Public Participation and Request for Comments

This Notice relies on the authority of the Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended. An ICR is an application to OIRA seeking the approval, extension, or renewal of a Coast Guard collection of information (Collection). The ICR contains information describing the Collection's purpose, the Collection's likely burden on the affected public, an explanation of the necessity of the Collection, and other important information describing the Collection. There is one ICR for each Collection. The Coast Guard invites comments on whether this ICR should be granted based on the Collection being necessary for the proper performance of Departmental functions. In particular, the Coast Guard would appreciate comments addressing: (1) The practical utility of the Collection; (2) the accuracy of the estimated burden of the Collection; (3) ways to enhance the quality, utility, and clarity of information subject to the Collection; and (4) ways to minimize the burden of the Collection on respondents, including the use of automated

collection techniques or other forms of information technology. These comments will help OIRA determine whether to approve the ICR referred to in this Notice.

We encourage you to respond to this request by submitting comments and related materials. Comments to Coast Guard or OIRA must contain the OMB Control Number of the ICR. They must also contain the docket number of this request, [USCG–2016–1000], and must be received by August 28, 2017.

Notice of Intent To Prepare an Environmental Impact Statement and Notice of Public Meeting on a Federal Coal Lease-by-Application in the Decertified Powder River Federal Coal Production Region, Wyoming

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of intent and notice of public meeting.

SUMMARY: Pursuant to the National Environmental Policy Act of 1969 (NEPA), as amended, the Bureau of Land Management (BLM), High Plains District Office announces its intent to prepare an Environmental Impact Statement (EIS) on the potential impacts of leasing a tract of Federal coal. The EIS will be called the West Antelope 3 Coal Lease by Application EIS. Antelope Coal, LLC (Antelope) applied for a coal lease for approximately 3,508.31 acres (containing approximately 441 million tons of in-place coal) in a maintenance tract of Federal coal adjacent to the Antelope Mine in Campbell and Converse Counties, Wyoming.

DATES: Comments may be submitted in writing until September 26, 2017. The BLM will host a public scoping meeting on September 20, 2017, at 7 p.m. to provide the public with an opportunity to review the proposal and gain an understanding of the coal leasing process.

ADDRESSES: Please submit written comments or concerns to the BLM High Plains District Office, Attn: Teresa Johnson, 2987 Prospector Drive, Casper, Wyoming 82604.

Written comments or resource information may also be hand-delivered to the BLM High Plains District Office, or sent by facsimile to the attention of Teresa Johnson at (307) 261-7587. Comments may be sent electronically to blm_wy_west_antelope_3@blm.gov. Please put "West Antelope 3 Coal EIS Scoping Comment" in the subject line.

The September 20 public scoping meeting will be held at the Wright Community Center, 201 Wright Blvd., Wright, Wyoming.

The BLM will announce future public meetings and other opportunities to submit comments on this project at least 15 days prior to the event through local news media and the BLM Wyoming Coal ePlanning Public Interface Site at: <http://bit.ly/PRBcoal>. SUPPLEMENTARY INFORMATION: Antelope Coal, LLC submitted an application on August 24, 2015, to lease a maintenance tract of Federal coal adjacent to the company's Antelope Mine in Campbell and Converse Counties, Wyoming. A maintenance tract is a parcel of land containing Federal coal reserves that can be leased to maintain production at an existing mine. The tract, referred to as the West Antelope 3 Tract, has been assigned case number WYW-184599.

The West Antelope 3 Tract includes approximately 441 million tons of in-place Federal coal underlying the

following lands in Campbell and Converse Counties, Wyoming:

Sixth Principal Meridian, Wyoming

T. 41 N., R. 71 W.,

Sec. 8;

Sec. 9, lots 1 thru 8;

Sec. 10, lot 5;

Secs. 17 and 19;

Sec. 20, lots 1 thru 13;

Sec. 29, lots 4, 5, 12, and 13;

Sec. 30, lots 5 thru 16.

Containing 3,508.31 acres.

Antelope Coal proposes to mine the tract as a part of the Antelope Mine. At the 2015 mining rate of approximately 35.2 million tons per year, the coal included in the West Antelope 3 Tract would extend the life of the Antelope Mine by as many as 10 years. Lands in the West Antelope 3 Tract contain private surface estate overlying the Federal coal. The Antelope Mine is operating under approved mining permits from the Land Quality and Air Quality Divisions of the Wyoming Department of Environmental Quality.

Consistent with Federal regulations under NEPA and the Mineral Leasing Act of 1920 (MLA), as amended, the BLM must prepare an environmental analysis prior to holding a competitive Federal coal lease sale. The Powder River Regional Coal Team recommended that the BLM process this coal lease application after they reviewed the West Antelope 3 Tract at a public meeting held on January 27, 2016, in Casper, Wyoming.

The Office of Surface Mining Reclamation and Enforcement (OSMRE) will be a cooperating agency in the preparation of the EIS. If the tract is leased to the applicant, the new lease must be incorporated into the existing mining and reclamation plans for the adjacent mine. Before the Federal coal in the tract can be mined, the Assistant Secretary for Land and Minerals Management must approve the revised mining plan for the mine in which the tract will be included. The OSMRE is the Federal agency that is responsible for recommending approval, approval with conditions, or disapproval of the revised mining plan to the Assistant Secretary for Land and Minerals Management. Other cooperating agencies may be identified during the scoping process.

The BLM will provide interested parties the opportunity to submit comments relating to the scope of the EIS or relevant information or both. This information will help the BLM identify issues to be considered in preparing the West Antelope 3 Coal Lease by Application EIS. Issues that have been identified in analyzing the impacts of
