

Delivery, EPA ICR No. 2434.75, OMB Control No. 2010-0042), which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Pursuant to section 3506(c)(2)(A) of the PRA, EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: The information collection activity provides a means to garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. Qualitative feedback includes information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study.

This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Agency

and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management. The solicitation of feedback will target areas such as: Timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. Responses will be assessed to plan and inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from customers and stakeholders on the Agency's services will be unavailable.

The Agency will only submit a collection for approval under this generic clearance if: The collections are voluntary; the collections are low-burden for respondents and are low-cost for both the respondents and the Federal Government; the collections are noncontroversial and do not raise issues of concern to other Federal agencies; the collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future; personally identifiable information (PII) is collected only to the extent necessary and is not retained; information gathered will be used only internally for general service improvement and program management purposes and is not intended for release outside of the agency; information gathered will not be used for the purpose of substantially informing influential policy decisions; information gathered will yield qualitative information.

Respondents/affected entities: Individuals and Households; Businesses and Organizations; State, Local or Tribal Government.

Respondent's obligation to respond: Voluntary.

Estimated number of respondents: 120,000 (total).

Frequency of response: Once per request.

Total estimated burden: 30,000 hours. Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: There are no annualized capital or operation & maintenance costs.

Changes in estimates: There is an increase of 10,000 hours annually in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase in hours is due to the increase in the use of surveys by the Agency.

Courtney Kerwin,

Director, Regulatory Support Division.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9963-99-Region 6]

Clean Air Act Operating Permit Program; Petitions for Objection to State Operating Permit for Bunge North America, Inc. Destrehan Grain Elevator, Destrehan, St. Charles Parish, Louisiana

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final action.

SUMMARY: Pursuant to the Clean Air Act (CAA), the EPA Administrator signed an Order, dated June 7, 2017, denying a petition asking EPA to object to the operating permit issued by the Louisiana Department of Environmental Quality (LDEQ) to Bunge North America, Inc. (Bunge) for its Destrehan Grain Elevator. Title V operating permit number 2520-00048-V5 was issued on December 18, 2015 by the LDEQ to Bunge for modifications to the Destrehan Grain Elevator located in St. Charles Parish, Louisiana. EPA's June 7, 2017 Order responds to a petition submitted on January 24, 2016 by the Tulane Environmental Law Clinic on behalf of Petitioners Ms. Cynthia Portera and Ms. Toni Offerman. Sections 307(b) and 505(b)(2) of the Act provide that a petitioner may ask for judicial review of those portions of the Orders that deny objections raised in the petitions in the appropriate United States Court of Appeals. Any petition for review shall be filed within 60 days from the date this notice appears in the **Federal Register**, pursuant to section 307(b) of the Act.

ADDRESSES: You may review copies of the final Order, the petition, and other supporting information at EPA Region 6, 1445 Ross Avenue, Dallas, Texas 75202-2733.

EPA requests that if at all possible, you contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section to view copies of the final Order, petition, and other supporting information. You may view the hard copies Monday through Friday, from 9:00 a.m. to 3:00 p.m., excluding Federal holidays. If you wish to examine these documents, you should make an appointment at least 24 hours before the visiting day. Additionally, the final June 7, 2017 Order is available electronically at: https://www.epa.gov/sites/production/files/2017-06/documents/bunge_response2016.pdf.

FOR FURTHER INFORMATION CONTACT: Brad Toups at (214) 665-7258, email address: toups.brad@epa.gov or the above EPA, Region 6 address.

SUPPLEMENTARY INFORMATION: The CAA affords EPA a 45-day period to review, and object, as appropriate, to a title V operating permit proposed by a state permitting authority. Section 505(b)(2) of the CAA and 40 CFR 70.8(d) authorizes any person to petition the EPA Administrator, within 60 days after the expiration of this review period, to object to a title V operating permit if EPA has not done so. Petitions must be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided by the state, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period or unless the grounds for the issue arose after this period.

EPA received the petition from the Petitioners on January 24, 2016 for the operating permit issued on December 18, 2015 to Bunge North America, Inc. Destrehan Grain Elevator, Destrehan, St. Charles Parish, Louisiana.

