Administration for Children and Families

Submission for OMB Review; Comment Request

Title: The Early Head Start Family and Child Experiences Survey 2018 (Baby FACES 2018).

OMB No.: 0970-0354.

Description: The Administration for Children and Families (ACF) at the U.S. Department of Health and Human Services (HHS) seeks approval to collect descriptive information for the Early Head Start Family and Child Experiences Survey 2018 (Baby FACES 2018). This information collection is to provide nationally representative data on Early Head Start (EHS) programs, centers, classrooms, staff, and families to guide program planning, technical assistance, and research.

The proposed data collection builds upon a prior study (Baby FACES 2009; OMB 0970-0354) that longitudinally followed two cohorts of children through their experience in the program. While that study provided a great deal

of information about program participation over time and about services received by children and families, it did not allow for national level estimates of service quality, nor inferences about children who enter the program after 15 months of age. To fill these knowledge gaps and to answer additional questions about how programs function, the proposed Baby FACES 2018 design will include a cross-section of a nationally representative sample of programs, centers, home visitors, teachers, classrooms, children and families. This will allow nationally representative estimates at all levels at a point in time and will include the entire age span of enrolled children.

The goal of this work is to obtain updated information on EHS programs and understand better how program processes support relationships (e.g., between home visitors and parents, between parents and children, and between teachers and children) which are hypothesized to lead to improved child and family outcomes.

Respondents: Early Head Start program directors, child care center directors, teachers and home visitors, and parents of enrolled children.
