

process. Applications filed by stations that received a waiver of the July 12, 2017 filing deadline and displaced Class A stations are exempt from a filing fee.

Eligible stations may file applications for expanded facilities that qualify as a minor change under the Commission's rules, or for alternate channels which will be treated as major change applications under the Commission's rules. Applicants must protect the construction permit facilities of stations assigned to new channels, whether those stations' applications have been granted or remain pending, and must also protect the facilities specified in applications that were filed before the April 2013 freeze on applications proposing to extend a station's contour. Applications filed by displaced Class A stations must also demonstrate that the proposal would not cause interference to a low power television or translator facility previously authorized or proposed. A station that files an application that is incomplete or defective will be afforded an opportunity to submit an amendment to correct any defects, and failure to correct will result in dismissal of the application. If an application filed by (1) a station that was unable to construct the facilities specified in the Closing and Channel Reassignment Public Notice or (2) a displaced Class A station is dismissed, then the station must file a new application within 15 days of dismissal and pay the requisite filing fee.

Applications filed during the first priority filing window will be treated as filed on the last day of the window for purposes of determining mutual exclusivity. Stations with mutually exclusive applications will be notified and given a 90-day period to resolve their mutual exclusivity by proposing a technical solution or settlement in an amendment to their pending applications.