The Petitioner requests that the Administrator object to the proposed operating permit issued by the LDEQ to Bunge based on two claims. The claims are described in detail in Section IV of the Order. In summary, the issues raised are that: (1) The permit fails to comply with the Act's requirements for inclusion of a compliance plan and schedule in an issued permit; and, (2) the permit should have addressed the state 'Environmental Assessment' as mandated under Louisiana Revised Statute R.S. 30:2018(C) for any source undergoing a 'substantial modification.' The Order issued on June 7, 2017 responds to the Petition and explains the basis for EPA's decision.

Dated: June 29, 2017.

Samuel Coleman,

Acting Regional Administrator, Region 6.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9965-16-OA]

Local Government Advisory Committee: Request for Nominations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of request for nominations.

SUMMARY: EPA's Local Government Advisory Committee (LGAC) is a federal advisory committee chartered in 1992 under the Federal Advisory Committee Act (FACA) to advise the EPA

Administrator "from the field" on a broad range of environmental issues impacting local governments. Current LGAC committee members, and future qualified nominees, hold either elected or non-elected/appointed positions and possess leadership experience—whether managerial or technical/programmatic—in the following contexts: Small community or township government (under 10,000 population); moderate-size or large city government; county government; state government; and, tribal government.

This notice solicits nominations to fill 10–15 vacancies on EPA's LGAC—currently comprised of 35 individuals—beginning in July, 2017. Vacancies are anticipated to be filled by September, 2017.

DATES: Nominations are reviewed on an ongoing basis. However, to be considered for September 2017 appointments, nominations should be submitted by August 10, 2017.

ADDRESSES: Submit nominations electronically to eargle.frances@epa.gov with a subject heading of 'LGAC 2017 NOMINATION'. You may also submit nominations by mail to: M. Frances Eargle, LGAC Designated Federal Officer, Office of Congressional and Intergovernmental Relations (OCIR), U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue NW., (MC1301A), Washington, DC 20460. Non-electronic submissions must follow the same format and contain the same information.

FOR FURTHER INFORMATION CONTACT: M. Frances Eargle, Designated Federal Officer for the LGAC, U.S. EPA; telephone (202)564-3115; email: eargle.frances@epa.gov.

SUPPLEMENTARY INFORMATION:

Nominations: The credentials of all applicants/nominees will be fully considered, but viable candidates must—at a minimum—fall within the vocational/experiential parameters outlined in the Summary above. In addition to experience in local and/or state government, additional criteria to be considered may include: Experience with public-private partnerships; coalition-building and grass-roots involvement; implementation of environmental regulatory programs, whether federally-delegated, state-required or locally-mandated, including permitting programs, Brownfields, Superfund clean-up, air and water quality, and solid waste management; and, rural and/or small community economic development. Diversity in vocational/career background, including private sector/industry experience, agricultural sector experience,

professional affiliations, and demonstrated familiarity with local, regional and national environmental issues, also may be considered.

LGAC members are appointed for 1–2 year terms and are eligible for reappointment. The Committee meets several times a year, and the Administrator may ask members to serve on Subcommittees and Workgroups to develop reports and recommendations to address specific policy issues. The average workload for members is approximately 5 to 8 hours per month. While EPA is unable to provide compensation for services, official Committee travel and related expenses (lodging, etc.) will be fully reimbursed.

Nominations can be submitted in electronic format (preferred) or in hard copy format (see **ADDRESSES** section above). To be considered, all nominations should include:

- Current contact information for the applicant/nominee, including name, organization (and position within that organization), current business address, email address, and daytime telephone number;
- Brief statement describing the nominee's interest in serving on the LGAC;
- Resume and short biography (no more than 2 paragraphs) describing professional, educational and other pertinent qualifications of the nominee, including a list of relevant activities as well as any current or previous service on advisory committees; and,
- Letter(s) of recommendation from a third party (or parties) supporting the nomination. Letter(s) should describe how the nominee's experience and knowledge will bring value to the work of the LGAC.

Other sources, in addition to this **Federal Register** notice, may be utilized in the solicitation of nominees. EPA expressly values and welcomes diversity. In an effort to obtain nominations of diverse candidates, the agency encourages nominations of women and men of all racial and ethnic groups. Individuals may self-nominate.

Dated: June 30, 2017.

M. Arnita Hannon-Christmon,

Acting Director, State and Local Relations, Office of Congressional and Intergovernmental Relations.
