticipate no adverse comment. The EPAAR is being amended to make administrative changes including updates, corrections and minor edits. None of these changes are substantive or of a nature to cause any significant expense for EPA or its contractors. If EPA receives adverse comment, we will publish a timely withdrawal in the **Federal Register** informing the public that the rule will not take effect. Any parties interested in commenting must do so at this time.

II. Does this action apply to me?

This action applies to contractors who have or wish to have contracts with the EPA.

III. What should I consider as I prepare my comments for EPA?

A. *Submitting CBI.* Do not submit this information to EPA through <https://www.regulations.gov> or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD ROM that you mail to EPA, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

B. *Tips for Preparing Your Comments.* When submitting comments, remember to:

- Identify the rulemaking by docket number and other identifying information (subject heading, **Federal Register** date and page number).
- *Follow directions*—The agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.
- Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.
- Describe any assumptions and provide any technical information and/or data that you used.
- If you estimate potential costs or burdens, explain how you arrived at

your estimate in sufficient detail to allow for it to be reproduced.

- Provide specific examples to illustrate your concerns, and suggest alternatives.
- Explain your views as clearly as possible, avoiding the use of profanity or personal threats.
- Make sure to submit your comments by the comment period deadline identified.

VI. Statutory and Executive Order Reviews

A. Executive Order 12866: Regulatory Planning and Review and Executive Order 13563: Improving Regulation and Regulatory Review

This action is exempt from review by the Office of Management and Budget (OMB) because it is limited to matters of agency organization.

B. Paperwork Reduction Act

This action does not impose an information collection burden under the PRA because it does not contain any information collection activities.

C. Regulatory Flexibility Act (RFA), as Amended by the Small Business Regulatory Enforcement Fairness Act of 1996 (SBREFA), 5 U.S.C. 601 et seq.

I certify that this action will not have a significant economic impact on a substantial number of small entities under the RFA. In making this determination, the impact of concern is any significant adverse economic impact on small entities. An agency may certify that a rule will not have a significant economic impact on a substantial number of small entities if the rule relieves regulatory burden, has no net burden or otherwise has a positive economic effect on the small entities subject to the rule. This action amends the EPAAR to make administrative changes including updates, corrections, and minor edits. We have therefore concluded that this action will have no net regulatory burden for all directly regulated small entities.

D. Unfunded Mandates Reform Act

This action does not contain an unfunded mandate of \$100 million or more as described in UMRA, 2 U.S.C. 1531–1538, and does not significantly or uniquely affect small governments. The action imposes no enforceable duty on any state, local or tribal governments or the private sector.

E. Executive Order 13132: Federalism

This action does not have federalism implications. It will not have substantial

direct effects on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government.

F. Executive Order 13175: Consultation and Coordination With Indian Tribal Governments

This action does not have tribal implications, as specified in Executive Order 13175 (65 FR 67249, November 9, 2000). Thus, Executive Order 13175 does not apply to this action. In the spirit of Executive Order 13175, and consistent with EPA policy to promote communication between EPA and Tribal governments, EPA specifically solicits additional comment on this rule from Tribal officials.

G. Executive Order 13045: Protection of Children From Environmental Health Risks and Safety Risks

EPA interprets Executive Order 13045 (62 FR 19885, April 23, 1997) as applying only to those regulatory actions that concern health or safety risks, such that the analysis required under section 5–501 of the Executive Order has the potential to influence the regulation. This action is not subject to Executive Order 13045 because it does not establish an environmental standard intended to mitigate health or safety risks.

H. Executive Order 13211: Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use

This action is not subject to Executive Order 13211 (66 FR 28355 (May 22, 2001)), because it is not a significant regulatory action under Executive Order 12866.

I. National Technology Transfer and Advancement Act of 1995

This rulemaking does not involve technical standards.

J. Executive Order 12898: Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Populations

Executive Order 12898 (59 FR 7629, (February 16, 1994)) establishes federal executive policy on environmental justice. Its main provision directs federal agencies, to the greatest extent practicable and permitted by law, to make environmental justice part of their mission by identifying and addressing, as appropriate, disproportionately high and adverse human health or environmental effects of their programs, policies, and activities on minority

populations and low-income populations in the United States. EPA has determined that this final rule will not have disproportionately high and adverse human health or environmental effects on minority or low-income populations because it does not affect the level of protection provided to human health or the environment.

K. Congressional Review

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. Section 804 exempts from section 801 the following types of rules (1) rules of particular applicability; (2) rules relating to agency management or personnel; and (3) rules of agency organization, procedure, or practice that do not substantially affect the rights or obligations of non-agency parties. 5 U.S.C. 804(3). EPA is not required to submit a rule report regarding this action under section 801 because this is a rule of agency organization, procedure, or practice that does not substantially affect the rights or obligations of non-agency parties.

