Authority: Under the PRA of 1995 (Public Law 104-13; 44 U.S.C. 3501-3521).

Title: Department Of Veteran Affairs Acquisition Regulation (VAAR) Clauses 852.236-72, 852.236.80, 852.236-82, 852.236-83, 852.236-84 and 852.236-88.

OMB Control Number: 2900-0422.

Type of Review: Extension of a currently approved collection.

Abstract: This collection of information contains the following six collections of information for the following Department of Veterans Affairs Acquisition Regulation (VAAR) clauses: (1) VAAR clause 852.236-72, Performance of Work by the Contractor, requires contractors awarded a construction contract containing Federal Acquisition Regulation (FAR) clause 52.236-1, Performance of Work by the Contractor, to submit a statement designating the branch or branches of contract work to be performed by the contractor's own forces. The FAR clause requires the contractor to perform a minimum percentage of the work under the contract with its own forces. This VAAR clause implements this FAR

clause by requiring the contractor to provide information to the contracting officer on just how the contractor intends to fulfill this contractual obligation. The information is used by the contracting officer to ensure that the contractor complies with the contract requirements; (2) VAAR clause 852.236-80, Subcontracts and Work Coordination requires construction contractors, on contracts involving complex mechanical-electrical work, to furnish coordination drawings showing the manner in which utility lines will fit into available space and relate to each other and to the existing building elements. The intent of this information is to promote carefully planned work sequencing and proper trade coordination on construction contracts, to assure expeditious solutions to problems, and to avoid or minimize additional costs to the contractor and the Government. The information is used by the contracting officer and the VA engineer assigned to the project to resolve any problems relating to the installation of utilities on construction contracts; (3) VAAR clause 852.236-84, Schedule of Work Progress, requires construction contractors, on contracts that do not require the use of a NAS, to submit a progress schedule. The information is used by the contracting officer to track the contractor's progress under the contract and to determine whether or not the contractor is making satisfactory progress (4) VAAR clause 852.236-88, Contract Changes, supplements FAR clause 52.243-4, Changes. FAR clause 52.243-4 authorizes the contracting officer to order changes to a construction contract but does not specifically require the contractor to submit cost proposals for those changes. VAAR clause 852.236-88 requires contractors to submit cost proposals for changes ordered by the contracting officer or for changes proposed by the contractor. This information is needed to allow the contracting officer and the contractor to reach a mutually acceptable agreement on how much to pay the contractor for the proposed changes to the contract. It is also used by the contracting officer to determine whether or not to authorize the proposed changes or whether or not additional or alternate changes are needed; (5) VAAR clause 852.236-82, Payments under Fixed-Price Construction Contracts (without NAS-CPM), with its Alternate I, requires construction contractors to submit a schedule of costs for work to be performed under the contract. In addition, if the contract includes guarantee period services, Alternate I,
