SUPPLEMENTARY INFORMATION.

DATES: The SEDAR 54 assessment webinar III will be held on Monday, August 7, 2017, from 1 p.m. to 3 p.m.

ADDRESSES: The meeting will be held via webinar. The webinar is open to members of the public. Those interested in participating should contact Julie A. Neer at SEDAR (see **FOR FURTHER INFORMATION CONTACT**) to request an invitation providing webinar access information. Please request webinar invitations at least 24 hours in advance of each webinar.

SEDAR address: 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405.

FOR FURTHER INFORMATION CONTACT: Julie A. Neer, SEDAR Coordinator; (843) 571-4366; email: Julie.neer@safmc.net.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a multi-step process including: (1) Data

Workshop; (2) Assessment Process utilizing webinars; and (3) Review Workshop. The product of the Data Workshop is a data report that compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report that describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO's; International experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion in the Assessment Process webinars are as follows:

1. Using datasets and initial assessment analysis recommended from the Data Webinar, panelists will employ assessment models to evaluate stock status, estimate population benchmarks and management criteria, and project future conditions.

2. Participants will recommend the most appropriate methods and configurations for determining stock status and estimating population parameters.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Atlantic Coastal Fisheries Cooperative Management Act Provisions; Summer Flounder Fishery

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of determination of compliance for the State of New Jersey.

SUMMARY: This notice announces the Secretary of Commerce's compliance decision under the Atlantic Coastal Fisheries Cooperative Management Act regarding New Jersey recreational management of summer flounder. This notice is necessary to alert the public that the Secretary of Commerce has made a final determination and will not implement a Federal moratorium on fishing, possession, and landing of summer flounder in New Jersey's state waters. The intended effect of this notice is to inform the public of this determination of compliance.

DATES: The date of this determination was July 10, 2017.

FOR FURTHER INFORMATION CONTACT: Emily Gilbert, Fishery Policy Analyst, (978) 281-9244.

SUPPLEMENTARY INFORMATION: In accordance with the Atlantic Coastal Fisheries Cooperative Management Act (Atlantic Coastal Act), 16 U.S.C. 5101 *et seq.*, the Secretary of Commerce (Secretary) announces his determination that the State of New Jersey did not implement the measures required by the Atlantic States Marine Fishery Commission's Addendum XXVIII to the Flounder, Scup, and Black Sea Bass Interstate Fishery Management Plan (Addendum XXVIII). However, the Secretary finds that the management measures New Jersey failed to implement are not necessary for the

conservation of summer flounder. Based on the analysis provided by the State, it is likely that New Jersey's measures will result in similar levels of total removals as the measures outlined in Addendum XXVIII. As a result, the Secretary is not imposing a moratorium in New Jersey state waters.

The Atlantic Coastal Act's noncompliance review and determination process was previously outlined in a notice that published in the **Federal Register** on June 22, 2017, (82 FR 28476) and is not repeated here.

Dated: July 17, 2017.
