AGENCY: Office of Energy Efficiency and Renewable Energy, U.S. Department of Energy (DOE).

ACTION: Notice and request for OMB review and comment.

SUMMARY: The Department of Energy’s (DOE) Office of Energy Efficiency and Renewable Energy (EERE) has submitted to the Office of Management and Budget (OMB) for clearance, a proposal for a three-year extension, with changes, of a

collection of information under the provisions of the Paperwork Reduction Act of 1995. The proposed collection will provide DOE with the information necessary to meet its statutory and regulatory obligations under the National Environmental Policy Act (NEPA) of 1969 and the DOE NEPA implementing regulations, which requires EERE to perform environmental impact analyses prior to making a decision to provide Federal funding for research, development and demonstration projects funded by DOE.

DATES: Comments regarding this collection must be received on or before September 7, 2017.

ADDRESSES: Written comments should be sent to: DOE Desk Officer at Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10102, 735 17th Street NW., Washington, DC 20503.

And to: Lisa Jorgensen at U.S. Department of Energy, 15013 Denver West Parkway, Golden, CO 80401, by fax at (720–562–1640), or by email at: EEREComments@ee.doe.gov.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the EERE Environmental Questionnaire should be directed to Lisa Jorgensen at: 720–356–1569 or by email at: EEREComments@ee.doe.gov. The EERE Environmental Questionnaire also is available for viewing in the Golden Field Office Public Reading Room at: www.energy.gov/node/2299401.

If you anticipate difficulty in submitting comments by the deadline, contact the DOE Desk Officer at OMB of your intention to make a submission as soon as possible. The Desk Officer may be telephoned at 202–395–4650.

SUPPLEMENTARY INFORMATION: This information collection request contains:

1. *OMB No.:* 1910–5175;
2. *Information Collection Request Title:* Office of Energy Efficiency and Renewable Energy (EERE) Environmental Questionnaire;
3. *Type of Request:* Extension, with changes;

4. *Purpose:* The DOE’s EERE provides Federal funding through Federal assistance programs to businesses, industries, universities, and other groups for renewable energy and energy efficiency research and development and demonstration projects. The National Environmental Policy Act (NEPA) of 1969 (42 U.S.C. 4321 *et seq.*) requires that an environmental analysis be completed for all major Federal actions significantly affecting the environment including projects entirely or partly financed by Federal agencies.

To effectively perform environmental analyses for these projects, the DOE's EERE needs to collect project-specific information from Federal financial assistance awardees. DOE's EERE has developed its Environmental Questionnaire to obtain the required information and ensure that its decision-making processes are consistent with NEPA as it relates to renewable energy and energy efficiency research and development and demonstration projects. Minor changes have been made to the Environmental Questionnaire that help to clarify certain questions, but do not change the meaning of the questions being asked;

5. *Annual Estimated Number of Total Responses*: 300;

6. *Average Hours per Response*: 1; and

7. *Annual Estimated Number of Burden Hours*: 300.

ENVIRONMENTAL PROTECTION AGENCY

[9965-35-OEI]

Cross-Media Electronic Reporting: Authorized Program Revision Approval, State of Illinois

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's approval of the State of Illinois' request to revise its EPA Administered Permit Programs: The National Pollutant Discharge Elimination System EPA-authorized program to allow electronic reporting.

DATES: EPA approves of the State of Illinois' authorized program revision(s) as of August 8, 2017.

FOR FURTHER INFORMATION CONTACT: Karen Seeh, U.S. Environmental Protection Agency, Office of Environmental Information, Mail Stop 2823T, 1200 Pennsylvania Avenue NW., Washington, DC 20460, (202) 566-1175, seeh.karen@epa.gov.

SUPPLEMENTARY INFORMATION: On October 13, 2005, the final Cross-Media Electronic Reporting Rule (CROMERR) was published in the **Federal Register**

(70 FR 59848) and codified as part 3 of title 40 of the CFR. CROMERR establishes electronic reporting as an acceptable regulatory alternative to paper reporting and establishes requirements to assure that electronic documents are as legally dependable as their paper counterparts. Subpart D of CROMERR requires that state, tribal or local government agencies that receive, or wish to begin receiving, electronic reports under their EPA-authorized programs must apply to EPA for a revision or modification of those programs and obtain EPA approval. Subpart D provides standards for such approvals based on consideration of the electronic document receiving systems that the state, tribe, or local government will use to implement the electronic reporting. Additionally, § 3.1000(b) through (e) of 40 CFR part 3, subpart D provides special procedures for program revisions and modifications to allow electronic reporting, to be used at the option of the state, tribe or local government in place of procedures available under existing program-specific authorization regulations. An application submitted under the subpart D procedures must show that the state, tribe or local government has sufficient legal authority to implement the electronic reporting components of the programs covered by the application and will use electronic document receiving systems that meet the applicable subpart D requirements.

On July 19, 2017, the Illinois Environmental Protection Agency (IEPA) submitted an application titled "NPDES e-Reporting Tool" for revision to its EPA-approved program under title 40 CFR to allow new electronic reporting. EPA reviewed IEPA's request to revise its EPA-authorized Part 123—EPA Administered Permit Programs: The National Pollutant Discharge Elimination System program and, based on this review, EPA determined that the application met the standards for approval of authorized program revision/modification set out in 40 CFR part 3, subpart D. In accordance with 40 CFR 3.1000(d), this notice of EPA's decision to approve Illinois's request to revise its Part 123—EPA Administered Permit Programs: The National Pollutant Discharge Elimination System program to allow electronic reporting under 40 CFR parts 122 and 125 is being published in the **Federal Register**.

IEPA was notified of EPA's determination to approve its application

with respect to the authorized program listed above.

Director, Office of Information Management.