Percentage of work completed is the ratio of the direct labor hours performed in relation to the direct labor hours set forth in the contract in clause 48 CFR 1552.211–73, Level of Effort—Cost Reimbursement Contract. Subpart 1519.2—Policies**1519.201 Policy.**

Each program's Assistant or Associate Administrator shall be responsible for developing its socioeconomic goals on a fiscal year basis. The goals shall be developed in collaboration with the supporting Chiefs of Contracting Offices (CCOs) or Regional Acquisition Managers (RAMs), the assigned Small Business Specialist (SBS), and the Office of Small and Disadvantaged Business Utilization (OSDBU). The goals will be based on advance procurement plans and past performance. The goals shall be submitted to the Director of OSDBU, at least thirty (30) days prior to the start of the fiscal year.

1519.201–71 Director of the Office of Small and Disadvantaged Business Utilization.

The Director of the Office of Small and Disadvantaged Business Utilization (OSDBU) provides guidance and advice, as appropriate, to Agency program and contracts officials on small business programs. The OSDBU Director is the central point of contact for inquiries concerning the small business programs from industry, the Small Business Administration (SBA), and the Congress; and shall advise the Administrator and staff of such inquiries as required. The OSDBU Director shall represent the Agency in the negotiations with the other Government agencies on small business programs matters.

1519.201–72 Small business specialists.

The appointing authorities for regional SBSs are the RAMs. The SBSs for EPA headquarters, Research Triangle Park (RTP), and Cincinnati shall be appointed by the OSDBU Director. The SBS is administratively responsible directly to the appointing authority and, on matters relating to small business programs activities, receives technical guidance from the OSDBU Director.

(b) A copy of each appointment and termination of all SBSs shall be forwarded to the OSDBU Director. In addition to performing the duties outlined in paragraph (c) of this section that are normally performed in the activity to which assigned, the SBS shall perform such additional functions as may be prescribed from time to time in furtherance of overall small business programs goals. The SBS may be appointed on either a full- or part-time basis; however, when appointed on a

part-time basis, small business duties shall take precedence over collateral responsibilities.

(c) The SBS appointed pursuant to paragraph (a) of this section shall perform the following duties as appropriate:

(1) Maintain a program designed to locate capable small business sources for current and future acquisitions;

(2) Coordinate inquiries and requests for advice from small business concerns on acquisition matters;

(3) Review all proposed solicitations in excess of the simplified acquisition threshold, assure that small business concerns will be afforded an equitable opportunity to compete, and, as appropriate, initiate recommendations for small business set-asides, or offers of requirements to the Small Business Administration (SBA) for the 8(a) program, and complete EPA Form 1900–37, "Record of Procurement Request Review," as appropriate;

(4) Take action to assure the availability of adequate specifications and drawings, when necessary, to obtain small business participation in an acquisition. (5) Review proposed contracts for possible breakout of items or services suitable for acquisition from small business concerns;

(6) Participate in the evaluation of a prime contractor's small business subcontracting programs;

(7) Assure that adequate records are maintained, and accurate reports prepared, concerning small business participation in acquisition programs;

(8) Make available to SBA copies of solicitations when so requested; and

(9) Act as liaison with the appropriate SBA office or representative in connection with matters concerning the small business programs including set-asides.

Procedures for Participation in the EPA Mentor-Protégé Program (SEP 2017)

(a) This provision sets forth the procedures for participation in the EPA Mentor-Protégé Program (hereafter referred to as the Program). The purpose of the Program is to increase the participation of concerns owned and/or controlled by socially and economically disadvantaged individuals as subcontractors, suppliers, and ultimately as prime contractors; to establish a mutually beneficial relationship between these concerns and EPA's large business prime contractors (although small businesses may participate as Mentors); to develop the technical and corporate administrative expertise of these concerns, which will ultimately lead to greater success in competition for contract opportunities; to promote the economic stability of these concerns; and to aid in the achievement of goals for the use of these concerns in subcontracting activities under EPA contracts. If the successful offeror is accepted into the Program they shall serve as a Mentor to a Protégé firm(s), providing developmental assistance in accordance with an agreement with the Protégé firm(s).

(e) The offeror shall submit an application in accordance with paragraph (k) of this

section as part of its proposal which shall include as a minimum the following information.

(1) A statement and supporting documentation that the offeror is currently performing under at least one active Federal contract with an approved subcontracting plan and is eligible for the award of Federal contracts;

(2) A summary of the offeror's historical and recent activities and accomplishments under any disadvantaged subcontracting programs. The offeror is encouraged to include any initiatives or outreach information believed pertinent to approval as a Mentor firm;

(3) The total dollar amount (including the value of all option periods or quantities) of EPA contracts and subcontracts received by the offeror during its two preceding fiscal years. (Show prime contracts and subcontracts separately per year);

(4) The total dollar amount and percentage of subcontract awards made to all concerns owned and/or controlled by disadvantaged individuals under EPA contracts during its two preceding fiscal years.

