Administration for Children and Families

Submission for OMB Review; Comment Request

Title: Form OCSE-396, “Child Support Enforcement Program Quarterly Financial Report”, Form OCSE-34, “Child Support Enforcement Program Quarterly Collection Report”.

OMB No.: 0970-0181.

Description: Form OCSE-396 and Form OCSE-34 are financial reports submitted following the end of each fiscal quarter by grantees administering the Child Support Enforcement Program in accordance with plans approved

under title IV-D of the Social Security Act. Submission of these forms enables grantees to meet their statutory and regulatory requirement to report program expenditures and child support collections, respectively, from the previous fiscal quarter.

States use Form OCSE-396 to report quarterly expenditures made in the previous quarter and to estimate program expenditures to be made and the incentive payments to be earned in the upcoming quarter. The Administration for Children and Families provides Federal funding to States for the Child Support Enforcement Program at the rate of 66 percent for all allowable and legitimate administrative costs of this program.

Tribes use OMB Form SF-425 to report quarterly expenditures made in the previous quarter. Form SF-425 is not included as part of this comment request.

As part of this request, minor changes are being proposed only in response to amendments to Federal regulations:

- 45 CFR 304.25(b) was amended to extend the quarterly reporting deadline for both reports from “30” to “45” days after the end of each fiscal quarter.
- 45 CFR part 95 was amended to require that all expenditures for a Statewide Child Support Enforcement System will now require an approved Advanced Planning Document (APD). Therefore, Line 6 on Form OCSE-396, “ADP Costs Without APD Required” is being eliminated as no longer necessary.

The necessary instructions are being amended in response to both changes.

Respondents: 54 States (including Puerto Rico, Guam, the Virgin Islands and the District of Columbia) for Forms OCSE-396 and OCSE-34 plus approximately 60 Tribes for Form OCSE-34.

ANNUAL BURDEN ESTIMATES

Instrument	Number of respondents	Number of responses per respondent	Average burden hours per response	Total burden hours
Form OCSE-396	54	4	6	1,296
Form OCSE-34	114	4	14	6,384

Estimated Total Annual Burden Hours: 7,680.

BILLING CODE 4150-43-P

DEPARTMENT OF HOMELAND SECURITY

Agency Information Collection Activities: Proposed Collection; Comment Request; The Department of Homeland Security, Office of Emergency Communications, SAFECOM Nationwide Survey (SNS)

AGENCY: National Protection and Programs Directorate, DHS.

ACTION: 30-Day notice and request for comments; New Collection: 1670-NEW.

SUMMARY: The Department of Homeland Security (DHS), National Protection and Programs Directorate (NPPD), Office of Cybersecurity and Communications (CS&C), Office of Emergency Communications, will submit the following Information Collection Request (ICR) to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995. DHS previously published this ICR in the **Federal Register** for 60 days. The notice published as 60-Day Request for Comment on Thursday, April 27, 2017. DHS received comments from two stakeholders indicating an appreciation for public outreach. As a next step in the administrative process, a second notice will be published in the **Federal Register**. Its purpose is to allow an additional 30 days for the public to provide comments about the notice.

DATES: Comments are encouraged and will be accepted until September 5, 2017. DHS and OMB conducts this process in accordance with *Controlling Paperwork Burdens on the Public* rules and regulations. 5 CFR 1320.1 (1995).

ADDRESSES: Interested persons are invited to submit written comments on the proposed ICR to the Office of Information and Regulatory Affairs, Office of Management and Budget (OMB). Comments should be addressed to OMB Desk Officer, Department of Homeland Security and sent via electronic mail to oir_a_submission@omb.eop.gov or faxed to (202) 395-5806.

SUPPLEMENTARY INFORMATION: Enactment of 6 U.S.C. 571 governs the Office of Emergency Communications (OEC) and establishes a Director with specific responsibilities. This includes assisting the DHS Secretary in developing and implementing a program to support and promote the ability of emergency response providers and relevant government officials to continue to communicate in the event of natural disasters, acts of terrorism, and other man-made disasters; and ensure, accelerate, and attain interoperable emergency communications nationwide.

In addition, 6 U.S.C. 573 authorizes the DHS Secretary acting through the OEC Director to conduct a baseline assessment of communications capabilities among emergency response providers and relevant government officials at all levels of government no less than once every five years. OEC is tasked with conducting a periodic nationwide assessment of emergency communications.

OEC's governing statute provides a framework for its periodic assessment. Accordingly, OEC, in coordination with its stakeholder partners, developed the *SAFECOM Nationwide Survey (SNS)*. The survey's purpose is to gather information to assess capabilities currently available, and identify gaps based on the needs of emergency response providers. This information will allow OEC and its stakeholders to understand critical capabilities more clearly, and to target resources more efficiently for communications during response situations of all scales and scope, from day-to-day to out-of-the-ordinary situations.

To gather baseline assessment information, OEC will deploy four versions of the *SAFECOM Nationwide Survey (SNS)* tailored to address emergency response entities at each level of government: Federal, State and territorial, tribal, and local. Each SNS version is built upon a foundation of core planning elements identified by OEC and its stakeholders as fundamental to achieve open and secure communications operability, interoperability, and continuity. These elements are interdependent critical success factors that must be addressed to plan for and implement public safety communications capabilities. These elements are recognized as *Governance, Standard Operating Procedures, Training and Exercises, Technology, Usage, Security and Equipment*.

The SNS questions align with each of these elements. This design enables DHS to determine jurisdictional capability levels of operability, interoperability, and continuity as they collectively pertain to the use of emergency communications. For example, Governance questions will pertain to matters related to decision-making groups, agreements, funding, and strategic planning. Standard Operating Procedure questions will focus on procedures, guidelines, and content. Training and Exercise questions will focus on their nature, scope, and frequency. Technology questions will focus on infrastructure, solutions, and information-sharing. Usage questions will address frequency of use, proficiency, and resource
