TxDOT's normal business hours are 8:00 a.m. to 5:00 p.m. (central time), Monday through Friday.

SUPPLEMENTARY INFORMATION: Notice is hereby given that TxDOT and Federal agencies have taken final agency actions by issuing licenses, permits, and approvals regarding the following highway project in the State of Texas: MoPac (Loop 1) Intersections, Travis County, Texas.

This notice announces the following actions relating to the proposed Loop 1 Intersections project taken by TxDOT and Federal agencies which occurred subsequent to the publication of the prior notice and that are final within the meaning of 23 U.S.C. 139(l)(1): TxDOT's reevaluation of the Loop 1 Intersections project (Reevaluation); and TxDOT's effect determination and conclusion of informal consultation with U.S. Fish and Wildlife Service (USFWS) pursuant to Section 7 of the Endangered Species Act. Those actions grant licenses, permits, and approvals for the project.

Subsequent to completion of the Final EA and FONSI in December 2015 and issuance of the prior notice on February 19, 2016, TxDOT performed a Reevaluation to examine the potential effects of the proposed Loop 1 Intersections project on the golden-cheeked warbler (GCW) (*Setophaga chrysoparia*), Austin blind salamander (ABS) (*Eurycea waterlooensis*), Barton Springs salamander (BSS) (*Eurycea sosorum*), and designated critical habitat for the ABS. In the Reevaluation, TxDOT concluded that the Loop 1 Intersections project may affect but is not likely to adversely affect the GCW,

ABS, and BSS and that the project would result in no adverse modification of designated critical habitat for the ABS. Further, TxDOT determined that a Supplemental Environmental Assessment was not necessary.

Pursuant to the Endangered Species Act, 16 U.S.C. 1531-1544, USFWS issued its concurrence with TxDOT's determination that the Loop 1 Intersections project may affect but is not likely to adversely affect the GCW, ABS, and BSS and that the project would result in no adverse modification of designated critical habitat for the ABS.

The actions by TxDOT and the Federal agencies, and the laws under which such actions were taken, are described in the Reevaluation, signed on June 28, 2017, and in the USFWS concurrence letter issued on June 23, 2017. The Reevaluation, USFWS concurrence letter, and other documents in the administrative record file are available by contacting TxDOT at the address provided above.

Title: Roadway Safety Data Capability Assessment.

Background: Federal Highway Administration (FHWA) is initiating a large-scale effort to expand its relationships with the States to develop a better understanding of their data capabilities and conditions of data collection. The effort, known as the Roadway Safety Data Capabilities Assessment, will be conducted in 50 States, the District of Columbia and Puerto Rico. The two major objectives are to (1) create a mechanism by which a national and State-specific gap analyses could be conducted to identify opportunities to improve capabilities and (2) provide tools and assistance to assist States in overcoming those gaps. The results will provide a detailed understanding (for FHWA and the States themselves) of the needs for complete, accurate roadway, crash, and traffic volume data for use in safety analysis. The assessment will yield both a quantitative understanding of each State's capability (using a capability maturity model) and State-specific action plans in the key areas of:

- Roadway inventory data collection and technical standards
- Data analysis tools and uses
- Data management and governance
- Data integration and expandability

- Performance management
- The results will also be useful for States and FHWA in their efforts to develop programs and make improvements in roadway safety management.

Respondents: 50 State DOT participants the District of Columbia and Puerto Rico.

Frequency: Once every 5 years.

Estimated Average Burden per Response: Approximately 36 hours per participant over a year.

Estimated Total Annual Burden Hours: Approximately 1,728 hours.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Requirements (ICRs) abstracted below have been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describe the nature of the information collection and their expected burdens. The **Federal Register** notice with a 60-day comment period

soliciting comments on the following collections of information was published on April 24, 2017 (82 FR 18964).

DATES: Comments must be submitted on or before August 28, 2017.

On April 24, 2017, FTA published a 60-day notice (82 FR 18964) in the **Federal Register** soliciting comments on the ICR that the agency was seeking OMB approval. Therefore, respondents should submit their respective comments to OMB within 30 days of publication to best ensure having their full effect. 5 CFR 1320.12(c); *see also* 60 FR 44983, Aug. 29, 1995.
