 Reinstatement without Change, National
 Cancer Institute (NCI), National
 Institutes of Health (NIH).

*Need and Use of Information
 Collection:* The availability of
 specimens and associated data is critical
 to increase our knowledge of cancer
 biology, and to translate important
 research discoveries to clinical
 application. The discovery and
 validation of cancer prevention markers
 require access, by researchers, to quality
 clinical biospecimens. In response, to
 this need, the National Cancer
 Institute's (NCI) Cancer Diagnosis
 Program has developed, and is
 expanding, a searchable database:
 Specimen Resource Locator (SRL). The
 SRL allows scientist in the research
 community and the NCI to locate
 specimens needed for their research.
 The SRL will list all NCI supported
 repositories and their links. This
 administrative submission is an on-line
 form that will collect information to
 manage and improve a program and its
 resources for the use of all scientists.
 This submission does not involve any
 analysis.

OMB approval is requested for 3
 years. There are no costs to respondents
 other than their time. The total
 estimated annualized burden hours are
 105.
