Administration for Children and Families

Proposed Information Collection Activity; Comment Request

Title: Culture of Continuous Learning Project: A Breakthrough Series Collaborative for Improving Child Care and Head Start Quality.

OMB No.: New Collection.

Description: The Office of Planning, Research and Evaluation (OPRE) in the Administration for Children and Families (ACF) is proposing an information collection activity for the Culture of Continuous Learning Project. The goal of the project is to assess the feasibility of implementing continuous quality improvement methods in early care and education programs to support the use and sustainability of evidence-based practices. A Breakthrough Series Collaborative (BSC), a specific model designed to support learning and improvement among practitioners at all levels of an organization, will be implemented in Head Start and child care settings. The BSC methodology has not been tested rigorously in early care

and education programs, but has been studied in health care and other fields. The findings will be of broad interest to child care early education programs as well as training and technical assistance providers and researchers, all of whom are interested in improving the quality of services young children receive.

Head Start and child care programs that voluntarily participate in the BSC will be asked to complete a number of implementation tools as part of the BSC activities. Data collection for the feasibility study will involve focus groups, online surveys, direct observation, and document review.

Respondents: Up to 18 early childhood centers will be invited to express interest in participating in the BSC. Up to 8 centers will be selected to participate in the BSC and feasibility study. Core BSC Teams consisting of up to 6 individuals (e.g., directors, lead teachers, assistant teachers, teacher aides, parents, curriculum specialists, etc.) each from four Early Head Start or Head Start programs and four child care programs in a selected geographic location (for a total of 48 individuals); and up to 24 additional teachers or program staff at the same centers who are not part of the Core BSC Team.
