We have no way of knowing how many broker-dealers and customers will choose to communicate electronically. Assuming that 50 percent of respondents continue to provide documents and obtain signatures in tangible form and 50 percent choose to communicate electronically to satisfy the requirements of Rule 15g-2, the total aggregate burden hours would be 2,060 (aggregate burden hours for sending disclosure documents and obtaining signed customer acknowledgements in tangible form × 0.50 of the respondents = 1,030 hours) + (aggregate burden hours for electronically signed and transmitted documents × 0.50 of the respondents = 773 hours) + (257 burden hours for those customers making requests for a copy of the information on the Commission’s Web site)).

Written comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency’s estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information under the PRA unless it displays a currently valid OMB control number.