(f) In addition to the information required by paragraph (e) of this section, the offeror shall submit as a part of the application the following information for each proposed Mentor-Protégé relationship:

(1) Information on the offeror's ability to provide developmental assistance to the identified Protégé firm and how the assistance will potentially increase contracting and subcontracting opportunities for the Protégé firm.

(2) A letter of intent indicating that both the Mentor firm and the Protégé firm intend to enter into a contractual relationship under which the Protégé will perform as a subcontractor under the contract resulting from this solicitation and that the firms will negotiate a Mentor-Protégé agreement. The letter of intent must be signed by both parties and contain the following information:

(iii) A statement that the Protégé firm meets the eligibility criteria;

(iv) A preliminary assessment of the developmental needs of the Protégé firm and the proposed developmental assistance the Mentor firm envisions providing the Protégé. The offeror shall address those needs and how their assistance will enhance the Protégé. The offeror shall develop a schedule to assess the needs of the Protégé and establish criteria to evaluate the success in the Program;

(v) A statement that if the offeror or Protégé firm is suspended or debarred while performing under an approved Mentor-Protégé agreement the offeror shall promptly give notice of the suspension or debarment to the EPA Office of Small and

Disadvantaged Business Utilization (OSDBU) and the Contracting Officer. The statement shall require the Protégé firm to notify the Contractor if it is suspended or debarred.

(g) The application will be evaluated on the extent to which the offeror's proposal addresses the items listed in paragraphs (e) and (f) of this section. To the maximum extent possible, the application should be limited to not more than 10 single pages, double spaced. The offeror may identify more than one Protégé in its application.

Unless EPA is the responsible audit agency under FAR 42.703–1, offerors are encouraged to enter into an advance agreement with their responsible audit agency on the treatment of such costs when determining indirect cost rates. Where EPA is the responsible audit agency, these costs will be considered in determining indirect cost rates.

RIN 0648-XF558

Fisheries of the Exclusive Economic Zone Off Alaska; Reapportionment of the 2017 Gulf of Alaska Pacific Halibut Prohibited Species Catch Limits for the Trawl Deep-Water and Shallow-Water Fishery Categories

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; reapportionment.

SUMMARY: NMFS is reapportioning the seasonal apportionments of the 2017 Pacific halibut prohibited species catch (PSC) limits for the trawl deep-water and shallow-water species fishery categories in the Gulf of Alaska. This action is necessary to account for the actual halibut PSC use by the trawl deep-water and shallow-water species fishery categories from May 15, 2017 through June 30, 2017. This action is consistent with the goals and objectives of the Fishery Management Plan for Groundfish of the Gulf of Alaska.

DATES: Effective 1200 hours, Alaska local time (A.l.t.), July 17, 2017, through 2400 hours, A.l.t., December 31, 2017.

FOR FURTHER INFORMATION CONTACT: Obren Davis, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the Gulf of Alaska (GOA) exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The final 2017 and 2018 harvest specifications for groundfish in the GOA (82 FR 12032, February 27, 2017) apportion the 2017 Pacific halibut PSC limit for trawl gear in the GOA to two trawl fishery categories: A deep-water species fishery and a shallow-water species fishery. The halibut PSC limit for these two trawl fishery categories is

further apportioned by season, including four seasonal apportionments to the shallow-water species fishery and three seasonal apportionments to the deep-water species fishery. The two fishery categories also are apportioned a combined, fifth seasonal halibut PSC limit. Unused seasonal apportionments are added to the next season apportionment during a fishing year.

Regulations at § 679.21(d)(4)(iii)(D) require NMFS to combine management of the available trawl halibut PSC limits in the second season (April 1 through July 1) deep-water and shallow-water species fishery categories for use in either fishery from May 15 through June 30 of each year. Furthermore, NMFS is required to reapportion the halibut PSC limit between the deep-water and shallow-water species fisheries after June 30 to account for actual halibut PSC use by each fishery category during May 15 through June 30. As of July 13, 2017, NMFS has determined that the trawl deep-water and shallow-water fisheries used 196 metric tons (mt) and 33 mt of halibut PSC, respectively, from May 15 through June 30. Accordingly, pursuant to § 679.21(d)(4)(iii)(D), the Regional Administrator is reapportioning the combined first and second seasonal apportionments (810 mt) of halibut PSC limit between the trawl deep-water and shallow-water fishery categories to account for the actual PSC use (722 mt) in each fishery. Therefore, Table 15 of the final 2017 and 2018 harvest specifications for groundfish in the GOA (82 FR 12032, February 27, 2017) is revised consistent with this adjustment.

TABLE 15—FINAL 2017 AND 2018 APPORTIONMENT OF PACIFIC HALIBUT PSC TRAWL LIMITS BETWEEN THE TRAWL GEAR DEEP-WATER SPECIES FISHERY AND THE SHALLOW-WATER SPECIES FISHERY CATEGORIES.
